

**OFFICE OF THE Dy. GENERAL MANAGER (O&M)  
M.P.MADHYA KSHETRA VIDYUT VITARAN CO.LTD.HARDA**

**JUSTIFICATION NOTE**

At Present the electricity supply of 45 No. forest villages are through 11 KV Badwani feeder which is emanating from 33/11 KV sub Station Rehatgaon and the length of 11 KV Badwani feeder is about 175 KM. Due to the very lengthy 11 KV feeder the villagers/consumers are not getting 24 hours electricity supply for which the proposed 33/11 KV Sub station at location Rajabarari is very much necessary which is the location of forest land. Also the selected land for substation is at Load centre the villagers will get proper voltage.
