Annexure - II  
(2 of 10)

Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

59.5.4 Diversion of 3.1142 ha of forest land in tiger corridor linking Kawal Tiger Reserve in Telangana and Tadoba Tiger Reserve in Maharashtra falling in compt.231 of Manikarh RF in Asifabad forest division in Kumarambheem, Asifabad District of Telangana for the construction of Warora Pool, Warangal (New) 765 KV D/C Transmission line in favour of Warora Kurnool Transmission Limited (WKTL) [File No. 6-162/2018 WL; Proposal No. FP/TG/TRANS/27465/2017].

The Member Secretary stated that the proposal is for diversion of 3.1142 ha of forest land in tiger corridor linking Kawal Tiger Reserve in Telangana and Tadoba Tiger Reserve in Maharashtra falling in compt.231 of Manikarh RF in Asifabad forest division in Kumarambheem, Asifabad District of Telangana for the construction of Warora Pool, Warangal (New) 765 KV D/C Transmission line in favour of Warora Kurnool Transmission Limited (WKTL). The State Chief Wild Life Warden has recommended the proposal and the State Board for Wild Life has also recommended the proposal on 01.02.2020.

Decision Taken: After discussion, the Standing Committee decided to recommend the proposal subject to the following conditions:

(A) Conditions imposed by the Chief Wild Life Warden

- (1) That the user agency will provide Rs.30.00 lakhs for developing natural grass lands/meadows below the power transmission lines as under:

(Rs.in lakh)

Sl.N o	Component	Financial target
1.	Habitat Management a) Bore well with solar pump sets (2) units @ Rs.5.00 lakh per unit	10.00
2	b) Management of natural grass lands by uprooting the obnoxious weeds and sowing locally collected grass seeds over 100 ha for three consecutive years at a cost of Rs.10,000/-per ha	10.00
3	Water Management a) Construction of mini percolation tanks 2 Nos.@ 2.0 lakh/each at the solar bore well site for water storage	4.00
4	Fire Management: Formation of new fire lines (width 6.00 Mtrs) 26900 Rmt @ Rs.10/-1 Rmt.Per Year	2.69
5	Publicity & Awareness Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the areas	3.31
	Total	30.00

The above amount shall be deposited by the user agency in the BIOSOT account of Chief Wild Life Warden, Telangana.

- (2) The user agency shall fell only the barest minimum number of trees while executing the work.
- (3) The works shall be carried out without disturbing or damaging Flora, Fauna or habitat of the area.
- (4) Work shall be carried out from 6.00 am to 6.00 pm only.
- (5) The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required they should be carried to the site during execution of work.
- (6) No labour camp should be established inside the Tiger Reserve during the execution of the work.
- (7) The debris formed due to the execution of the works shall be taken away from the tiger reserve on day-to-day basis.
- (8) The user agency shall construct Masonry pillars to demarcate the proposed project area at every 25-meter interval.
- (9) The User Agency should raise the height of the towers in consultation with the Chief Wild Life Warden.
- (10) In addition to the existing forest road, user agency shall avoid creation of additional trails/ roads for construction work or use by construction vehicles/ machinery.
- (11) To prevent exposure of soil to erosion, excavation for laying pylon foundations must be deep, and not spread. These must be located as close to the existing road as possible, and away from water bodies and steep slopes. The soil at these spots must be stabilised post construction to control erosion and assist in vegetation regrowth.
- (12) Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

**(B) Conditions imposed by the NTCA**

- (13) **Mitigation of electrocution risk to tigers and associated species:** A major threat to dispersing tigers and other associated wildlife in corridor areas and forest adjoining human habitations and agricultural fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the Standing Committee recommended that the height of towers shall be raised by the User Agency in consultation with the Chief Wild Life Warden instead of insulation.
- (14) **Mitigation of electrocution risk of birds:** This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded wires of hardware. For large perching raptors, distance should be >1.8 m between perches and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

-1615-

Annexure -11  
(4810)

- (15) **Mitigation of collision risk:** Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wire, to birds by thickening, coating and colouring wires, and by installation of line marking devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wires by at least 20 cm for a length of at least 10-20 cm, and placed at intervals of at least 5-10 m. the markers must be in contrast with the background.
- (C) The User Agency shall raise the height of the tower in consultation with the Chief Wild Life Warden.
- (D) The animal passage plan submitted by the User Agency shall be implemented in-toto.
- (E) Reflectors may be used appropriately to minimize collision risk of birds.
- (F) The annual compliance certificate on the following stipulated conditions should be submitted by the project proponent to the State Chief Wild Life Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

