

Justification and Detailed note of the Project

The TSNPDCL has proposed for Conversion of existing electrical lines using Aerial Bunched (AB) Cable (or) Insulated Conductor and extension of 3-phase agricultural power supply to ST Habitation at **Manubothulapadu(V), Aswapuram(M) in Bhadradi Kothagudem District** for 24 Hrs power supply to water grid services, agriculture services and local village, as the existing 11 KV line (Gollagudem feeder) is length of 22.0 KM which is emanating from 33/11 KV SS Aswapuram.

Erection of proposed line may increase the cultivation to the farmers with 24 hours uninterrupted electricity and also provide an option for developing new industries which creates employment. Hence, proposed for conversion of electrical lines.

The extent of forest land required is as follows:

Division Name	Block Name	Length in Mts	Width in Mts	Area in Ha
Manuguru	Manubothulapadu	9755.83	2.4	2.3414

Superintending Engineer,
Operation, Circle, TSNPDCL,
Bhadradi Kothagudem.
