### **JUSTIFICATION LETTER**

The said location has been selected duly considering the site specificity that the mineral i.e, Building Stone Materials is available as per the reports from concerned authorities. Further our Crusher is located r.sy.no. 20 , hattihalu village and it is the adjacent to the deemed forest land bearing on sy no 28/ 1P1 of Tyagadakatte Village, Honnalli Taluk, Davangere District..

and also in this surrounding more than 3 km crusher raw material of stone not available including private land or govt. land. the area surrounding cover agriculture land like commercial croft's and in this surrounding place within 500 m small quarry area available but its not sufficient for our crushing unit & also We have considering issues related to movement of men & material along with dumping of quarried minerals & waste. so that this is the best option and also adjacent quarry point to apply the stone quarry lease in f.sy.no.28/1p1, tyagadakatte village. its comes under channagiri forest range, davangere forest division.

Your faithfully.
