

Preparation of the Geo-referenced map through DGPS survey of Forest land in Raigarh Forest Division over an area of 59.179 Ha. For 765kV D/C Jharsuguda (Sundargarh)-Raipur Transmission Line of Odisha Generation Phase-II Transmission Limited (OGPTL) Chhattisgarh

Consultant
SPARC Pvt. Ltd., Bhubaneswar

Preparation of the Geo-referenced map through
DGPS survey of Forest land in Raigarh Forest Division
over an area of 59.179 Ha. For 765kV D/C Jharsuguda
(Sundargarh)-Raipur Transmission Line of Odisha
Generation Phase-II Transmission Limited (OGPTL)
Chhattisgarh

August, 2016

Prepared for:

**Odisha Generation Phase-II Transmission
Limited,**

1. INTRODUCTION AND BACKGROUND INFORMATION

The Government of India, Central Electricity Authority vide Gazette Notification dated February 06, 2015 has Notified PFC Consulting Limited to be the Bid Process Coordinator (BPC) for the purpose of selection of Bidder as Transmission Service Provider (TSP) to establish Transmission System for "Common Transmission System for Phase-II Generation Projects in Odisha and Immediate Evacuation System for OPGC (1320 MW) Project in Odisha" through tariff based competitive bidding process.

Sterlite Grid 3 Limited had been participated in the international competitive bidding process for Transmission Scheme for "Common Transmission System for Phase-II Generation Projects in Odisha and Immediate Evacuation System for OPGC (1320 MW) Project in Odisha "and Power Finance Corporation Consulting Limited (PFCCL), Government of India has accepted our Bid and SGL 3 has been declared as the successful bidder.

Special Purpose Vehicle (SPV) constructed for this project is "Odisha Generation Phase II Transmission Ltd" .

We take this opportunity to introduce our self as "Odisha Generation Phase-II Transmission Limited", (100% subsidiary of Sterlite Grid 3 Limited) which have been awarded with Transmission Line Projects on Build, Own, Operate & Maintenance (BOOM) basis by the PFC Consulting Limited vide their letter No- 03/ITP-19/15-16/OGPTL/ RFP dated 06th Jan 2016 (Copy Enclosed as Annexure-1) for Construction and subsequent Maintenance of the 765kV D/C Jharsuguda (Sundargarh)-Raipur & 400kV OPGC-Jharsuguda (Sundargarh) Transmission Line.

Ministry of Power, Govt. of India, has already granted the approval of Government under Section 68 (1) of Indian Electricity Act, 2003 vide letter No- 68/ER/2015/1301 dated 03-06-2015 for construction of the said line (Copy Enclosed as Annexure-2). The project is part of the National Grid Development and is designed to carry common Transmission System for Phase II Generation Projects in Odisha and Immediate Evacuation System for OPGC (1320 MW) Project in Odisha and Connecting to Raipur Pool in Chattisgarh.

The details of lines is mentioned here under: -

1. 765kV D/C Jharsuguda (Sundargarh)- Raipur Transmission Line: 304 K.M (Approx.)

Above said line passes through Durg, Bematara, Baloda Bazar, Bilaspur, Janjgir Champa & Raigarh districts of Chattisgarh State (Total Line length is 255 K.M Approx) and Sundargarh district of Odisha State (Total Line length is 49 K.M Approx).

As this transmission line is passing through different notified Forests/ Revenue Forest of Chhattisgarh State, We have initiated the preparation of Geo-Referenced Digital data through DGPS Survey work for the approval from FMIS through SPARC Pvt Ltd (Empanelled vendor for DGPS survey work in Chhattisgarh) for the forest land proposed to be diverted under Forest (Conservation) Act 1980 as per MoEF circular dated 8th July 2011 & 28th January 2014 (Copy Enclosed as Annexure-3).where it is directed by MoEF that **“All applications seeking diversion of forest land for non-forest purpose under Forest Conservation Act, 1980 must be accompanied with Geo-referenced shape file (both soft copy and hard copy) of the forest land proposed for diversion prepared using Differential GPS (DGPS). It was also informed that the application should also contain a digital map along with a hard copy duly authenticated by competent authority in the State Government of the forest land proposed for diversion, prepared by using Total Station or differential GPS.**

In addition to that, Principal Chief Conservator of Forest, Forest Department Chattisgarh vide their letter no. PCCF/115-30/02 Raipur dated 11th Nov 2014 (Copy Enclosed as Annexure-4) has also provided details guideline, information, procedure & competent authority details pertaining to DGPS Survey work (Field work & office related approval work) in Chhattisgarh State.

As per Online Submission and Monitoring of Forests Clearances Proposals of MoEF & CC, the following maps and files are required to be uploaded

- Survey of India Toposheet in 1:50,000 scale indicating location of the forest land proposed to be diverted
- Scanned copy of the Geo-Referenced map of the forest land proposed to be diverted by using DGPS or Total Station
- KML file of the geo-reference forest land proposed to be diverted

In order to comply with the conditions of DGPS survey guideline for PCCF given to OGPTL is enclosed at (Copy Enclosed as Annexure-5). To meet these requirements, OGPTL is entrusted this DGPS survey work to M/s SPARC Pvt. Ltd., Bhubaneswar, a Government recognized reputed firm specializing in such assignments. Credential of SPARC is enclosed at [Appendix-1](#)

2. SCOPE

The envisaged scopes of the assignments are described below

- Computation of Geo-referenced forest land through digitization and comparison with area indicated in the land schedule.
 - Establishment of Base Station by taking DGPS long Observation and fixing the coordinate by processing with IGS (International GNSS Services) data.
 - DGPS observation at the change point of the forest land
- Processing of DGPS observation and Geo-referencing of the Forest land based on DGPS Surveyed co-ordinates.
- Generation of the *shape* file and *kml* file of the Forest land
- Printing of Hard copy maps and report.

3. DELIVERABLE

- Post processed DGPS observations data as well as raw data in RINEX format.
- Geo-referenced scanned cadastral/forest compartment maps based on field observation.
- Geo-referenced shape, kml file (soft copy) of the Forest land with area statement.
- Submission of maps & report in hard copy along with soft copy and shape/kml file as per requirement of MoEF guidelines.
- Pillar Posting site photograph & DGPS Site Survey photos.

