Satara for rehabilitation of Village Vele, Tal. Jaoli, Dist. Satara from Koyna Wildlife Sanctuary of Sahyadri Tiger Reserve, Maharashtra State (Online No. FP/MH/REHAB/ 144503/2021)

Sr. No.	Points	Remark
i	The Nodal Office has not provided his own specific recommendation for the proposal in Part - IV of the proposal.	This matter related with Nodal Office.
ii	As per DSS analysis, the calculated forest area for diversion is found to be 114.873 ha. Instead of 112.25 ha as per proposal. Therefore, the correct KML file of 112.25 ha. shall be submitted.	Therefore, the correct KML file of 112.25 ha. Submitted herewith in CD. KML includes following items: - Polygon no.1:- Proposed Road for MIDC, Proposal under FCA 1980 in process. Polygon no. 2 :- Canal already approved under FCA 1980. Polygon no. 3: - Existing Road as per toposheet surveyed on 1888.89. Polygon no. 4. Area for Rehabilitation i) Gaothan ii) Agricultural land Polygon no. 1, 2 & 3 are within polygon No. 4. Area of Polygon no. 1, 2 & 3 has been deleted. Polygon No, 4 has been corrected and found to be 112.25 ha. (Kindly refer Map attached as Annexure - 1)
iii	The KML file of the forest village 'Vele' which is proposed to be re-located from the Koyna Wildlife Sanctuary shall be submitted/uploaded.	The KML file of the forest village 'Vele' which is proposed to be re-located from the Koyna Wildlife Sanctuary submitted in CD. Details are given in Point no. xii.
iv	Project report mentions that the total area of notified Koyna Wildlife Sanctuary is 423.55 sq. km. Out of which non forest area of 14 villages has been excluded, the boundaries of the Koyna Wildlife Sanctuary have been altered and the same has been reconstituted with and area of 335.30 sq. km. Therefore, the KML file of Koyna Wildlife Sanctuary (335.30 sq. km) along with its Core area is required to be submitted.	Project report mentions that the total area of notified Koyna Wildlife Sanctuary is 423.55 sq. km. Out of which non forest area of 14 villages has been excluded, the boundaries of the Koyna Wildlife Sanctuary have been altered and the same has been reconstituted with and area of 335.30 sq. km. Therefore, the KML file of Koyna Wildlife Sanctuary (335.30 sq. km) along with its Core area CD attached herewith.
v	High-resolution satellite imagery shows that the plantations and pre-plantation operations have been carried out within the village Dhangarwadi, Bhoali and Mane colony proposed for diversion. This needs clarification.	Many forest land (patches) were scrutinized for settlement of proposed project affected persons (PAP's) of village Vele. Most of the forest land patches were unsuitable for agriculture so consent has not given by PAP's, but the said patch of 112.25 ha. is a continuous patch of which terrain is comparatively leveled also located near water canal and having better soil depth so consent has been given by PAP's.

Land was suitable for plantation so plantation activities carried out on the said patch as per description given below.

Village	Gat No.	Year of Plantation	Area (in Ha.)	Expenditure (in Rs.)
Bholi	362,363	2018 (4th)	10	1407367/-
Mane Colony	250	2018 (4th)	25	7084841/-
Dhanagarwadi	389	2019 (3rd)	10	2592672/-

Though most of above expenses are going to be unfruitful due to lack of alternate suitable land with potential irrigation facilities compel us to divert the land which is under plantation. Another considerable point is that it is going to save expenses of leveling of land and bringing it under irrigation which is otherwise to be born up by department.