**AGENDA NO.6 (Any other item with the permission of the Chair)**

- 59.6.1 Diversion of forest land for Development of 8 lanes (Greenfield Highway) from (Ch. 392.800 Km) Bhenda Hera village to (Ch. 452.425 Km) Moondiya village Section of NH-148 N (Total length 59.625 Km), Under BHARATMALA PARIYOJANA Lot-4/Pkg-4 in the state of Rajasthan.FP/RJ/ROAD/36597/2018**

The Member Secretary stated that the proposal is for diversion of forest land for Development of 8 lanes (Greenfield Highway) from (Ch. 392.800 Km) Bhenda Hera village to (Ch. 452.425 Km) Moondiya village Section of NH-148 N (Total length 59.625 Km), under BHARATMALA PARIYOJANA Lot-4/Pkg-4 in the state of Rajasthan. The State Chief Wild Life Warden has recommended the proposal. The State Board for Wild Life also recommended the proposal through circulation.

**Decision Taken:** After discussion, the Standing Committee decided to recommend the proposal subject to the following conditions:

**(A) Conditions Imposed by the Chief Wild Life Warden**

- (1) 2% of the proportionate project cost of the area falling within the protected area and the ESZ should be deposited in Rajasthan Protected Area Conservation Society by the user agency for management and protection of wildlife in the state as corpus.
- (2) No work shall be done before sunrise and after sunset in the project area.

11. D.I.G., of Forest (WL) Govt. MoEF and Climate Change, Parampari Bhawan, New Delhi, F.No. 6-162/2018 WL, Dated: 22-11-2020.  
12. P.O. C.C.F. (Hoff) & Chief Wildlife Warden, TS Hyderabad Re. No. 12482/2017-FC A-3 PS, Dated: 10.11.2020.

It is to inform that, the Principal, Chief Conservator of Forests (Hoff) & Chief Wildlife Warden (FAC), Telangana Hyderabad vide reference 11<sup>th</sup> cited has communicated the Minutes of 59<sup>th</sup> Meeting of the Standing Committee of National Board for Wildlife held on: 08-10-2020 in which the proposals for Diversion of 3.1142 ha forest land falling in Tiger Corridor Area of Kawal Tiger Reserve in KB-Aulabad Division for construction of Warora Pool-Warangal (New) 765 KV D.C. transmission line in favour of Warora Kurmooi Transmission Line (WKLTL) recommended the proposal subject to complying the conditions by the User Agency and requested to raise the demand notice in the User Agency for complying the conditions imposed and for depositing Wildlife mitigation money into BIOSOT account and report compliance.

In view of the above, the Demand notice for Wildlife mitigation measures for Diversion of 3.1142 ha forest land falling in Tiger Corridor Area of Kawal Tiger Reserve in KB-Aulabad Division for construction of Warora Pool-Warangal (New) 765 KV D.C. transmission line in favour of Warora Kurmooi Transmission Line (WKLTL) as follows.

(7319)

(A) Conditions imposed by the Chief Wildlife Warden:

(1) The User Agency will provide Rs. 30.00 Lakhs for developing natural grassland and meadow below the power transmission line as under:

Sr No	Name of the work	Amount in Lakhs
1.	<u>Habitat Management</u> a) Bore well with solar pump sets (2) Nos. @ Rs. 5.00 lakh per unit	10.00
2.	b) Management of Natural Grass Lands by uprooting the obnoxious weeds and sowing locally collected grass seeds over 100 ha for three consecutive years at a cost of Rs 10,000/- per ha	10.00
3.	<u>Water Management</u> a) Construction of Mini Percolation tanks 2 Nos. @ 2.0 Lakh / each at the solar bore well site for water storage	4.00
4.	<u>Fire Management</u> Formation of New Fire lines (width 6.00 Mtrs) 26900 Rmt @ 10/- Rmt Per year	2.69
5.	<u>Publicity &amp; Awareness</u> Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the area	3.31
	<b>Total</b>	<b>30.00</b>

The User Agency shall be requested to deposit for Rs. 30.00 Lakhs for Wildlife mitigation measures through online mode into the Bio-Diversity Conservation Society of Telangana (BIOSONT) Account, the details of which are as under:

Name of the Account	Bio-Diversity Conservation Society of Telangana
Name of the Bank	Andhra Bank
Name of the Branch	Secrariat Branch, Hyderabad
Account Number	F103 0100030284
IFSC Code	ANDB 0001103