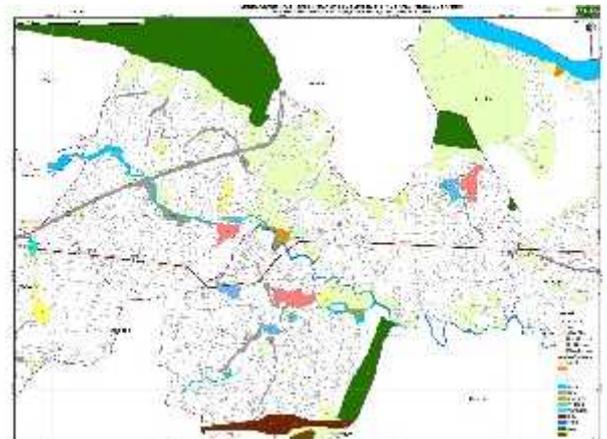

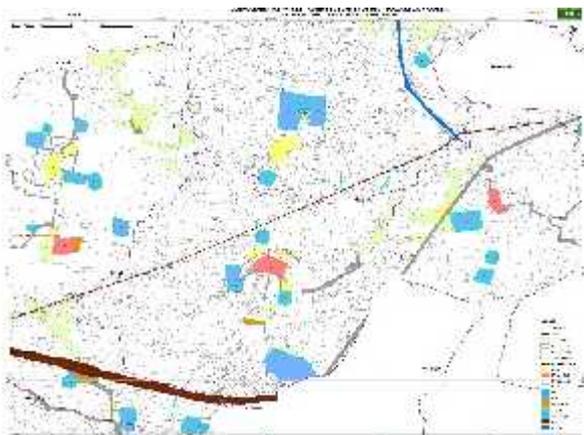

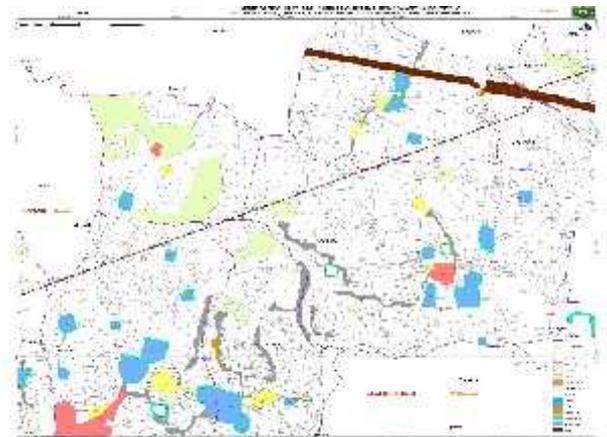

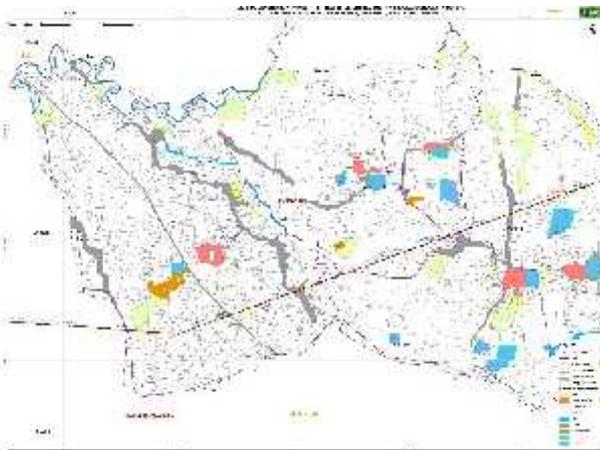

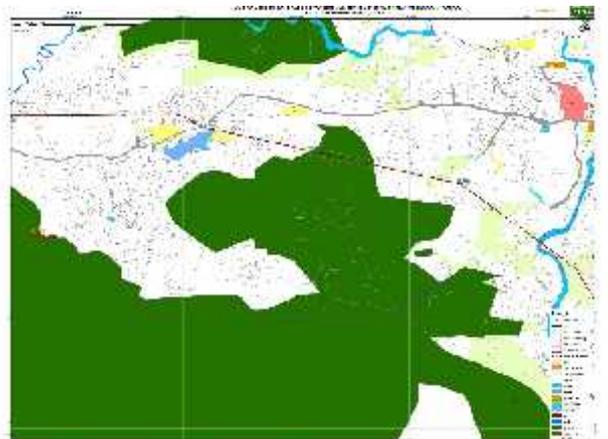

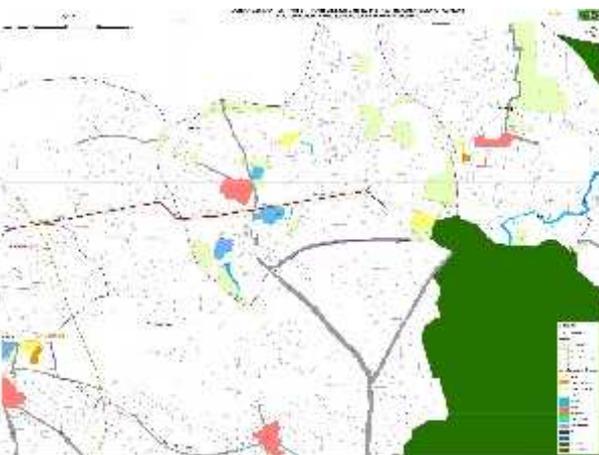

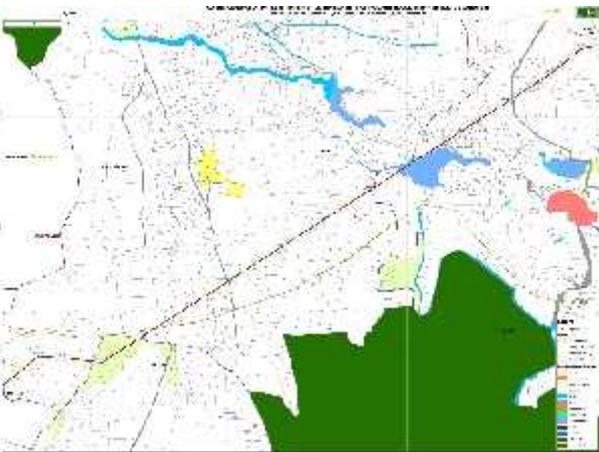

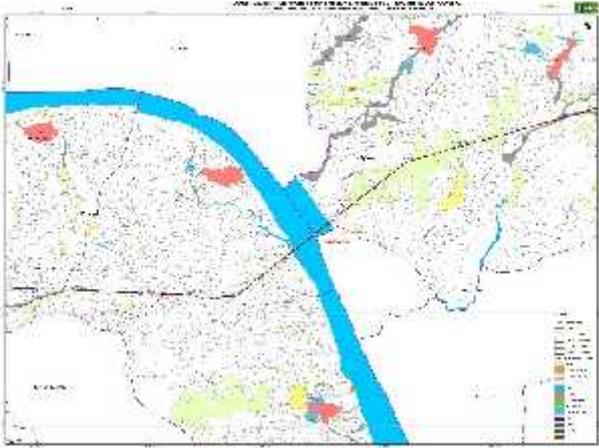

4. METHODOLOGY

4.1 INPUT DATA

The land plan and maps required for geo-referencing was provided by OGPTL to M/s SPARC along with the land schedules for desk study. The following maps are used for the desk study.

- Revenue maps of the Forest land Map
- Survey of India Topo Sheets
- Land Schedule

