HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL 10 METRES

Water features are shown in blue where they generally contain water.

Cultivated areas are coloured yellow.

The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribands.

Contours are approximate.

A relative height, δ ft., represents the approximate height, in metres, between the top and bottom of a steep slope.

Wooded areas are coloured green. Scattered trees and other vegetation are in green, but prominent surveyed trees are in black.

* Not applicable.

The kilometre stone numbers along roads and the railway are shown in slant type, e.g., '5' whereas milestone numbers are shown in upright type, e.g., '5'.

All cart-tracks along canals are jeepable in dry season.

A relative height, e.g., δ ft., marked along a canal indicates the height of the top of the canal embankment above the adjacent country.

Wells are numerous throughout the sheet, only the important ones have been shown.

A relative height, e.g., δ ft., against a well indicates its total depth in metres.
