

PARAMETERS FOR EVALUATION OF BENEFIT NOT WITHSTANDING LOSS OF FOREST

Sl. No.	Parameters	Remarks															
1.	Increase in productivity attributable to the specific project	Average annual production of 10,00,000 MT of iron ore, and the price at mines head as indicated below:															
		<table border="1"> <thead> <tr> <th>Iron Ore Type</th> <th>Size of iron ore</th> <th>Quantity to be produced per annum in MT</th> <th>Price per ton of iron ore as per the e-tendered value January, 2016 in Rs</th> </tr> </thead> <tbody> <tr> <td rowspan="2">Lump ore</td> <td>18-40 mm</td> <td>2,00,000</td> <td>1700.00</td> </tr> <tr> <td>+5-18 mm</td> <td>2,00,000</td> <td>2250.00</td> </tr> <tr> <td>Fines</td> <td>- 5 mm</td> <td>6,00,000</td> <td>900.00</td> </tr> </tbody> </table>	Iron Ore Type	Size of iron ore	Quantity to be produced per annum in MT	Price per ton of iron ore as per the e-tendered value January, 2016 in Rs	Lump ore	18-40 mm	2,00,000	1700.00	+5-18 mm	2,00,000	2250.00	Fines	- 5 mm	6,00,000	900.00
		Iron Ore Type	Size of iron ore	Quantity to be produced per annum in MT	Price per ton of iron ore as per the e-tendered value January, 2016 in Rs												
		Lump ore	18-40 mm	2,00,000	1700.00												
+5-18 mm	2,00,000		2250.00														
Fines	- 5 mm	6,00,000	900.00														
Hence, the annual sale value of the iron ore at the mines head would be Rs 136.0 Crores.																	
2.	Benefit to economy	<p>a) The sale proceeds of the iron ore to different industries comes to Rs. 136.0 Crores per annum.</p> <p>b) Gross contribution to National economy on steel production comes to Rs. 2488.0 Crores per annum.</p>															
3.	Number of population benefited	670 Nos.															
4.	Employment potential	134 Nos.															
5.	Losses of (a) agriculture (b) animal husbandry production due to diversion of forest land.	No loss.															
6.	Cost of acquisition of facilities wherever feasible	There is no non-forest land in the ML. Acquisition of land is not envisaged.															
7.	Cost of rehabilitating the displaced persons as different from compensatory amounts given for displacement.	The mining project does not involve displacement of people.															
8.	Cost of supply of firewood to workers residing in or near forest during the period of construction.	Mine workers from nearby villages will be provided access to the cooking gas from the local dealer. No works will be required to stay inside the forest area during the time of construction of the project. Hence supply of fire wood to the workers may not be required.
