Sub: Diversion of 14.613 ha. forest land in favour of NHAI for Construction of Eight laning of existing four lane Vadape to Thane from Km.539.202 to Km.563.000 section of NH-3 (New NH-848) in the State of Maharashtra to be executed on Hybrid Annuity Mode (HAM).

Sir,

While taking up the work of 8 laning of Vadape Thane Section of NH-848 (Old NH-3) in June 2021 by M/s. MSRDCIPL. It was informed by Forest Officials that the ROW involves forest area and documents towards diversion of forest land under the provisions of Forest Conservation Act -1980 are not produced by the authority. After perusal of the available documents it was observed that though earlier it was proposed to handover 60m ROW to NH PW Division, Thane in August 1980, it seems that the process could not be completed.

2. The 2 lane construction in this ROW was done from 1980 to 1982 & later on 4 lane work was done during 1998 to 2003. After detail inspection of site it was advised by Forest Officials to submit forest diversion proposal for entire ROW. Accordingly, the proposal has been submitted to forest department for an area 14.613 Ha. on 31.10.2021. As the violation seems to have taken place knowingly/unknowingly. The details of the officials who were in-charge in the respective years were obtained. The list is enclosed at Annexure-A.

It is requested to take necessary action as per the MCS Rules -1979 at your end.

Thanking you

Yours faithfully

Proposal for the diversion of Diversion of 14.613 Ha. Forest Land in favour of NHAI for Construction of Eight laning of existing Four lane Vadape to Thane from Km. 539.202 to Km. 563.000 section of NH 3 (New NH-848) in the State of Maharashtra to be executed on Hybrid Annuity Mode (HAM). By Project Director, National Highways Authority of India, PIU, Thane.

#### JUSIFICATION OF VIOLATION

**Brief Background and requirement of the project :-** Proposal is submitted for the Diversion of 14.613 Ha. Forest Land in favour of NHAI for Construction of Eight laning of existing Four lane Vadape to Thane from Km. 539.202 to Km. 563.000 section of NH 3 (New NH-848) in the State of Maharashtra to be executed on Hybrid Annuity Mode (HAM).

Good transportation systems are lifeline to the area they serve. Roads bring about all-round development in the region. A good road network helps in the success of all development activities. It is in the sphere of movement of people and goods, agriculture, commerce, education, health, and social welfare, or even maintenance of law and order and security. The Vadape-Thane Road is located in the district of Thane which in turn is located in the State of Maharashtra. Maharashtra occupies the western and central part of the country and has a long coastline stretching nearly 720 km along the Arabian Sea. The Sahyadri mountain ranges provide a physical backbone to the State on the west, while the Satpuda hills along the north and Bhamragad-Chiroli Gaikhuri ranges on the east serve as its natural borders. The State is surrounded by Gujarat to the north west, Madhya Pradesh to the north, Chhattisgarh to the east, Andhra Pradesh to the south east, Karnataka to the south and Goa to the south west.

The existing road from Vadape (km 539+202) to Thane (km 563+000) experienced tremendous growth in Traffic once 4 laning was done, as it is a vital link connecting NH-8, NH-3, NH-4 and NH-17 & now it is also proposed to be connected to Samruddhi Mahamarg ie Nagpur -Mumbai Expressway. The traffic has increased considerably after development of surrounding network and growth of urban conglomerates like Thane Municipal Corporation (TMC), Kalyan Dombivli Municipal Corporation (KDMC), Navi Mumbai Municipal Corporation (NMMC) and Bhiwandi Nizampur Municipal Corporation BNMC). Keeping this in view, GOI has initiated 8 laning of this corridor considering present traffic and

of the proposal for an area of 13.91 Ha forwarded in 1984 is not available in records, during discussion with forest officials, they have suggested to prepare fresh forest proposal for entire 60m ROW, and submit it online for approval from Govt of India. The same has been prepared and now the area to be diverted in which NH ROW comes out to 14.613 Ha. The fresh proposal shall be processed for approval. In view of the above, the work done for 2 lane and 4 lanes shall not be considered as violation and the fresh proposal shall be processed for early approval.