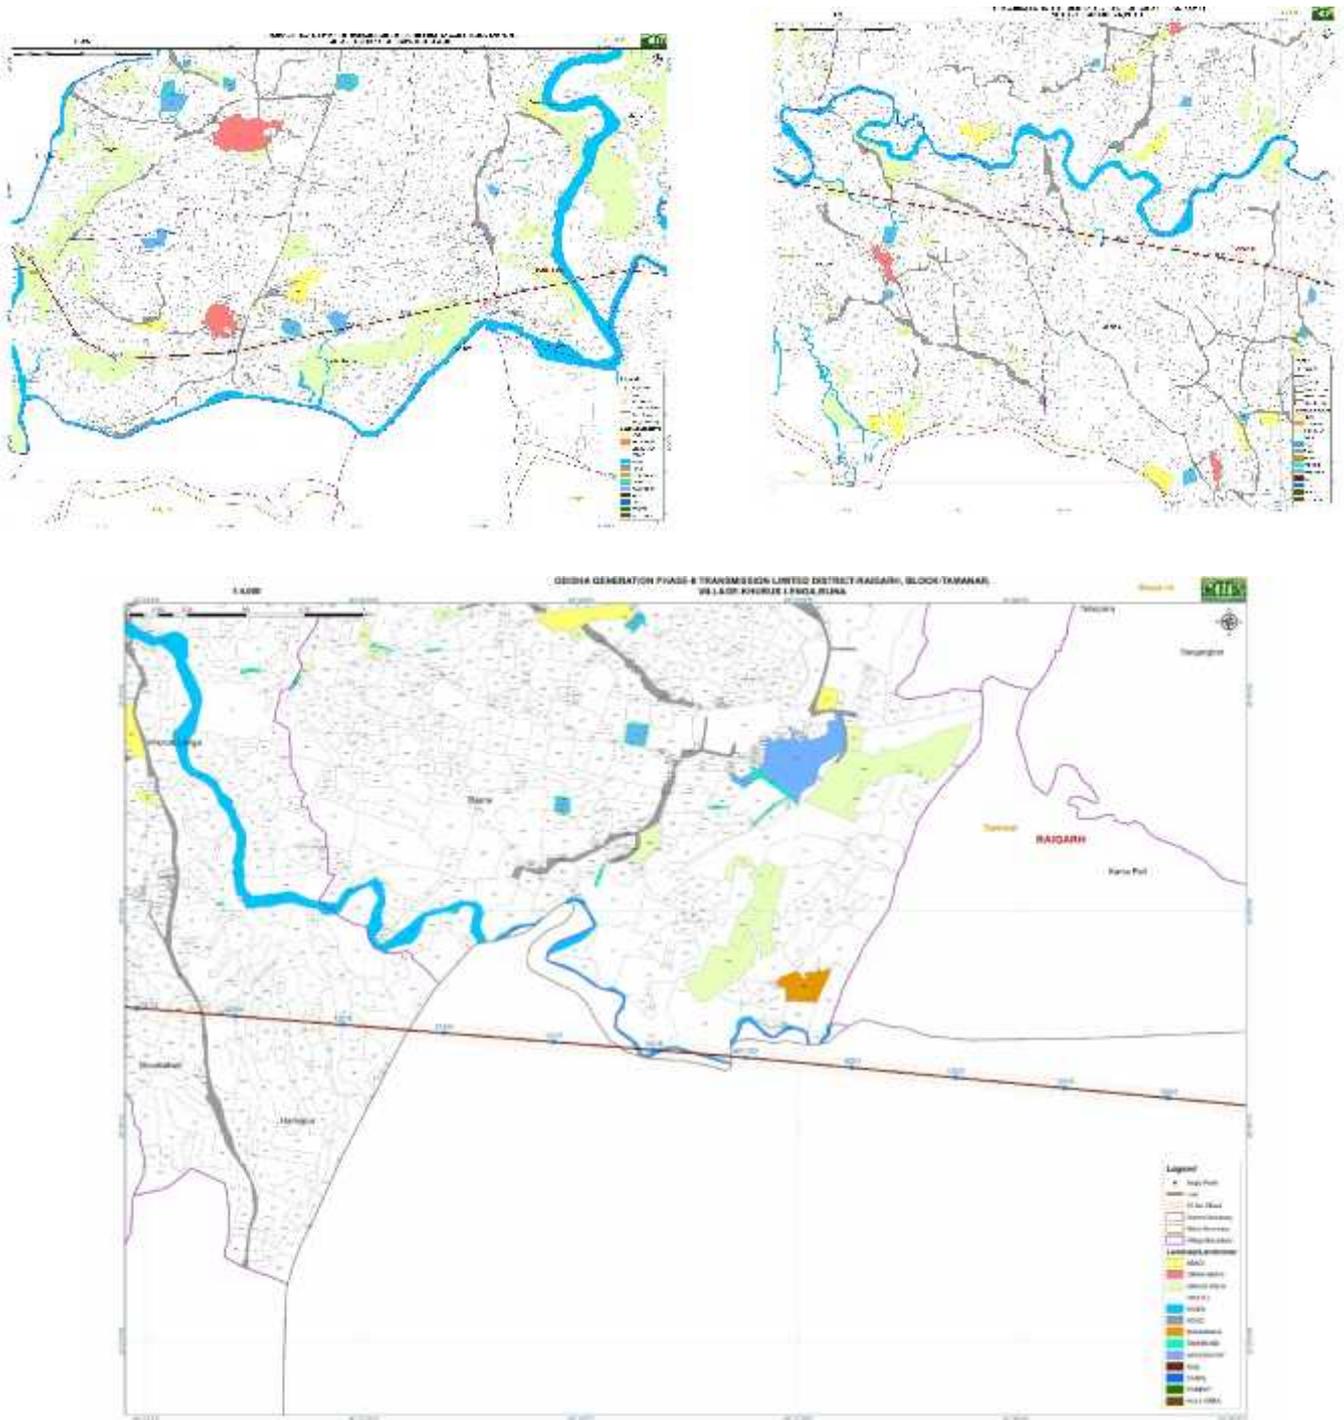

Fig-1: Transmission Line Superimposed on Cadastral Map

Fig-2: Transmission Line Superimposed on Topo Sheet

4.2 PRINCIPLE OF DGPS SURVEY

DGPS Survey is carried out by a pair of devices, one is called base and other is called as rover in order to eliminate the un-avoidable error which may occur during survey as transmission delays in the, multipath signal due to foreign object which may induce in the DGPS observation.

Base is stationary and fixed in an ideal location (that has a clear line of sight to the sky in all directions away from vertical obstructions such as buildings, deep cuttings, site vehicles, towers, or tree canopy) which is act as the Primary Control Point (PCP) while the rover collects the reading at target locations.

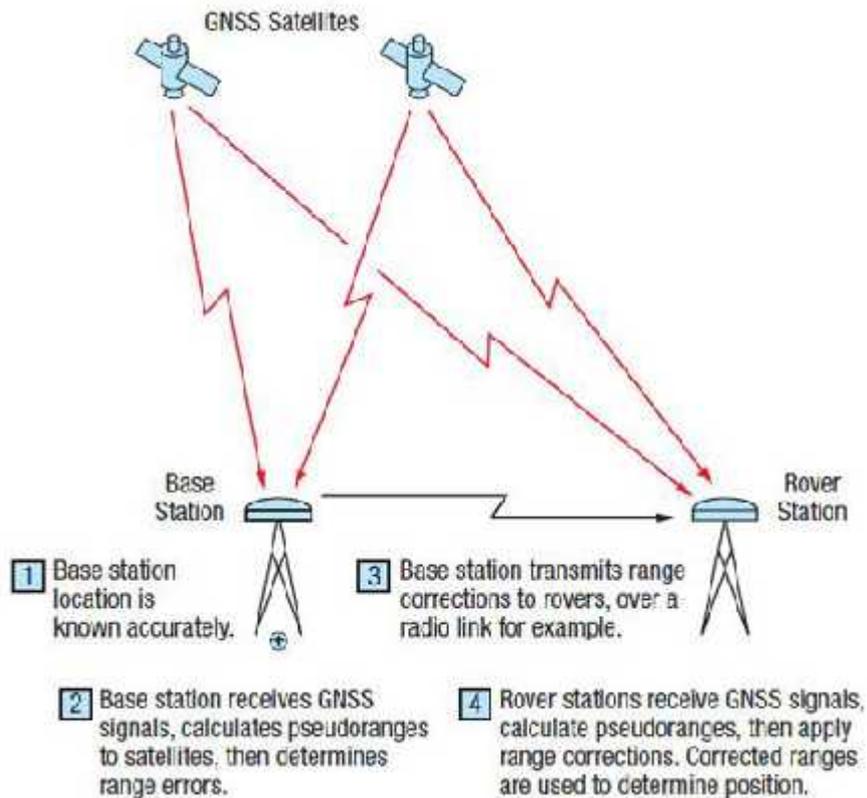

Fig-3: Concept of the DGPS survey

As the rover has no choice of sites and has to take reading at the pre fixed target location, it may induce error as discussed earlier. Therefore, the data received by the rover has to be processed with the observation received by the base rover in real time mode (through radio link) or during post process in a later stage to eliminate the error and get the final reading (coordinate value).

4.3 ESTABLISHMENT OF BASE STATION/PRIMARY CONTROL POINT (PCP)

The PCP was so planned to keep the entire project area within 3.0-4.0 Km from PCP for DGPS Survey.

GPS satellites complete one cycle of rotation around the earth in approximately 6 hours. Base Station was fixed through continuous observation of 12 hours (so that the base receives signals of all the satellite at least once) at the PCP on 19th July 2016 and further processing with the observed data of International GNSS Stations (IGS). The IGS processed report is enclosed as Annexure-6.

