Area will be irrigated. Area will be irrigated 100 % tribale Area of Village Khokarwada, Kareghat, & Lakkadkot of Tal Nawapur ,Dist Nandurbar.

This M.I.Tank proposed on local nalla Tal Nawapur Dist Nandurbar. This project is completely in forest area. Total 73.94 ha of forest land only Maharashtra state is required for construction of M.I. Tank of Kareghat,Tal Nawapur, Dist Nandurbar

The project will benefits 3 villages namely Khokarwada, Kareghat, & Lakkadkot of Tal Nawapur ,Dist Nandurbar. Total aprox 5000 population will be benefited . Out of which 100 % tribale area . The net Irrigable command area is 607 Ha.

The alternative land required for forest land acquired for submergence in Maharashtra border is received from collector dhule vide Ir no — dated 18.03.2004 . After reciving the alternative land the forest land acquisition proposel is submitted. The forest land acquisition

proposal is submitted to conservator of forest dhule by taking no objection certificate from deputy conservator of forest dhule .

The command area has uncertain rain fall ranging from 1000 to 1200 mm annually. The maximum rainfall in this area is in the month of july and August and partly in the month of September Most of the land is rain fed and the produce from these lands depends on rainfall available in year. This indicates that's the rainwater is the only source of irrigation. In addition to this there is nearcity of no drinking water available in these villages in summer season. Considering the topography of the area there is no alternative means to provide water for irrigation except increasing ground water technique. A well conceive ground water in the command area of the project will be beneficial to the peoples of the tribble area.