2. The user agency shall fell only the barest minimum number of trees while executing the work.
3. The works shall be carried out without disturbing or damaging flora, fauna or habitat of the area.
4. Work shall be carried out from 6.00 AM to 6.00 PM only.
5. The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required, they should be carried to the site during execution of work.
6. No labour camp should be established inside the Tiger Reserve during the execution of the work.
7. The debris formed due to the execution of the works shall be taken away from the Tiger Reserve on day to day basis.
8. The user agency shall construct masonry pillars to demarcate the proposed project area at every 25 m interval.
9. The user agency should raise the height of the towers in consultation with the Chief Wildlife Warden.
10. In addition to the existing forest road, user agency shall avoid creation of additional trails/roads for construction work or use by construction vehicles/machinery.
11. To prevent exposure of soil erosion, excavation for laying pylon foundations must be deep and not spread. These must be located as close to the existing road as possible and away from water bodies and steep slopes. The soil at these spots must be stabilized post construction to control erosion and assist in vegetation regrowth.
12. Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

(B) The User Agency shall comply with Conditions imposed by the NTCA:

- (13) Mitigation of electrocution risk to tigers and associated species: A major threat to dispersing tigers and others associated wildlife in corridor areas and forest adjoining human habitations and agriculture fields is electrocution by live wires. Making the transmission lines safer by insulating power line components needs to be carried out. However, the standing committee recommended that the safety of towers shall be raised by the user agency in consultation with the Chief Wildlife Warden instead of insulation.

(14) Mitigation of electrocution risk of birds: This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded parts of structures. For large panching spans, distance should be 1 ft between parts and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Bird management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

(15) Mitigation of collision risk: Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wires, birds by thickening coating and coloring wires and by installation of line markers, devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wire by at least 20 cm for a length of at least 10-20 cm and placed at intervals of at least 5-10 m the markers must be in contrast with the background.

(C) The User agency shall raise the height of the tower in consultation with the Chief Wildlife Warden.

(D) The animal passage plan shall be submitted by the User Agency shall be implemented in toto.

(E) Reflectors may be used appropriately to minimize collision risk of birds.

(F) The Annual compliance certificate on the stipulated conditions should be submitted by project proponent to the State Chief Wildlife Warden.

Further, the User Agency is also requested to intimate the details of payments made and furnish the (3 sets) of compliance report on all the conditions stipulated in the minutes of 59<sup>th</sup> meeting of the Standing Committee of National Board for Wildlife held on 05.10.2020 under the Chairmanship of the Hon'ble Union Minister of Environment, Forest and Climate Change, Government of India along with all the necessary documents, certificates, undertaking etc., for onwards submission to the competent authority for issue Stage-II approval.

Early action is requested.

Yours faithfully,

Forest Divisional Officer,

Asifabad

Annexure -14  
(Peddapalli)

FORM-I  
(For linear projects)

Government of Telangana  
Office of the District Collector, Peddapalli.

No. F/313/2018

Date: 04.02.2019

TO WHOMSOEVER IT MAY CONCERN

In compliance of the Ministry of Environment and Forests (MOEF) Government of India's letter No. 11/9/98-FC(II) dated 3rd August 2009 wherein the MOEF issued guidelines on submission of evidences for having initiated and completed the process of settlement of rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 (FRA) for short on the forest land proposed to be diverted for non-forest purposes read with MOEF's letter dated 5th February 2013 wherein MOEF issued certain relaxation in respect of linear projects. It is certified that 17,0314 hectares of forest land proposed to be diverted in the favour of Warora Kurnool Transmission Limited for construction of 765 KV DC Warora Warangal Transmission Line from Warora to Warangal via Khammamalli (V) (proposed for diversion of forest land) in Peddapalli district falls within jurisdiction of this land covering outside of village boundary of Daryapur (V) of Mutharam (Mantham) Mandal, Peddapalli district.

It is further certified that:

- (a) The complete process for identification and settlement of rights under the FRA has been carried out for the entire 17,0314 hectares of Forest area proposed for diversion. However, the proposed area of diversion in RF does not fall in the scheduled tribe area and therefore does not attract the provision of RFR Act. A copy of records of consultations and meetings of the Gram Sabha, Sub-Division Level Committee (as annexure).
- (b) The diversion of forest land for facilities managed by the Government as required under section 3 (2) of the FRA have been completed and the Gram Sabhas have given their consent to it.
- (c) The proposal does not involve recognized rights of Primitive Tribal Groups and Pre-Agricultural communities.

Encl: Grama Sabha Resolutions.