The processed coordinate value is as follows.

Table-1: Coordinate of Base Station

PCP	Latitude	Longitude	Northing (m)	Easting (m)
PCP-05	N21°58'30.19019"	E83°02'58.07326"	711617.181	2431482.345
PCP-06	N22°01'13.58013"	E83°12'28.04577"	727898.15	2436736.108
PCP-07	N22°02'55.62848"	E83°17'03.10047"	735740.92	2439991.535
PCP-08	N22°03'57.98003"	E83°20'28.27375"	741595.741	2441998.984

As per the National Map policy is enclosed as Annexure-7, all the maps are prepared with UTM Projection using the Datum WGS-1984 to seamless integration with new Open Series Maps (OSM) Topo Sheets published by Survey of India.

4.4 SECONDARY CONTROL POINT (SCP) SURVEY

4-6 secondary point per revenue sheet are required to geo-reference the maps based on DGPS survey. The Secondary Control Points (SCPs) in the area of interest were planned at convenient location. SCPs are planned well distributing in the revenue maps covering Tri-junction, Bi-junction, undistributed field bund.

DGPS observations were taken SCPs location (for 15 minutes each) using rover. The data observed by base and rover were post processed using advanced Trimble Business Centre software for obtaining the final SCP Co-ordinates. The SCPs with fixed solutions only were used for Geo-referencing of the revenue maps.

4.5 PREPARATION OF GEO-REFERENCING OF REVENUE FOREST LAND

With geo-referencing of cadastral maps, each and every parcel of the revenue map also automatically geo-referenced. The forest patches were extracted from geo-referenced cadastral map as per land schedule provided by OGPTL to prepare the geo-referenced forest land map.

