Lr. No. 220/VC/SKLTSHU/2016, Dt: 26-09-2016

Sir,

Sub: SKLTSHU - Diversion of 4.91 Ha of Forest land at RF Mulugu (V&M),
Medak Forest Division for establishment of Telangana School of Horticulture
- Relocating the diverted land on technical reasons - Proposals submitted -
Regarding.

Ref: 1. Proposal No. FP/TG/SCH/14197/2015, Dt: 27-07-2015.
2. GO Rt. No. 138, Dt: 27-07-2015 of EFS&T (For-I) Department,
Government of Telangana.
3. Rc. No. 1854/S6/2015, Dt: 01-08-2015 from Divisional Forest Officer,
Medak.
4. Rc. No. 6.2.05/HDM/2015, Dt: 29-08-2015 of VC & MD, TSFDC, Hyd.

With reference to subject cited, it is submitted that at Narsampally RF compartment no. 283, Mulugu (V&M), Medak an area of 4.922 Ha was diverted in favour of Vice-Chancellor, Sri Konda Laxman Telangana State Horticultural University by according in-principle (Stage-I) for establishment of Telangana School of Horticulture, Rajendranagar, Hyderabad (ref 2 cited). As specified in the ref 3 & 4 cited the NPV & extraction charges to a tune of Rs. 68,33,188/- (Rupees Sixty eight lakhs thirty three thousand one hundred and eighty eight only) and value loss sustained by the forest development corporation to a tune of Rs. 20,42,820/- (Rupees Twenty lakhs forty two thousand eight hundred and twenty only) was paid by the University in favour of CAMPA Account, New Delhi and by demand draft to Vice-Chairman, TSFDC respectively (Rs. 68,33,188 + 20,42,820 = Rs. 88,76,008).

Now based on the technical requirement indicated below the said site is not feasible for taking up the construction work.

1. Water flowing from the culvert on the highway is passing through the middle of the plot obstructing the water path, construction of the buildings will lead to in-undation and to the submergence of the proposed site for construction of the buildings.
2. Site is on the west side of Highway. The site at this location is at low level varying from 1m to 4m from the road to the rear of the site.
3. The site developmental cost is very high due to involvement of high land developmental works like, Retaining walls, earth filling and additional drainages.
4. Triangular shape of the site is leading to more % of unbuildable land. Hence full utilization of the land is not possible.

Hence, requested to permit the University to relocate the diverted site of 4.91 Ha at RF Narsampally (Map enclosed) as per the proposals enclosed and the amount already paid may be adjusted to the revised proposals submitted for re-locating the site at RF Narsampally by issuing necessary revised orders & oblige. Hence the earlier proposal is withdrawn and requested to process the revised proposals with relocation to extent of 4.91 Ha in the same RF.

Encl: 1. Reference cited.
2. Set of Proposals

Your's Sincerely,

(C. PARTHA SARATHI)

Copy to the Registrar, SKLTSHU.
