Order

- 1) For installing 400 KV Quad D / C Udupi-Kasaragod-Transmission line by Udupi Kasaragod Transmission Limited (UKTL) in Kasaragod district, instead of diverting 17.073 H of forest land, the forest area in Kasaragod district, Vellarikundu Taluk, Bheemanadi village, will be taken up for remedial afforestation, on the request of the Divisional Forest Officer, Kasaragod reference (1), to give 22.17 hectares of revenue land from the Re. S. No. of 553, in Kammadam Kavu, the District Collector had requested for clarification.
- 2) For installing the 400 KV Quad D / C Udupi-Kasaragod-Transmission Line, the proposal for the allotment of 17.073 H forest land to UKTL under reference (2) has been sent to the central government for remedial afforestation in lieu of above said land, the forest department has identified 22.17 hectares of revenue land in Kammadam Kavu. However, the Commissioner of Land Revenue had reported under reference (4) that only 16.4062 hectares of land was left in the Kammadam Kavu area after allotting land for remedial afforestation in lieu of Hill Highway and Kuthiran Tunnel projects.
- 3) Instead of the forest land that will be lost for the construction of the mountain highway in the name of the Forest Department under reference (3), for remedial afforestation, details of 4.332 hectares of land in Kammadam Kavu, as per the State Forest Department Reference (5), the same was uploaded on Parivesh Portal on 07/10/23 has been allotted. However, according to the Regional Office, Bangalore, Ministry of Environment, Forest and Climate Change (MoEF & CC), Government of India (GOI), 17.073 hectares of land has been proposed for the UDUPI-Kasaragod Transmission.) As the land to be proposed for remedial afforestation, the above said projects has to be separate and non-overlapping while the forest land has to be converted for execution of the two identified projects. The clearance of MoEFF & CC for both the projects will be possible only after ensuring that the land proposed for remedial afforestation does not overlap. For the transmission line Stage I, the proposal was approved and to modify a proposal that has been approved is not possible, the letter from the central government suggested to find another location to find for the remedial afforestation for the land required to the Hill Highway project.
- 4) 17.073 hectares of forest land to be diverted for transmission line project Proponent (UKTL) in the proposal submitted by the State Forest Department to the Central Government under reference (2) for permission to do 17.073 hectares of land in Kammadam

Kavu has been proposed for afforestation without the knowledge or consent of the Revenue Department. The said land was proposed for remedial afforestation without due diligence by the Proponent Revenue Department resulting in overlap between the areas proposed for remedial afforestation for the Hill Highway Project and the Udupi Kasaragod Transmission Line Project. In Kasaragod district, vellarikundu Taluk, Bheemanadi Village, out of 22.17 hectares of land at Kammadam in Bheemanadi village, 4.332 hectares of land has been allotted for the Hill Highway Project and 1.4318 hectares of land for the Kuthiran Tunnel Project. The remaining 16.41 - hectare land is in Kammadam Kavu, but the 17.073 -hectare land in Kammadam Kavu was proposed by UKTL for the transition line project without the permission of the revenue department. This has led to an overlap between the proposed locations of the two projects and needs to be resolved.

- 5) To create a buffer zone along the forest boundary under the Rebuild Kerala programme, State Forest Department of Kerala has been acquired more than 100 acres of land, and instead of forest land being converted for development projects, that land can be set aside for remedial afforestation. When that land is set aside for remedial afforestation, the purpose of creating a buffer zone comes into play. Therefore, the solution for the Hill Highway project was issued by reserving the land for afforestation. The OG ordered that the land should be allotted for the remedial afforestation for the Udupi-Kasaragod Tension Line Project and instead the land could be proposed from the land bank formed under RKDP for the remedial afforestation for the Hill Highway Project.

- I. On the basis of a detailed scrutiny of the matter by the Government, the following order is issued:

(i) For remediating the loss of 4. 332 hectares of forest land by the construction of the mountain highway, in Kasaragod district, Vellarikkundu Taluk, Bheemanadi village, from Re. S. No. 553, the Government order in Reference (3) cancels the transfer of ownership of 4.332 hectares of revenue land in the name of the State Forest Department to the Forest Department.

(ii) Including the above said 4. 332 332 hectares of land In Kasaragod District, in Vellarikund Taluk, in the Kammadam Kavu of Bheemanadi Village, 17.073 hectares of forest land being diverted by Udupi Kasaragod Transmission Limited for setting up 400 KV Quad D / C Udupi-Kasaragod Transmission Line, the ownership is being transferred to the Forest Department for Transfer of Registry in the name of State Forest Department for remedial afforestation.
