## Wildlife Mitigation Plan in connection to construction of 132 KV transmission line from Rabindranagar to Belonia under DFO, Gomati passing through Garjee Conservation Reserve

### Introduction:

**Justification of the proposal:** During the initial survey conducted by TSECL on 2014 this additional area as sought from Garjee CR (0.90 ha) was not there. It came into existence due to erection of Garjee Railway Station established and functional within the RoW of the said transmission line (as per the initial survey done in 2014). Due to which the 132 KV transmission line from Rabindranagar to Belonia required to be diverted. For this purpose 02(two) additional tower need to be constructed which falls under Garjee RF (Now Garjee CR). For construction of the said 02 additional tower some additional forest areas are involved for which this diversion proposal has been submitted. On examination it is found that forest area of around 0.9 ha is required for diversion.

### About Garjee CR:

- In exercise of powers conferred by subsection (1) of section 36A of the Wildlife (Protection) Act, 1972 (53 of 1972), the Government of Tripura declared that the area specified in the schedule within the limits of the area mentioned in the table below (excluding forest rights vested lands) shall be comprised within the Garjee Conservation Reserve with effect from the date of publication of this notification.
