Sub: Installation of Steel Tubular Poles and RCC Muff to Sling Defence Optical Fiber Cable for NFS Project from from Rohini Toll Plaza - Kurseong Airforce and from Kurseong Airforce to 8<sup>th</sup> Mile.

Sir,

This is to bring to your kind attention that Govt. of India, Ministry of Defence has approved a project to roll out of a pan-India exclusive OFC based network for Defence Services called Network for Spectrum (NFS).

As a part of this NFS Project OFC need to Sling on Steel Tubular Poles in the above mentioned route to provide communication between Sukna-Kurseong-Jalapahar Defence establishments.

To obtain Permission from Forest Department we have already applied to DFO Kurseong Division vide our application No. NFS/PKG-F/2016&2019/FOREST/KURSEONG/01 dated 9<sup>th</sup> Feb 2021 along with all necessary documents.

As a requirement of the Forest Department we need to submit a confirmation report (FRA) that there are no dwellers residing in our proposed pole installation path, as the poles will be erected beside the carriageway of the road and not deep inside the forest.

Since this is a Project of National Interest and NOT for providing any commercial service to customers we request your kind support in smooth completion of the work.

Thanking You.
