To,
Deputy Conservator of Forests
Chitradurga Division,
Chitradurga.

Sir

Sub: Diversion of 0.981 ha of forest land in Sy. No. 33 of Chitradurga village (city) KasabaHobli, Chitradurga taluk and district of construction of Break pressure tank (BPT) and rising main pipe line for supply of drinking water from Vani Vilas Sagar to Chitradurga under AMRUT scheme in favour of the Municipal Commissioner, City Municipal Council, Chitradurga-reg
Proposal no.FP/KA/WATER/30539/2017

Ref: 1) Letter No. A5 (4). GFL.CR.30/2017-18 dt:14.03.2019 of Additional Principal Chief Conservator of Forests (Forest Conservation) and Nodal officer (FCA) Aranya Bhavan, Bengaluru.
2) No. A6/FC/MU/FP/KA/WATER/30539/2017CR/2018-19, dated: 06-05-2019.

With reference to the above subject, proposal for diversion of 0.981 Ha of forest land in Sy no.33 of Chitradurga village in Chitradurga district for construction of Break Pressure tank (BPT) and rising main & gravity main pipe line under AMRUT project from Vanivilasa sagara as source vide ref.(1), you have requested to furnish the details of alternative routes examined & FRA compliance certificate for further processing of the proposal.

We are herewith furnishing the information sought vide ref. (1) is as follows:

Sl. no.	Observation	Compliance
1	Map/sketch on appropriate scale showing the presently proposed alignment along with minimum 2-3 alternate alignments (passing through non-forest land) examined by user agency along with proper map index.	Map/sketch on appropriate scale showing the present proposed alignment along with 2 alternate alignments passing through non forest is enclosed which are not feasible due to lower ground level
2	A detailed note on official letter head giving reasons (non-forest) have been discarded in favor of the presently proposed (forest) alignment.	Following are the reasons for discarding the non forest land alignments Option - 2 Alignment proposed in non forest land Pure water raising main has to cross NH-4 two times (raising main and gravity main) hence pressure will be reduced

		<p>The head available at this area is RL 795 which is less than the required head. RL 851 hence the supply of drinking water to storage reservoirs at various locations in the city through gravity main is not possible. Hence this proposed alignment discarded.</p> <p>Option-3 Alignment proposed in non forest land</p> <p>The head available at this area is RL 793 which is less than the required head. RL 851 hence the supply of drinking water to storage reservoirs at various locations in the city through gravity main is not possible. Hence this proposed alignment discarded.</p>
3	FRA compliance certificate in FORM-II issued by the Deputy Commissioner Chitradurga (Original ink signed) along with enclosures duly translated to English version and attested / authenticated.	FRA compliance certificate in FORM-II is enclosed herewith.

This for your kind information, further needful action.

Yours faithfully,

Municipal commissioner
CMC, Chitradurga

Enclosure:

- 1) FRA compliance certificate in FORM II
- 2) Map/sketch on appropriate scale showing the present proposed alignment along with 2 alternate alignments passing through non forest land.
- 3) Compliance report for the observation.

Enclosed: 8 sets of Maps/Sketch.