*W. K. Srinivas*  
District Collector  
PEDDAPALLI  
Peddapalli

Annexure II

STATEMENT SHOWING CERTIFICATES FROM A TO H

A	A letter from the state Govt. certifying that complete process for identification and settlement of rights under FRA has been carried out for the entire forest area proposed for the diversion with a record of all consultations and meetings held.	The proposed area of diversion in Ippalapalli RF of Peddapalli range does not fall in the scheduled tribe area and therefore does not attract the provision of RoFR act 2006. Consequently, identification and settlement of rights under FRA does not arise.
B	A letter from the state Government certifying that proposals for such diversion (with full details of the Project and its implications in vernacular / Local languages have been placed before each concerned Gram sabha of Forest dwellers who are the Eligible under the FRA.	There is no forest dweller in the proposed diversion area, hence does not arise.
C	A letter from each of the concerned Grama sabhas indicating that all formalities / processes under the FRA have been carried out and that they have given their consent to the proposed diversion and the compensatory and the ameliorative measures if any having understood the purpose and the details of proposed.	The resolution passed in the Gram sabha was obtained from Grama Sabha conducted at Ippalapalli Village, Mutharam (MNT) Mandal, and Peddapalli Dist. duly conducting meeting and required documents / certificates giving their consent to the proposed diversion are submitted. However there are no claims existing in the area proposed for diversion.
D	A letter from the state Government certifying that the diversion of forest land for facilities managed by the Government as required under the section 3 (2) of the FRA have been complied and the Grama sabhas have consented.	The diversion of forest land for facilities managed by the Govt. as required under section 3 (2) of the FRA has been completed and the Grama sabha have been given their consent to it.
E	A letter from the state Government certifying that the discussions and decisions on such proposals had taken place only when there was a quorum of minimum 50% of the members of members of gramu sabaha present.	Issue of proposed diversion of Forest land 17.0314 Ha was discussed in Gram sabha, decision was taken in the quorum of minimum 50% of the members of the concerned gram sabaha.

<p>There are no claims existing in the area proposed for diversion, however written consent has been obtained from the gramasabha of village Ippapalli, Muthuram, grampanchayat, Muthuram (MNT) Mandal, Peddapalli dist.</p>	<p>There are no cases of primitive tribal groups or pre-agricultural communities. Where applicable have been specifically safeguarded as the section of 3(2) of R.O.R. act 2006 in the area of village Ippapalli, Muthuram, grampanchayat, Muthuram (MNT) Mandal, Peddapalli dist. which is proposed for diversion of 17.0314 ha forest land for construction of 17.0314 kV/Dc Warora Warangal Transmission Line from Warora to Warangal via Channampalli (Transmission line).</p>	<p>Any other aspects having bearing on operationalization of the FRA.</p>
<p>There are no other issues connected with FRA.</p>	<p>A letter from the state government certifying that the rights of primitive tribal communities and pre-agricultural communities have been specifically safeguarded as per the section of 3 (1) of the FRA.</p>	<p>II</p>

Vide reference 13<sup>th</sup> cited, the Warora Kurnool Transmission Limited, has informed that they have deposited an amount of Rs.30.0 Lakhs towards wildlife mitigation measures for diversion of 3.1142 ha forest land falling in Tiger Corridor Area of Kawal Tiger Reserve in KB-Asifabad Division vide UTR No.SBINR52021073035234888 in favour of Bio Diversity Conservation Society dated 30<sup>th</sup> July 2021.

Further as per the condition mentioned in the NBWL minutes at Sl.No.B-13, they have been advised to raise the tower height in consultation with the Chief Wildlife Warden. Regarding this, the UA has submitted the following:

1. One tower is in the forest land and other tower is outside forest land. Corridor in between these two tower is designated as Tiger Corridor.
2. Our line is designed with normal height of tower as 67.4 m and minimum clearance between the ground and bottom most conductor under worst condition and considering maximum sag shall be 15.15 m.
3. 8.5 m vertical distance shall be maintained between earth wire and conductor bundles & 15m vertical distance shall be maintained between two conductor bundles.

However, as the committee has recommended for the increased height, they have expressed their willingness to increase the height by 6m i.e. total height of the tower would become 73.4m and after considering the design parameter, the clearance between the ground and the bottom most conductor under worst condition considering maximum Sag would increase by 2m i.e. about 17.15m.

(14) **Mitigation of electrocution risk of birds:** This may be done through line design modification i.e., by allowing sufficient spacing between different conductors and between conductors and grounded wires of hardware. For large perching raptors, distance should be > 1.8 m between perches and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylon, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

(15) **Mitigation of collision risk:** Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wire to birds by thickening, coating and coloring wires and by installation of line marking devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wire by at least 20 cm for a length of at least 10-20 cm, and places at intervals of at least 5-10 m the markers must be in contrast with the background.

