

Full Title of the Project: Diversion of 0.1702 Ha Forest (Mangroves) land for proposed construction of Bridge at Dharivali village at Marve road by Brihanmumbai Municipal Corporation

Checklist Serial No 10

Justification for locating the project in forest area

There is an existing bridge on creek near Dharivali village. The bridge lies near Madh-Akshadnanapani beach. Many tourists come to visit these places and there is substantial growth in vehicles on Madh road. The existing bridge is narrow and cannot accommodate two big size vehicles at same time. Akse and Dharivali village residents are also facing these issues from past few decades. Hence widening of this bridge is really important for better plying of vehicles. This bridge will serve 19,120 PCU per day. Also it will minimize the Co2 emission by almost 23%.

Also, the proposed project is site specific hence no alternative alignment is suitable.

Executive Engineer Bridges (WS)
Brihanmumbai Municipal Corporation

Date:

Place: Mumbai

Office Seal:

Office of Dy. Ch. Engr. (Bridges) W.S.
First Floor, Anant Execusite Building,
