Published under the direction of Dr. Prakash Nay, Secretary General of India
Survey of India, Hydrographic Section, Post Box No. 27, Dehra Dun 248001 (Uttarakhand, Department of Science & Technology, Government of India)

1:50,000

HEIGHTS & CONTOURS IN FEET
CONTOUR INTERVAL 20' & 10' E.S.

Water features are shown in blue where they generally intersect water.

Contoured lines are colored pink.

The interior boundaries of areas of Interest or Protected Forest are shown by green lines.

Contours are approximate.

A single apple, Δ , designates the location of traps in areas where the tree and bottom of a steep slope.

Shaded areas are natural grass, brushland, etc., and other vegetation are in green, but previously surveyed trees are in black.

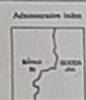

The State Inventory includes title and address data has been entered on all information printed in the State Transportation Act 1950, but has not been revised by the Government concerned.

The street has been revised as a result of rapid cartographic survey in respect of 1:25,000 scale postal box, power lines, telephone and telegraph lines and postmasts carried out during 1950-51.

The inventory shows separately living roads and railways as shown in table 10-1. It shows additional features as shown in table 10-2, 3.

The projected heights and contours in this sheet have not been adjusted to the degree of the systematic bench-marks and may be subject to minor variations.
