

**Full Justification for Locating the Project**

The existing road between Lalgadi Malakpet To HKR Road is a narrow BT road of 3.8 km length and 7.0 mts width which connects Hyd-Karimnagar-Ramagundem Road state highway and Shamirpet to Laxmapur road and connecting villages like Lalgadi Malakpet and HKR road.

The stretch consists of many International Schools, Engineering Colleges and Industrial Units. The narrow carriageway is not sufficient to increasing Heavy Vehicular traffic plying on this road as a result many accidents are taking place. So this road is being developed to 2 lane carriage way. The road length of 0.529 km is passing through Lalgadi Malakpet RF. There is no other alternative path for the connection of villages of Lalgadi Malakpet and HKR Road. This road after completion of widening will provide good connectivity between the villages and preventing the accidents.

**The details of forest area required are as follows:**

S.No	Division Name	Stretch	Area in Ha
1	Medchal	Km 3/165 to 3/686 of Lalgadi Malakpet to HKR Road in Lalgadi Malakpet RF	0.521

  
Asst. Executive Engineer (R&B)  
Medchal-Malkajgiri Dist.

  
Dy. Executive Engineer (R&B)  
Malkajgiri Sub-Division.

  
Executive Engineer(R&B)  
Medhcal-Malkajgiri Dist

  
Superintending Engineer(R&B)  
Rural Circle, Hyderabad

  
Engineer-In-Chief (R&B) NH&CRF  
Telangana State, Hyd.

**Detailed Note on the Project**

The road from Lalgadi Malakpet to HKR Road i.e., road from Km 0/0 to 3/8 is an important MDR Road which connects Hyd-Karimnagar-Ramagundem Road State Highway and Shamirpet to Laxmapur Road. The existing road from km 0/0 to 3/8 is Single lane BT carriage way .

The existing Single lane carriage way from km 0/0 to 3/8 Lalgadi Malakpet to HKR Road is not adequate to increasing traffic and is causing many accidents on this road. This stretch is predominantly known to all because of its Educational Institutions like Schools and Engineering Colleges and Industrial units like Pharmaceutical and Ready mix Concrete Units. Widening and improvement of this road from Lalgadi Malakpet to HKR Road would improve connectivity in terms of achieving smooth and safe traffic flow and improve level of service. In addition to above , substantial economic gain in terms of reduced vehicle operating (VOC) and reduced travel time will be achieved. In view of this Cyberabad police authorities and local public representatives are constantly representing for widening of this stretch of the road from Single lane to Double lane to prevent the accidents and traffic jams.

The Government of Telangana has accorded the administrative sanction for widening and strengthening of this road from Single lane to double lane from Km 0/0 to 3/8 on LalgadiMalakpet to HKR Road under CRF scheme.

On this road there is a 0.521 km stretch of length in Lalgadi Malakpet reserve forest of Shamirpet Mandal for km 3/165 to 3/686 and remaining stretches from km 0/0 to 3/165 ~~3/165~~ sufficient ROW is available for widening the road. Total ROW is required for widening of the road including BT carriage way and Berms on either side. Hence, we seek permission for a length of 520.956 mts and to a width of 10 mts and required area for diversion is 0.521 ha .

  
Asst. Executive Engineer (R&B)  
Medchal-Malkajgiri Dist.

  
Dy. Executive Engineer (R&B)  
Malkajgiri Sub-Division.
