

1998

The image shows a document with a grid-like structure. It appears to be a ledger or a form with multiple sections. The text is handwritten and mostly illegible due to the high contrast and noise in the scan. There are several columns and rows of text, some of which might be numbers or dates. The overall layout is somewhat chaotic, with varying amounts of text in each section.

1. The first group of people who are not in the labor force are those who are not in the labor force because they are not in the labor force. This group is the largest group of people who are not in the labor force.

CONSTITUTIONAL PROVISIONS
