

BHASKARA MINERALS

#14-8-1B, 1ST FLOOR, A1 FLAT, BHASKARA ESTATE, BESIDE DEVI MULTIPLEX,

KAKINADA-533 001, ANDHRA PRADESH, INDIA.

Justification for locating the project in the Forest area:

The mineral, i.e., Laterite of suitable quality is found in the Saralanka forest area in which we have applied for quarrying lease.

In other surrounding areas, Laterite of suitable quality is not available. The Saralanka Reserve Forest situated in East Godavari District, Andhra Pradesh, has abundant reserves of Laterite. In the surrounding Revenue areas, Laterite Mining is being done.

Hence, we located our project in this area.

For BHASKARA MINERALS
