The said matter was decided in the village panchayat meeting and the resolution of the said village meeting is proposed in today's village meeting. Since, no claim applications were submitted by the villagers, there was no discussion about the claim application. Hence, submitted the same by the panchayat development officer before the forest right committee.
2	Issuance of Form-1 to M/s JSW Steel Ltd proposal of conveyor belt to and from Rama Iron Ore Mine (ML No. 2621) in Dowlathpura village over an extent of 5.726 Ha. in forest area under FRA 2006 & its amendment in 2008 – regarding.	In the beginning of the discussion, Revanasiddappa, a member of the grama panchayat Krishnanagar informed that there is no claim application from the scheduled tribes & other traditional forest dwellers with respect to mining lease area. The mining companies should provide the job opportunities to the people residing nearby to the mining area. As discussed in the previous meeting, Krishnanagar has to be mentioned in the mineral dispatch slip instead of Thimmapangudi forest area.

Sripada Swamy, the former leader of Daulathpur, discussed regarding conduct of gram sabha and said that the grama sabha to be conducted after concurrence of forest right committee but it is conducted without having prior discussion.

Further added that the joint survey was conducted as per which it was informed to identify area as forest and revenue land. Also, why the grama sabha date has been finalized without taking consent of President, forest right committee. The agricultural activities which were carried out were identified in cultivator column till 2007 but the same has been deleted from the cultivator column. The details of the letter submitted in previous meeting are as follows.

There is an objection by him regarding issuance of Form - 2 and Form - 1. In the previous meeting submitted letter its subject matter is as follows. The details of the previous meeting are as follows.

Thimmapangudi temple which is existing since the time immemorial, is situated within the limits of M.M.L mining area and is being affected by the mining activities. Commute to and from the temple is also being affected by the mining. Also, due to mining activities singana and other ponds are covered with mining mud. Therefore, forest animals are lacking drinking water. The standing crops of the farmers are affected by the mining dust. There is no arrangement for dump yard and they are dumping the mining material in the Yaradi Mauladi Kolla and

destroyed the water source from the ponds. They have taken Dowlatpur as adopted village and have not provided the basic necessities to the village.

I myself and my village farmers have opposed installation of conveyor line because the farmers since 50-60 years have cultivated forest revenue lands and request for issuance of deed of cultivation letter submitted before the president of village gram panchayat committee.

On 23/07/2019, the panchayat development officer had detailed discussion with the gram panchayath, forest right committee, its members, president and village farmers and investigated whether no people were living pertained to scheduled tribe and other forest dwellers.

The villagers have not submitted the claim application even after providing the sufficient time. The president grama sabha had decided the date not the president forest right committee regarding the instant subject matter and had informed about the meeting. The further steps will be taken only after the submission of documents related to the forest dwellers.

Sri D. F. Baba Sab member of gram panchayath, Krishnanagar discussed about paper publication and opportunities for submitting the claims and objections. Despite of sufficient time given, there is no claim and objections submitted and in the mining area no people were living pertaining to scheduled tribe and other forest dwellers. Therefore, Form - 2 and Form - 1 can be issued.

According to the letter sent by honorable Deputy Commissioner Ballari, it is mentioned that majoring of people of village committee meeting have given consent on the subject matter.

Thimmappa, resident of Krishnanager had informed that no such people such as scheduled tribe and hereditary inhabitants of forest are living. Hence he has given his consent to issue Form - 1 and Form - 2.

Member of Krishnanagar village panchayath, Rahmath said that from forest are maintaining our health as a single person requires 2100 cm³ oxygen per day. But destroying the forest area will lead to scarcity of oxygen. We ourselves have to suffer. At least 621 hectares (140 acres) part of forest area has been destroyed and it is very difficult to survive.

He further added that it is a responsibility of everyone to protect environment and have given suggestion for protection of environment.

Further asked to provide specific arrangement to the local people for their living. The same thing informed to the company which obtained mining lease.

Basavaraj, the president of Dowlathpur village Forest Right Committee, informed that the Forest Right Committee, has fixed its date without prior information.

The Panchayat Development Officer has spoken, that they have discussed the subject matter in presence of president of Forest Right Committee at Dowlathpur. The village panchayath President fixes any meeting of village committee and the meeting was scheduled on 25.07.2019 but later postponed to 29.08.2019. The same conducted after providing prior information to the concerned people.

The above subject matter discussed in detail before the committee meeting, and it was found that no such persons of scheduled tribe and hereditary forest inhabitants were living and despite of sufficient opportunity given, no such applications were submitted, hence the committee has given permission for issuance of Form – 1 and Form – 2, with full majority opinion in the committee meeting.

A/c to Forest Right Act it has been decided to issue Form-2 with respect to subject (1) and the decision of the meeting is given.

- 1) A/c to FRA, 2006, no beneficiaries are present in the mining lease area of Mysore Minerals Limited (an institution under Karnataka Government) in Sandur Taluk Krishnanagar. Thimmapangudi forest area mining lease No:2602/2002, measuring 621.59 hectares.
- 2) In village committee meeting, the purpose of project and its adverse effects discussed elaborately in local language of Kannada.
- 3) In village committee meeting, as per village population more than 50% adults have participated (No necessity for adjourned village committee).
- 4) In the village committee meeting, given consent to conduct mining activity for the purpose of project in the forest area as per Forest Right Act.

- 7) Primitive Tribal Groups and Pre-Agricultural Communities are not living in the instant area, hence as per section 3(1)(E) of Forest Right Act, the question of taking action does not arise. Hence, gram sabha has given no objection to issue Form – 2.

