

## **JUSTIFICATION REPORT**

### **Gummidipoondi Panchayat union**

This proposed road is branching out at km: 8/8 of Kavarapettai – Sathyavedu road at Suravarikandigai village of G.R Kandigai panchayat. It is the starting point of the road and ending at manali habitation of erukkuvoy panchayat. This road is covering 1.430 km out of 2.740 km chainage: 1/310 to 2/740:1.430 km under manali reserve forest control classified as (reserve forest). This road serving for past three decades people are very frequently moving and utilizing this road for colleges , schools , hospitals , banks and jobs particularly nearby hospital are situated at Kavarapettai and G.R Kandigai Short distance of 5 Kms and 15 kms there is no any other connectivity road to highways road indirectly connectivity by 25 km. It is very difficult to reach nearby hospitals for emergency purpose particularly maternity and pregnant ladies are admitted in the nearby hospital more people are working in SIPCOT industries, and other public are approaching panchayat union office for MGNREGS work details and payment grievances to be collected through this road only and serving habitations are namely manali , Serpedu , Serpedu colony, Ezhuchipuram, Erukuvoy, Erukuvoy Kandigai and indirectly benefited by Karani, Pudupalayam, Mangalam, Nelvoy and Mukkarambakkam panchayats particularly these demographic areas are agricultural activities based and agricultural yields are daily marketed in Kavarapettai , Madharpakkam and Gummidipoondi day today life of Agriculturers are survived and social economical development to be

improved it must be very useful for nearly 1538 people are benefited directly and indirectly benefited population of 3504.

This road is distance of 2.740Km. There is no any mode of Transportation for Peoples are moving through this road only by walk or two wheelers. This is the only one way for easy commuting for people (Easy access). Hence this proposal is submitted on online for approval

This panchayat is reserve for schedule caste and schedule tribes. There is no any local job opportunities for people and majority of the people daily moving through this forest road to reach highways road for working in any field and return in the evening in the same route and the existing road is earthen very difficult to walk .

Hence necessary permission may please be requested to lay the road through the forest area so as to complete the road within the targeted period and benefited by the public.
