NOTES 24

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height e.g. -30 represents the approximate height in metres between the top and bottom of a steep slope.
Shade shows dry, in this area usually occurs water from July to March.
Tide marks are numerous throughout the sheet, only the important ones have been shown.
Unimproved roads and cart tracks in this sheet are generally motorable in dry season. Permission to use cart-track along roads is required from the irrigation authorities.
3,000-acre reclamation-stones of Bhakra Dam Project sluices are shown as tertiary bench-marks here. ∇ 429 248 2
