Spacing 4 meter from plant to plant

Species

The following shade bearing, evergreen, medicinal, ornamental tree species will be planted.

Sl. No.	Vernacular Name	Botanical Name
1	Jamu	Syzygium cumini
2	Kadamba	Anthocephalus Chinensis
3	Neem	Azadirachta indica

8	Ashoka	Saraca asoca

Planting and post-planting:

Block plantation shall be taken up with 1600 plants per hectares (18 months old seedlings) at spacing of 2.5 m x 2.5 m. Alignment and pit marking should be done carefully in slopes so that the horizontal distance between plants in a row remains 2.5 mtrs and not the distance measured along the slope. Size of pits will be 45 cm X 45 cm X 45 cm. All post planting measures like casualty replacement, soil working, manuring, fire protection etc. will be undertaken.

While taking up plantation, the following points shall be taken up for consideration: -

- > Care to be taken to raise healthy seedlings of minimum 60 cm height. 10% extra seedlings are to be raised for replacement of casualty.
- > Pitting shall invariably be done during November-February i.e., before onset of monsoon. If possible, the soil of upper portion and lower portion of pit should be placed separately in specific direction so that while planting the pits will be filled with top-soil first.
- > Planting shall be done on the onset of monsoon to get full benefit of monsoon rain and planting should never be delayed.
- > Basal dose of NPK and Chlorpyrifos dust per plant should be applied at the time of planting carefully by mixing with top-soil so that the roots of seedlings do not come in direct contact with fertilizer.
- > In case of any mortality of planted seedlings, it should be replaced with good seedlings as soon as possible for better success rate.
- > Complete weeding in proper time will be done. Strip weeding will not be permitted.
- > Soil-working and application of 2nd dose fertilizer of NPK should be done in time.
- > Since the area is provided with chain link fence, watch & ward will be easier and the watchers may be engaged in weeding in problematic areas along with watch & ward.

Sub: Proposal for diversion of 0.95 ha of forest land for construction of intake water pump house at Samal, Talcher in Angul district, Odisha by NTPC Ltd. for proposed expansion of their Talcher Thermal Power Station (Proposal No. FP/OR/TH/12401/2015)

Sir,

I am directed to send herewith a proposal for diversion of 0.95 ha of forest land for construction of intake water pump house at Samal, Talcher in Angul district, Odisha by NTPC Ltd. for proposed expansion of their Talcher Thermal Power Station, as received from the Principal Chief Conservator of Forests, Odisha for consideration of Government of India, Ministry of Environment, Forest and Climate Change, Eastern Regional Office and approval under Section 2 of Forest (Conservation) Act, 1980.

1. Brief Description

Talcher Thermal Power Station (TTPS) located near Talcher town in Angul district of Odisha is at present having capacity of 4660MW (4x660MW + 2x110MW). This project has been taken over by National Thermal Power Corporation Ltd. (NTPC Ltd.) on 3.6.1995 from the Orissa State Electricity Board (OSEB). NTPC Ltd. is planning to take expansion of existing 4660MW Thermal Power Station by adding two additional units of 660MW each within the existing vacant project area of TTPS for which there is no need of additional land for expansion of the project. The proposed expansion has been approved by NTPC Board on 12.11.2010 with a total project cost of Rs. 8464.47cr. The site is approachable from Bhubaneswar-Talcher section of NH-15. The nearest Railway Station is Talcher at a distance of 3 KM on Talcher Cutback Line and Talcher Road (5 KM) on Sambalpur-Bhubaneswar line. The TTPS is at a distance of 150 KM from Bhubaneswar Airport. NTPC has signed Power Purchase Agreement with State Grids of Uttar, West-Bengal, Odisha, Jharkhand and Andhra Pradesh. Some of Odisha's share of the electricity generated from the proposed project, apart from allocation through

