

OFFICE OF THE DEPUTY DIRECTOR OF PUBLIC INSTRUCTION EDUCATION
DIST:CHIKKODI

JUSTIFICATION FOR PROPOSED PROJECT IN FOREST AREA

Back ground: The Government Kannada Higher primary school Gutaguddi, tal: Hukkeri, Dist: Chikkodi was upgraded to High School (RMSA) in 2016-17 academic year. It is managed by state government. It has not owned own building and running in Kannada Primary School building. It is the most needed thing to have own building. As there are 313 students are studying in 9th and 10 class itself. There are more than 407 students studying in classes 1-8. Primary school has only 8class rooms and it is also facing the less classroom problem. Being a High School our school needs more than 8 rooms including classrooms, science lab, computer lab, staffroom, library room, craft room, auditorium, separate toilets for boys and girls etc. And it needs adequate play ground covered with compound wall. The government of Karnataka has sanctioned the grant of Rs. 1,28,53,458 for building construction. But due to unavailability of land it is impossible to fulfill all these basic requirements. After making all the efforts to have the land we could not get it. So the school has submitted the proposal for forest land which is nearly by to the said village. The supporting points are given below.

- I) The school is running with 313 students just in 3 small classrooms of primary school.
- II) It has no own land to build class rooms.
- III) We have to build needs more than 8 rooms including classrooms, science lab, computer lab, staffroom, library room, craft room, auditorium, separate toilets for boys and girls etc. And it needs adequate play ground covered with compound wall
- IV) The government of Karnataka has been sanctioned the grant of Rs1,28,59,428 for building construction.
- V) The matter was discussed in School Development and Management Committee to get the land.
- VI) We tried to get the land by donation from the above said villagers and nearby villagers. But it was not possible. No one is ready to donate the land.
- VII) We made news paper announcement requesting the land as donation.
- VIII) We tried to get government land from state government. As there is no government land is available in and around the village area it was impossible. The District Commissioner has certified that there is no government land in and around said village area.
- IX) There is no land other than forest land in said village.

DEPUTY DIRECTOR
OF PUBLIC INSTRUCTION EDUCATION
