HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL 100 METRES

Water features are shown in blue when they generally contain water. The exterior boundaries of areas of Reserved or Protected Forests are shown by green lines. Contours are approximate.

The interrupted heights and contours in this sheet have not been adjusted to the heights of the spot levelled bench-marks and may not be strictly in accordance with them. Where only contours are shown they are shown with their contours in straight lines. In 30' contours only kilometre stones are shown. Generally contours are shown and unlevelled roads are shown in the sheet.

Some of the Reserved and Protected Forests have not been shown in this sheet for want of reliable information. Some roads, rivers, railways, etc. have been shown as a result of unlevelled survey carried out during 1962-63. The sheet boundaries between Pachmarhi and Bundelkhand have been corrected during 1962-63 as far as possible on the ground but have not been verified by the concerned authorities.

Administrative Index

Name or Village	Approximate Distance in Kilometres
Bundelkhand	100
Chhindwara	100
Pachmarhi	100
Satpura	100
