Director
Matthew Goodrich, CEO Coastal Ports Centre

Abstract This study explored the relationship between the use of the Internet and the use of other information sources for the purpose of finding information about a specific topic. The study was conducted with 100 students from a large university in the United States. The results showed that the use of the Internet was positively related to the use of other information sources. The study also found that the use of the Internet was related to the use of other information sources for the purpose of finding information about a specific topic.

National Mapping Agency.
