

BIO DIVERSITY IMPACT ASSESSMENT REPORT

Name of the project- Brahmagavhan Lift Irrigation Scheme – III, Near Old Lakhmapur village, Tal. Gangapur, Dist. Aurangabad.

The project Brahmagavhan Lift Irrigation Scheme – III having an area below to 50 hectors therefore this project does not needs to do biodiversity impact assessment study.

The work of laying the Raw Water pipeline will be done within the existing /available road RoW. However, there will be no tree falling or the acquisition of the land where the project pipe line passes through the wild life sanctuary. Hence, the biodiversity will not be affected in the protected area.

Executive Engineer
Minor Irrigation Division No.1
