REFERENCE

NOTES :-

Height data in meters and above Indian mean sea level.
Values are approximate.
Relative height, h_r , represents the approximate height, in meters, between the top and bottom of a steep slope.
The common boundary between Barabara and Unkarol Reserved Forests is shown in Fig. A. The forest shown in this area, usually contains water from July to February.
Scattered roads and cut-lines in the forest are generally maintainable in dry season.
The former boundaries of areas reserved for scheduled tribes are shown to give natural
