

JUSTIFICATION FOR LOCATING 132 kV LINE FROM
KHENGJANG TO THANLON IN FOREST AREA

The new 132 kV line to be erected from Khengjang to Thanlon (62.39 KM long) for supplying power to the new 132 kV substation coming up at Thanlon passes through forest covering a total area of 145.6 hectares.

For stringing the line, 242 numbers of towers are to be erected along the route. While conducting survey of the route of the line, many alternative routes were considered. The selected route is the shortest possible route with minimum disturbance to forest area.