DGPS observations were taken at all change point of the Forest boundary using Trimble R-6 Dual frequency (with Glonass) DGPS. The data observed by base and rover were post processed using advanced Trimble Business Centre software for obtaining the final change point Co-ordinates. These co-ordinates were plotted in GIS software to prepare the geo-reference forest land map. 513 nos of change points are taken on both side of the forest boundary.

5. CONCLUSION

The observed DGPS co-ordinates of SCPs of Cadastral Map, forest boundary pillars and area are given in *Table-2 to Table-4* respectively.

Table-2: Co-ordinates of Secondary Control Points (SCPs)

Point Id	Geographic Co-ordinates		UTM Co-ordinates	
	Longitude	Latitude	Easting	Northing

Approach Road:- The Forest Land diversion for temporary approach road in forest area to reach Tower locations has been approximately taken as 1 hectare for movement of Stringing equipment due to significant undulation in the above said terrain.

The forest boundary map is placed at *Plate-1 to Plate-13*. The Geo-referenced forest boundary superimposed on Sol Topo sheet, High Resolution Satellites Image, Management Map & Compartment Map are enclosed at *Plate-14 to Plate-21* respectively.

6. SPECIFICATION OF DGPS EQUIPMENT & SOFTWARE

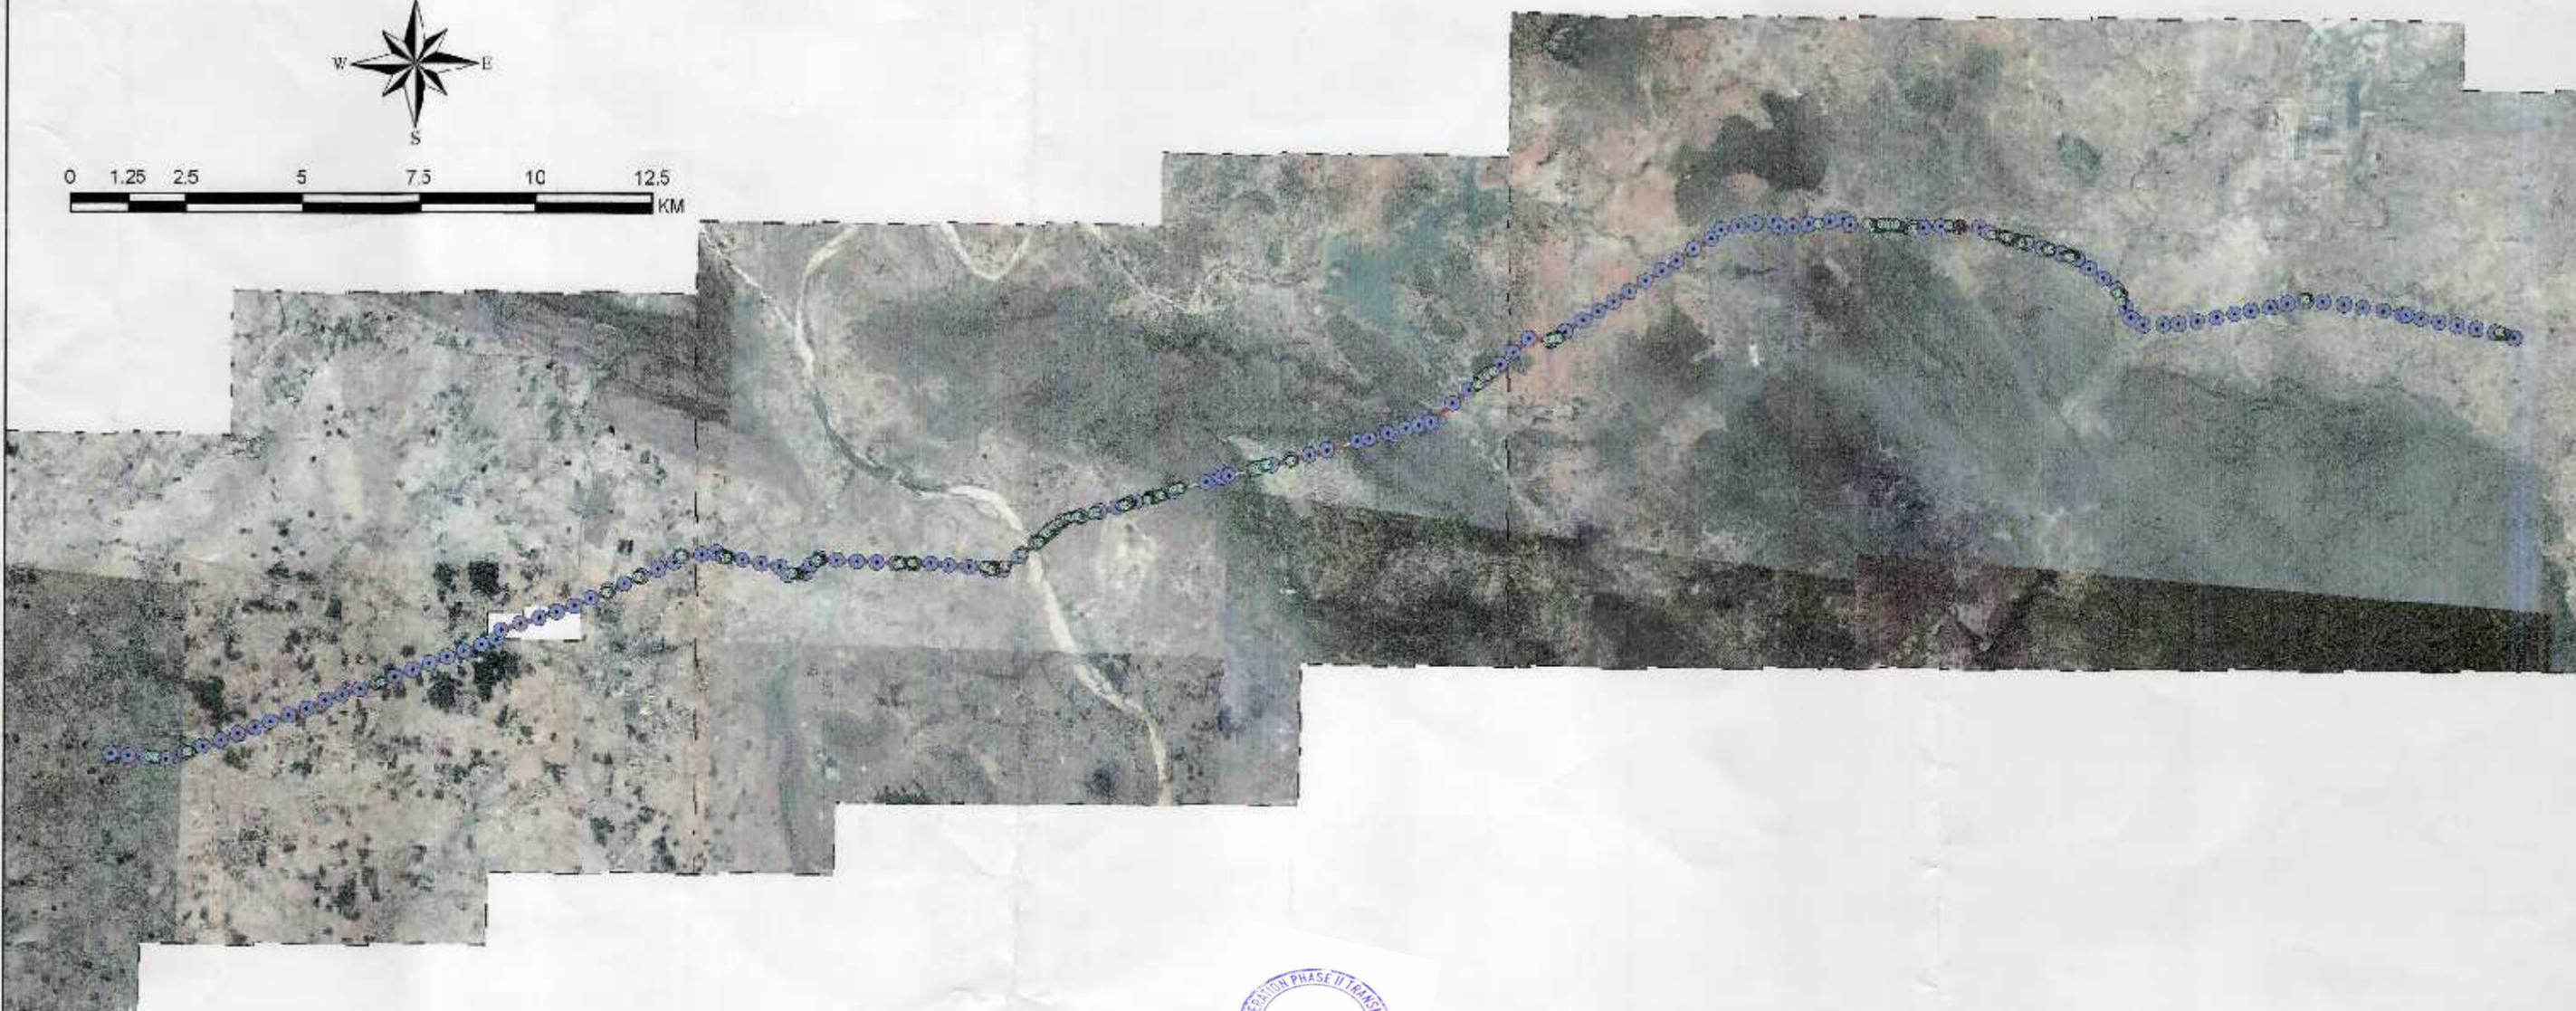

SPARC deployed advanced and hi-precision devices to carry out the DGPS survey. The DGPS performance specifications are given below. The corresponding fact sheets are enclosed as Annexure-8. for ready reference.

भारतीय सर्वेक्षण विभाग SURVEY OF INDIA

1st Edition 2011. Price: Rs. 70/-

CONVENTIONAL SYMBOLS

Express highway with toll, with bridge, with distance stone

Roads, unimproved according to importance

Roads, double carriageway according to importance

Unimproved road, Cart-track, Track-road with pass, Foot-path

Stream: with track in bed, unimproved, Canal

Canal: masonry or rock-lined, unimproved, Well

River, dry with water channel, with island & rapids, 1-4 paces

Damaged roads, Shrub Swamps, Roads

Walls: iron, unimproved, Tubewell, Spring, Turbines, perennial, dry

Embankment, road or rail, bank, broken ground

Railways, broad gauge, double, single with station, under construction

Railways, other gauges, double, single with distance stone, 8th

