NOTES :-

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, *h_r*, represents the approximate height, in metres, between the top and bottom of the steep slope.
The triangulated heights and contours in this sheet have not been adjusted to the heights of the mean low-low tides and may not be strictly in accordance with them.
The exterior boundaries of areas of Reserved or Protected Forests are shown by green islands.
Important buildings are shown in black with names.
Head Pump is shown H.P.
