

**NAME OF PROJECT – Construction of LILO of 132KV DCDS Vishrampur-Pratappur Line from Loc. No. 31/0 (Loc. No. 157 D60+2.5) to 132/132/33 KV S/stn. Wadrafnagar**

The proposal for Construction work of LILO of 132KV DCDS Vishrampur-Pratappur Line from Loc. No. 31/0 (Loc. No. 157 D60+2.5) to 132/33 KV S/stn. Wadrafnagar is approved by by honorable Electricity regulatory committee (C.G. Govt.) in respect of providing uninterrupted & better quality Electricity supply to Wadrafnagar and nearby areas which is in Surajpur-Distt. an a.l.w. affected area. This project will also provide electrical connectivity to upcoming industries.

At Present Scenario Power to Nearby Areas is met by 33/11KV Supply, which is full of interruptions and line losses are much more.

The complete area of Wadrafnagar geographically surrounded from hill range and forest and for const. of line the forest land in the route of transmission line cannot be avoided. During survey the route of transmission line has optimized by considering minimum involvement of forest land and minimum tree falling.