Mound line (ferryway), K.R. Cutting with tunnel

Contours with sub-benchmarks, Rocky slopes, Cliffs

Coast features (Sea, (Thames-Hilopmentary)) (Distances in feet)

Towns or Villages: inhabited, deserted, Fort

Hills: permanent, temporary, Tower, Antennae

Temples: Hindu, Church, Mosque, Light, Tomb, Graves

Lighthouses, Lighthouses, Lighted, unlighted, Anchorage

Mine: Open on hills, Street, South

Public: primary, other, Harbin, Coal, Samba, Other, bank

Areas: cultivated, wooded, denuded, tree

Boundary: international

State: demarcated, undemarcated

Subsidiary: sub-village, band or block, fixed

Boundary: others: surveyed, uncoloured

Height: triangulated, station, point, approximate

Bench-mark: geodetic, levelling, control

Post office, Telegraph office, Quack, bank

Rail house or telegraph building, Circle house, Public station

Camping ground, Forest: reserved, protected

Record names: administrative, locally or tribal

Hospital, Dispensary, Veterinary Hospital / Dispensary

Aerodrome, Helipad, Tourist site

Power line: with pylons surveyed, with poles surveyed

REFERENCES

AP 200 National Highway No. 200, PMS Public Works Department

NOTES

Height: are in metres and above Indian mean sea level

Contours are approximate

A station height, e.g., A, represents the appropriate height, in metres, between the top and bottom of a stone step

Tanks shown dry, in this area usually contain water from July to December

Tide-gauges are numbered throughout this sheet, only the highest tides have been shown

The triangulated heights and contours in this sheet have not been adjusted to the height of the equatorial spheroid and may not be strictly in accordance with them

COMPILATION INDEX

A. Compiled from 1:25,000 survey 157A-80. Updated for major details during 2004-05

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 1/2° West in 2005. (Decreasing by about 1" annually)

Scale: 1:50,000

सर्वेक्षण विभाग SURVEY OF INDIA

1st Edition 2012. Price: Rs. 65/-

CONVENTIONAL SYMBOLS

Boundary lines surveyed, unverified

Height in meters and above PDGM (red) in feet

Contours are approximate

A relative height of 9.8 m represents the approximate height in meters, between the top and bottom of the steep slope.

