

**OFFICE OF THE EXECUTIVE ENGINEER
WATER RESOURCES DIVISION NO.1 DHAR
DISTT.DHAR(M.P.)**

Karam Medium Project Distt.Dhar (M.P.)

A note containing justification for locating the project in forest land :-

Karam Medium Project envisages construction near village Kothida on Kaam River. At point of proposed dam site, catchment area 342.50 sq. km. The projects is prepared to serve the need to provide productive irrigation to deprived society of nearby tribal village . An extensive survey was carried out to achieve minimum submergence was marked out at various capacities. Finally keeping F.T.L. at R.L. 312.00 with capcity 43.98 Mcum was finalized by Chief Engineer BODHI Water Resources Department Bhopal (MP) for cost of Rs 30444.79 lakhs to irrigate 8750 Ha of Rabi.

it is evident that either by shifting location or increasing capacity submergence will increase. This increase will effect submergence of forest area. Therefore proposal is prepared with minimum submergence of forest land and to serve rain fed area and to serve deprived society of nearby villages
