

25.7.16

Note Containing Justification for locating the project in Revenue forest land at Mouza-Baromesia (J.L.No.234), P.S. Goaltore under Paschim Medinipur District.

The proposal to establish 33/11KV Sub-Station at Baromesia is approved by WBSEDCL to provide uninterrupted and better quality of electricity to Hoomgarh and nearby area in Paschim Medinipur District an LWE affected area. This project could also provide Electrical Connectivity to upcoming industries.

In present scenario power supply to Hoomgarh and nearby areas is through one 11KV line having long length, for which interruptions and line losses are much more.

This project would help to overcome all the drawbacks of 33/11KV line and can also provide employment to the local workers during its construction. Since the proposed land is best located for the incoming and outgoing of lines with a proper road connectivity, no other alternative place is found suitable for this purpose. Hence the project is formulated at the proposed land.