Tables shown on this map usually contain data from July to December.

REFERENCE

Public Works Department.

NOTES

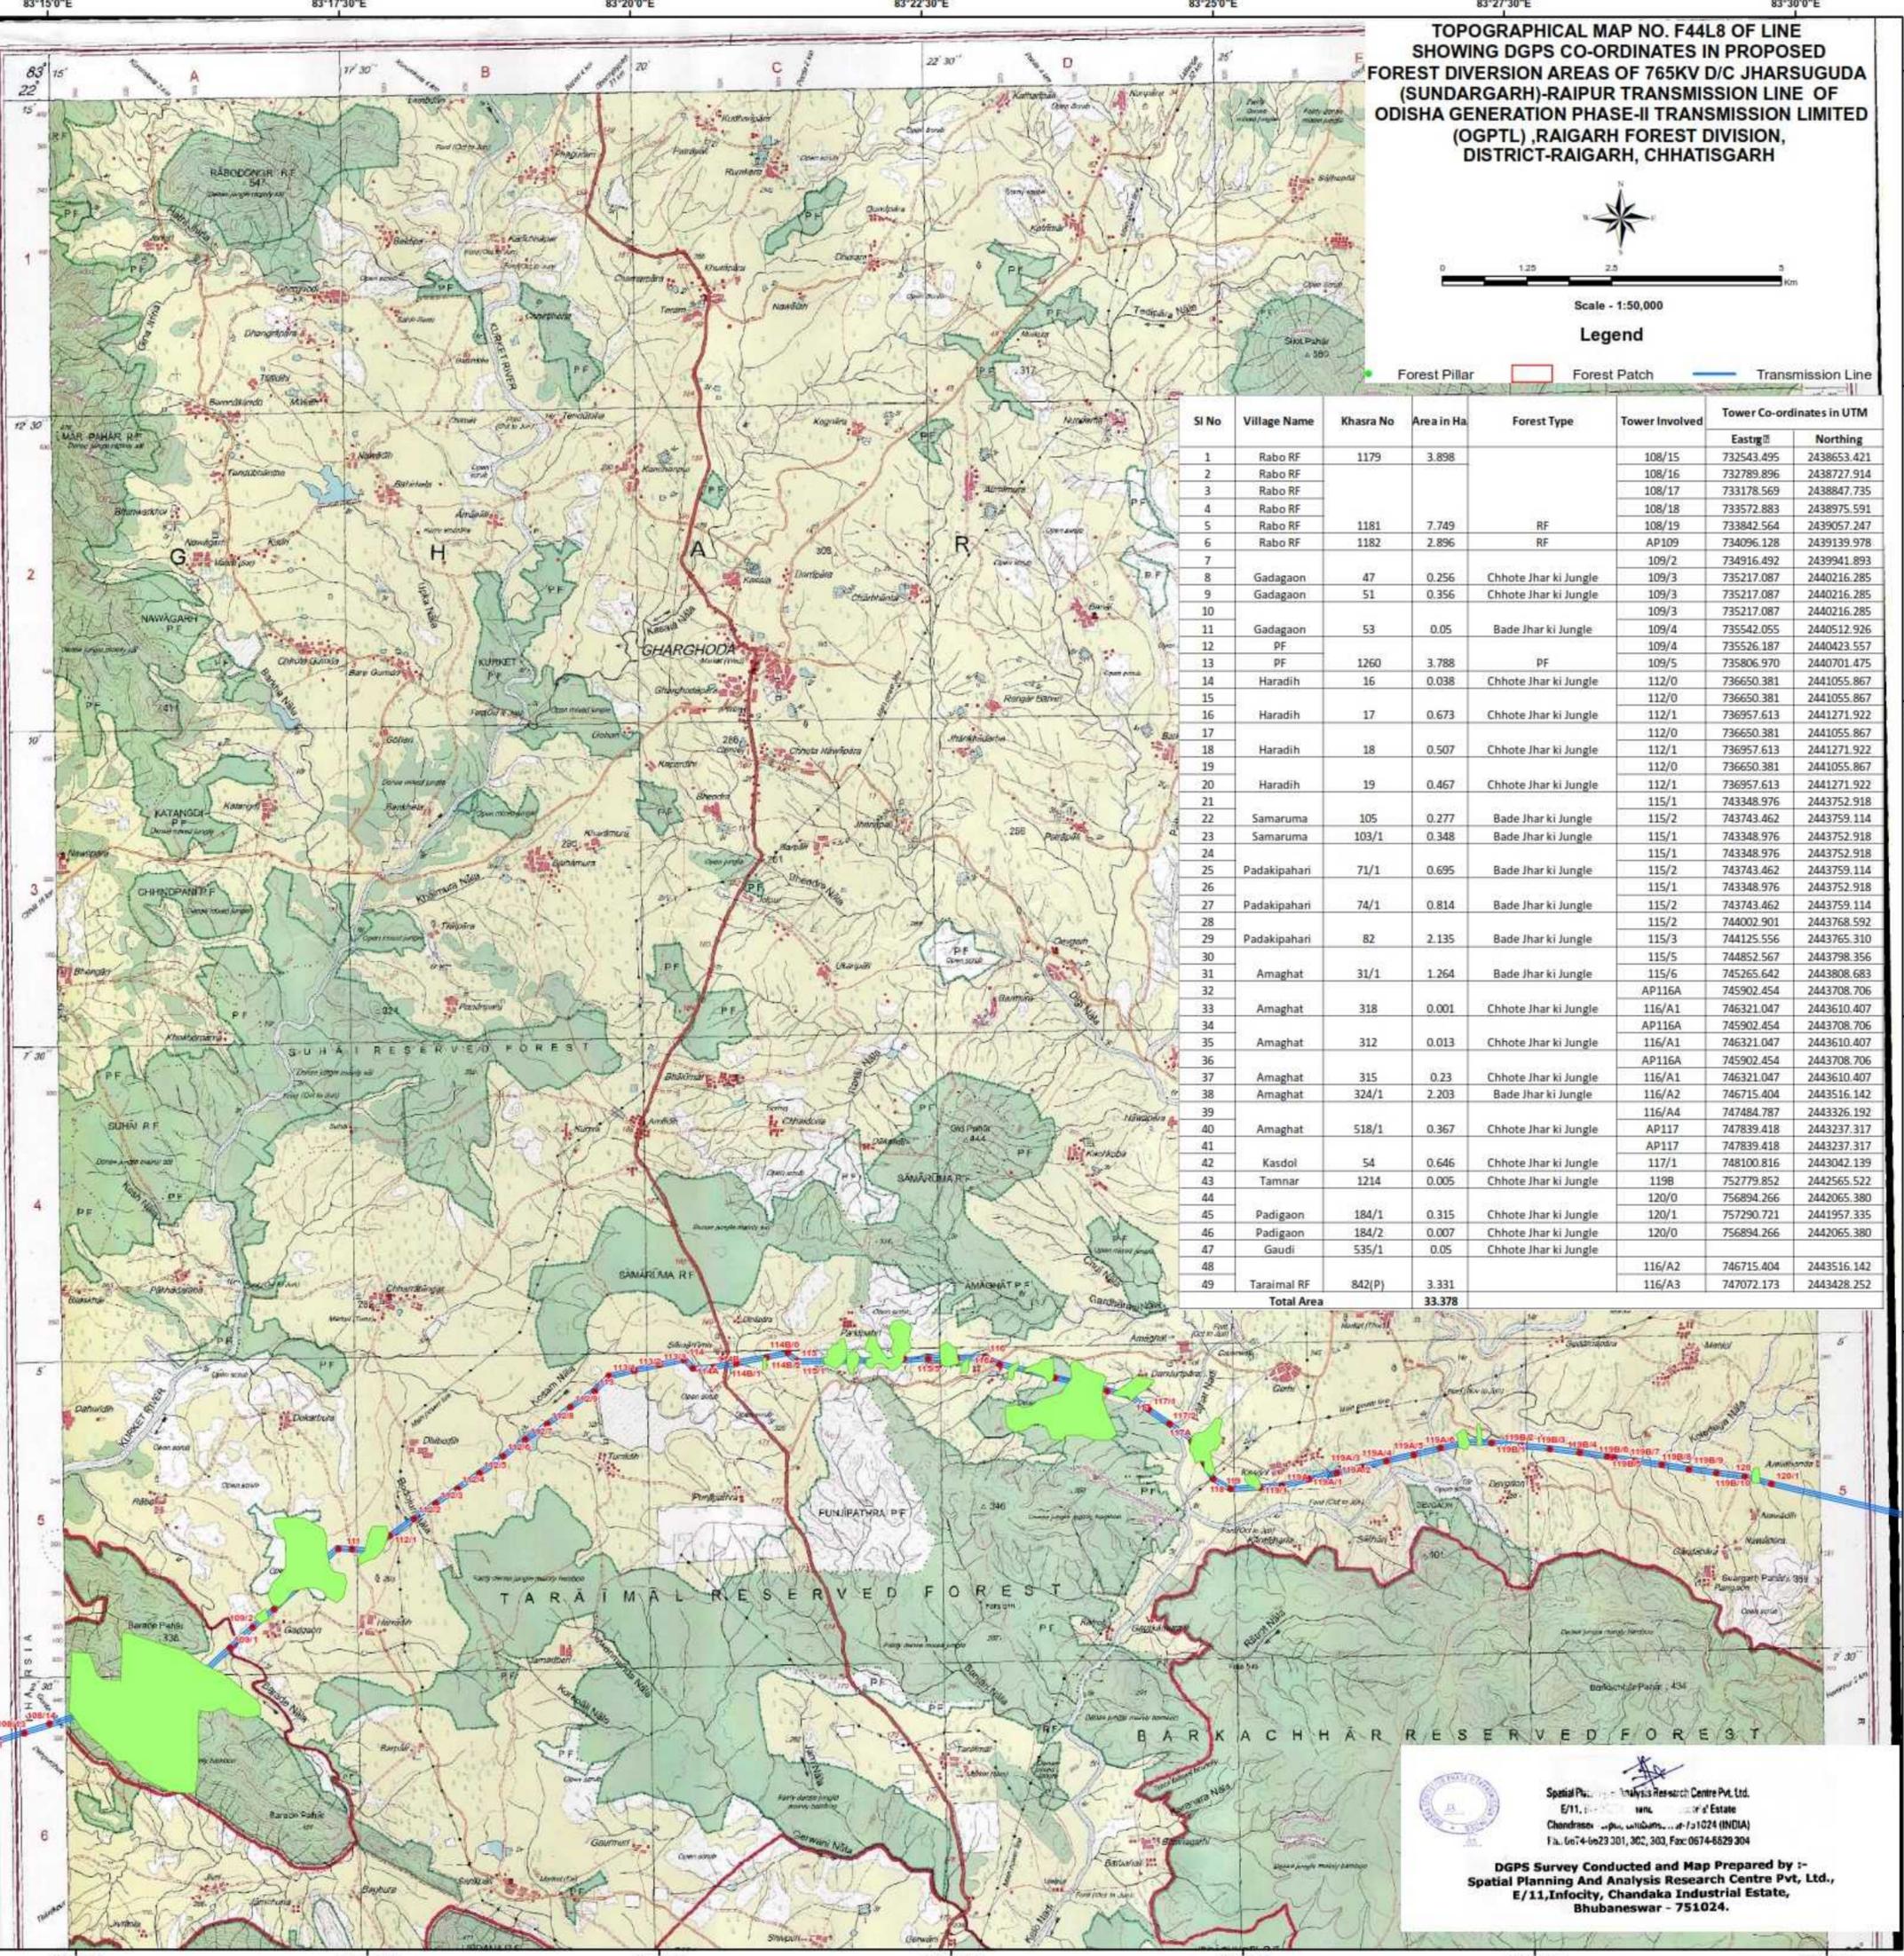

Projection - UTM Datum - 1954

Magnetic Variation 108° True North about 5° West in 2005

Scale 1:50,000

CONTOUR INTERVAL 20 METRES
