**76.4.8 Amendment in the minutes of previous meetings with respect to following proposals:**

1. Proposal for use of 0.312 ha (Noganur RF 0.042 ha and Panai RF 0.270 ha) of forest land from Cauvery North Wildlife Sanctuary for laying of underground Optical Fiber Cable along road side from Anchetty to Denkanikottai for a distance of 10.4 Kms in Krishnagiri District, Tamil Nadu  
**FP/TN/Others/30208/2017**
2. Proposal for use of 0.258 ha of forest land from Cauvery North Wildlife Sanctuary for laying of underground Optical Fiber Cable along road side from Dharmapuri-Anchetty State Highway for a distance of 8.6 Kms in Krishnagiri District, Tamil Nadu.  
**FP/TN/Others/30207/2017**
3. Proposal for use of 0.315 ha of forest land from Cauvery South Wildlife Sanctuary for laying of UG Optical Fibre Cable along the roadside from Dharmapuri to Anchetti outside right of way across Woddappatti R.F. and Biligundala R.F. in Hosur Wildlife Division, Tamil Nadu.  
**WL/TN/OFC/436880/2023**

The Standing Committee was informed that first two proposals i.e., FP/TN/Others/30208/2017 and FP/TN/Others/30207/2017 were recommended in the 72<sup>nd</sup> meeting of the Standing Committee held on 25<sup>th</sup> April, 2023. The third proposal i.e., WL/TN/OFC/436880/2023 was recommended by the Standing Committee in its 75<sup>th</sup> meeting held on 17<sup>th</sup> November, 2023. One of the conditions imposed while recommending these proposals was that the project proponent (Reliance JioInfocomm) also should offer facility of free data connection (unlimited 4G and upgraded version then there) to the Principal Chief Conservator of Forests and Chief Wild Life Warden office/Conservator of Forests, Dharmapuri and Wild Life Warden, Hosur office for facilitating the cause of conservation protection.

The Reliance Digital Jio Fibre Limited, Chennai has represented to the Ministry that these routes are passing through thick forests having bio-diversity value and abundant wildlife population, and there is no possibility of taking OFC and installing technical equipment. Besides, the company also does not have any policy to provide such free data connection. It was also mentioned that they tried to facilitate the same in another route Theppakkadu-Masinagudi Moyar in Muddumalai Tiger Reserve but were unable to do the same. It has now been requested for exemption from the condition of providing free data connection.

The Chairman mentioned that such conditions amount to imposition of a kind of tax which is only the prerogative of legislature. In a similar request with regard to the proposal for diversion of forest land from Abohar Wildlife Sanctuary for Rehabilitation & Upgradation of Abohar-Sito-Gunno-Dabwali Road of NH-354 E, the Standing Committee had decided to remove the condition of sharing of 25% of toll fee revenue with the Wildlife Department which was imposed at the time of recommending the project. Therefore, for these proposals also, this condition can be removed.

**Decision Taken** – After discussions, the Standing Committee decided to remove the condition regarding offering free data connection to the Principal Chief Conservator of Forests and Chief Wild Life Warden office/Chief Conservator of Forests/Conservator of Forests and Wild Life Warden imposed at the time recommending these project proposals and also in respect of similar 5 proposals for 4G saturation in Kanyakumari District recommended by the Standing Committee in its 75th meeting.

- 76.4.9 Proposal for use of 400.89 ha for construction of Jamrani Drinking Water Multipurpose Project, Nainital, Uttarakhand in Dudhwa Lagga Tiger Corridor.

**FP/UK/WATER/5918/2021**

The Standing Committee was informed that the proposal is for use of 400.89 ha for construction of Jamrani Drinking Water Multipurpose Project, Nainital, Uttarakhand in Dudhwa Lagga Tiger Corridor.

The proposal has been recommended by Chief Wild Life Warden, the State Board for Wild Life and the State Government. The proposal was not recommended by the NTCA.

The proposal was taken up for discussion in the 74th meeting wherein the Standing Committee decided that the proposal shall be examined by a site inspection committee under the Chairmanship of Shri H. S. Singh, representative of Director, Wildlife Institute of India, Dehradun, Chief Wild Life Warden, Uttarakhand and one representative from the Ministry and accordingly, deferred the proposal for the next meeting.

The Ministry constituted a committee vide letter WL – 6/125/2023 WL dated 27th September, 2023 for site inspection and submission of report. The Site Inspection Committee has carried out inspection and submitted its report.

**Decision Taken:** After discussions, the Standing Committee decided that the Ministry shall communicate the report of the Site Inspection Committee to the State Government of Uttarakhand and seek comments on the suggestions given therein and therefore, deferred the proposal for the next meeting.

Hon'ble Minister of State for Environment, Forest and Climate Change stated that the conservation of wildlife has to be kept on priority while carrying out developmental activities. The Standing Committee has, therefore, placed certain restrictions on carrying out such activities in protected areas and tiger reserves for the conservation of wildlife and its habitat which is appreciable.

The meeting ended with the thanks to the Chair.