As per Forest Right Act, the decision to issue Form-1 with respect to subject (2) is as follows.

2	Krishnanager Grama Panchayath in Sanduru Taluk	Resolution passed on 29.08.2019 by the Krishnanagar Village Forest Right Committee.		

Krishnanagar, Grama Panchayath and on 18.07.2019 at 3:00 PM in Daulathpur village in front of Durgamma Temple, Forest Right Committee meeting through its president by name Hulugappa and Basavaraj have conducted respectively.

Instant, Forest Right Committee pertains to mining lease and also regarding conveyor line in the forest area prescribed scheduled tribe and other permanent hereditary forest inhabitants were resides, they have filed their applications in Form A and B as claim applications, Date fixed on 01.07.2018 through paper publication time provide them. Since the above date no such claim application were submitted, regarding this subject discussed in the village committee meeting and taken decision in the said committee meeting its resolution submitted.

Instant meeting no such application submitted therefore no discussion about this subject, other prescribed subject matter may be discussed as said by PDO.

In the beginning of the discussion, Krishnanagar Grama Panchayath member Revansiddappa has spoken, instant mining lease area any scheduled tribe and other traditional forest dwellers were living as said by him. Mining lease companies have provided job opportunity to the local people and as per saying in the previous committee meeting that the mineral dispatch slip area contents Thimmappa temples shall be changed as Krishnanagar taking steps to this effect.

Sripada Swamy former leader Daulathpur has spoken date fixation of Grama Sabha shall be conducted, prior discussion with the president Forest Right Committee. But not doing so suddenly conducted the meeting of Grama Sabha.

meeting as for and against opinions. But in the instant mining leased area persons belonged to scheduled tribe and other permanent hereditary forest inhabitants were not living and in spite of sufficient time given, no claim application with documents are not submitted, hence in the village committee given its consent in issuance of Form – 2 with its full quorum.

For the reasons as per resolution of the Gram Sabha held on 29.08.2019, The Mysore Minerals (the said unit affiliated under Karnataka Government) the said unit authority in Sanduru taluk of Krishnanagar village Thimmappa temple forest area under their mining lease bearing number 2602/2002 in measuring land 621.59 hectare area to conduct mining other than forest activity purpose, as per the scheduled tribe and other traditional forest dwellers(Recognition of Forest Right Act 2006) as per any prescribed scheduled tribe cultivation and who are dependents of forest area were not found. Hence issuance of Form – 2 decided in meeting with quorum. The above stated decision for its future steps sent before the honorable Deputy Commissioner and president of District Level prescribed scheduled tribe and other traditional forest dwellers of Forest Right Committee Ballari decided to sign by it's subdivision level committee and given consent.

Instant Forest area conduct joint survey and specified the area belongs to Forest and Revenue, without informing to the president of Forest Right Committee, what is the reason for fixing the date, as said by him. Further says about agricultural activities in the area of mining lease for its enquiry, since 2007 in the cultivator column name of the cultivator entered later on deleted it's reason. Instant subject matter issuance of Form – 2 and Form – 1 is opposed as he said. Application filed in the previous committee as follows:

Since time immemorial, Thimmappa temple situated in the area of MML mining which almost destroyed from mining activity, the devotees are facing difficulty for their visit to the temple due to vehicle transportation problem. Due to mining activity, the ancient pond "Singana Kere" and other ponds closed with full of mud and dust. Due to the reason, the forest animals and cattle were suffering scarcity of drinking water. Crops in the field of farmers destroyed with dust due to mining activity. In the said area famous pond "Yardadi Moulaai Pond" situated, in the instant pond there is no dumping yard and adopting dumping activity which leads almost destroying the water source pond. The village of Daulathpura has taken as adopted village not providing any basic needs. Myself including our village farmers were denied our consent for marking conveyor line for the reasons since 50-60 years they are cultivated the land in the area covered of forest and revenue land. Hence they filed their applications before the president of Grama Sabha in issuance of cultivation certificate in their favor.

PDO has spoken, on 27.07.2019, the members and president of Grama Sabha and forest right committee and Village farmers have visited to said mining area and enquiry confirmed, where in no such persons such as scheduled tribe

and other traditional forest dwellers were living informed by him.

Further explained, no such claim applications submitted in spite of sufficient time given.

Further Forest Right Village Committee its meeting date fixed by the president of Gram Panchayath but not its date fixed by the president of Village Forest Right President, Answer about the committee meeting pertains to the subject, prescribed scheduled tribe and other traditional forest dwellers only discussed regarding and submitting any such documents if any before the committee provide necessary step answered by PDO.

Sri. D. S. Babasab member of Grama Panchayath of Krishnanagar has spoken, already published in the paper public and also in spite of sufficient time given no any claim applications and objections were submitted and instant mining lease area any scheduled tribe and other hereditary inhabitants of forest were not living and informing to issue Form-2 and Form-1 for its issuance before the village committee.

Further learned Deputy Commissioner Ballari sent its letter, Village committee has given its consent with full quorum.

One Thimmappa inhabitant of Krishnanagar has spoken, wherein no such, scheduled tribe and other hereditary forest inhabitants were living, hence request for issuance of Form-1 and Form-2. Rahmath president of Krishnanagar and member of Gram panchayath Krishnanagar, has spoken that the forest environment is essential for our health, a man needs 2100 cm cube oxygen per day. Due to destroying activity in forest which leads scarcity of oxygen we are facing. In case 621 hectares(160 acre) area forest destroyed which leads very difficult for survival.