2. Justification for locating the project in Forest Area

Since being a non-site specific project, details of alternative sites examined for setting up of the project justifying in-scapability of forest land is required to be furnished by the user agency as per provisions of para 2.1(vi)(3) of FC Act guidelines. It has been submitted by the user agency in page 58-64/DI that an initial survey was carried out in July 2010 by NTPC for selection of site for construction of Pump House. Based on such survey, location of the Pump house was to be located in the right bank of upstream of Samal barrage. Accordingly three alternative sites were identified. One site of three sites so identified was proposed to the WR Department for the purpose of construction of Pump House. However, this location had to be abandoned midway in Feb. 2012 as the said site was identified by WR Department within the Submerged/pondage area of Samal barrage. Thereafter, in consultation with Samal barrage authorities, the present site in Hal Plot No. 41(p) (which was sabik kisan forest) located at about 100mt upstream of the earlier location was found to be technically feasible and suitable for this project.

3. Maps

The User agency has furnished the following authenticated maps.

Sl. No.	Description	Scale	Plate No.
1.	DGPS Map of forest land to be diverted duly verified by ORSAC and authenticated by DFO, Angul	1:2000	Plate No. I
2.	Location map of the project on Survey of India Topo sheet No.F45N4 with DGPS readings	1:50,000	Plate No. II
3.	Village map of mouza Bhaktipal, showing proposed pump house area	1:2500	Plate No. III

4. Forest land

Total land required for the pump house project is 2.317 acres which is entirely forest kisan land including 1.626 acres of sabik kisan forest land. The project does not involve any non-forest land. In view that entire project area is forest land, status of non-forest land as on 25.10.1980 to be verified by Tahasilkar is not required for this project.

5. Flora & Fauna

The project site is located at 27kmts away from Kandajetta RD, and is at a distance of 46.3km from the designated area of Kandajetta Asiatic elephant corridor. The Forest type of the area is North Indian Moist Deciduous forest with crown density II/3 and Eco value class I

10. Cost-Benefit Analysis

As the proposed diversion land is less than 70 ha, cost-benefit analysis is not applicable for this project.

11. Environmental Clearance

As reported by the User Agency, Environmental Clearance, in accordance with the provisions of the EIA Notification 2006 dated 14.09.2005, for the expansion TTPS project (2x60 MW) will be prepared and submitted to MoEF & CC, after revision of the EIA and EMP report. TOR has been issued by MoEF vide Letter No.F-13012/31/2009-IA-II (T) dt.22.10.2014 and No.F-13012/31/2009-IA-II(T) dt.13.01.2017 for undertaking detail EIA study. Similarly, SPCB, Odisha has granted Consent to this project vide their order dt. 15.2.2016 which is valid up to 31.3.2018. Hence, separate environmental clearance for the proposed pump house project may not be invited.

12. FRA compliance

The Collector, Angul has furnished FRA compliance for the applied forest area i.e. 2.337 Acres vide letter No.1778 dated 14.10.2016. The compliance include FRA certificate issued by the Collector, Angul as per format prescribed by Govt. MoEF&CC for 2.337acres of forest land, Proceedings of DLC dt. 14.10.2016, SDLC held on 29.7.2016 along with proceeding of Gram Sabha resolution of Samal GP dt. 12.1.2016 in Odia version, which are enclosed in the DP at Page No.18-44. English version of Gram Sabha resolution is at page 72-73/DP.

13. Geo-reference digital map

Ministry of Environment and Forests, Government of India in their letter F. No. 114/9K dated 8.7.2011 have issued guidelines that all applications seeking prior approval of the Central Government under Forest (Conservation) Act, 1980 for diversion of forest land for non-forest purpose must be accompanied with Geo-referenced boundary in shape file pertaining to forest land proposed for diversion. These documents/Maps are required to ensure accurate delineation of the forest area to be diverted. The user agency in compliance to this order, has submitted the required digital maps duly verified by OICSA and authenticated by Divisional Forest Officer of Angul Forest Division which is enclosed in the DP along with the shape file. The soft copy in CD form is also enclosed to the DP.

14. Violation

No violation has been committed by the user agency in the proposed area as reported by the DFO in Part II of the DP.
