Following shortcomings have been noticed in the proposal:

1. At Part 1 and 2 Total period for which clearance is required (in year) cannot be Nil. Please mention the time for which the clearance is required. At A3 (xvi) instead of providing copy of documents in support of the competence/authority of the person to make application on behalf of the User Agency, Irrelevant documents have been uploaded.
2. At Part III the site has been inspected by Forest Divisional Officer. However, it is mandatory that officer not below rank of DFO is required to inspect the site.
3. At Part IV comments on the status of compliance on the previous approvals given to the project proponents in other proposals in the state to be provided.
4. Details of the projects and the Area(ha.)diverted/identified from the NP/WLS/ESZ so far for development and other purpose since it's notification and their impacts may also be sought.
5. Further, the recommendation letter has been signed by the FDO and not by the DFO. Recommendation letter to be signed by the DFO.

Please provide the above sought information at the earliest.
