NOTES :-

Heights are in metres and above Indian mean sea level. Contours are approximate. A relative height, 'h', represents the approximate height, in metres, between the top and bottom of a slope. The triangulated heights and contours in this sheet have not been adjusted to the heights of the spot levelled bench-marks and may not be strictly in accordance with them. The administrative boundaries have been surveyed as far as possible by the local officials on the ground, but have not been verified by the District authorities. The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribbons. Tanks, shown dry, in this area usually contain water from July to December. Hand Pump is shown thus.