- (C) The User agency shall raise the height of the tower in consultation with the Chief Wildlife Warden.
- (D) The animal passage plan shall be submitted by the User Agency shall be implemented in toto.
- (E) Reflectors may be used appropriately to minimize collision risk of birds.
- (F) The Annual compliance certificate on the stipulated conditions should be submitted by project proponent to the State Chief Wildlife Warden.

Further, the User Agency is also requested to intimate the details of payments made and furnish the (8 sets) of compliance report on all the conditions stipulated in the minutes of 59<sup>th</sup> meeting of the Standing Committee of National Board for Wildlife held on 05.10.2020 under the Chairmanship of the Hon'ble Union Minister of Environment, Forest and Climate Change, Government of India along with all the necessary documents, certificates, undertaking etc., for onwards submission to the competent authority for issue Stage-II approval.

Early action is requested.

Yours faithfully,

  
Forest Divisional Officer,  
Asifabad  
22/12/2020

- Copy submitted to the Principal Chief Conservator of Forests (FCA)/ Nodal Officer, O/o the Principal Chief Conservator of Forests, (HoFF) TS, Hyderabad for favour of kind information.
- Copy submitted to the Conservator of Forests, Adilabad Circle, Adilabad for favour of kind information.
- Copy to the District Forest Officer, Kumuram Bheem-Asifabad for kind information.
- Copy to the Forest Range Officer, Asifabad and Rebbena along with reference 12<sup>th</sup> cited its closures for information and compliance.

  
Forest Divisional Officer,  
Asifabad  
22/12/2020

**(A) Conditions imposed by the Chief Wildlife Warden:**

- (1) The User Agency will provide **Rs.30.00 lakhs** for developing natural grass lands/meadows below the power transmission line as under.

Sl No	Name of the work	Amount in Lakhs
1.	<u>Habitat Management.</u> a) Bore well with solar pump sets (2) Nos @ Rs.5.00 lakh per unit	10.00
2	b) Management of Natural Grass Lands by uprooting the obnoxious weeds and showing locally collected grass seeds over 100 ha for three consecutive years at a cost of Rs.10,000/- per ha	10.00
3	<u>Water Management.</u> a) Construction of Mini Percolation tanks 2 Nos. @ 2.0 Lakh / each at the solar bore well site for water storage	4.00
4	<u>Fire Management.</u> Formation of New Fire lines (width 6.00 Mtrs) 26900 Rmt @ 10/- 1 Rmt. Per year	2.69
5	<u>Publicity &amp; Awareness</u> Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the area	3.31
	<b>Total</b>	<b>30.00</b>

The User Agency shall be requested to deposit for **Rs. 30.00 Lakhs** for Wildlife mitigation measures through online mode into the Bio-diversity Conservation Society of Telangana (BIOSOT) Account, the details of which are as under.

Name of the Account	Bio-Diversity Conservation Society of Telangana
Name of the Bank	Andhra Bank
Name of the Branch	Secretariat Branch, Hyderabad
Account Number	110310100030284
IFSC Code	ANDB 0001103

- The user agency shall fell only the barest minimum number of trees while executing the work.
- The works shall be carried out without disturbing or damaging flora, fauna or habitat of the area.
- Work shall be carried out from 6.00 AM to 6.00 PM only.
- The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required, they should be carried to the site during execution of work.
- No labour camp should be established inside the Tiger Reserve during the execution of the work.
- The debris formed due to the execution of the works shall be taken away from the Tiger Reserve on day to day basis.
- The user agency shall construct masonry pillars to demarke the proposed project area at every 25 m interval.
- The user agency should raise the height of the towers in consultation with the Chief Wildlife Warden.
- In addition to the existing forest road, user agency shall avoid creation of additional trails/roads for construction work or use by construction vehicles/machinery.
- To prevent exposure of soil erosion, excavation for laying pylon foundations must be deep and not spread. These must be located as close to the existing road as possible and away from water bodies and steep slopes. The soil at these spots must be stabilized post construction to control erosion and assist in vegetation regrowth.
- Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

**(B) The User Agency shall comply with Conditions imposed by the NTCA.**

- (13) **Mitigation of electrocution risk to tigers and associated species:** A major threat to dispersing tigers and others associated wildlife in corridor areas and forest adjoining human habitations and agriculture fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the standing committee recommended that, the height of towers shall be raised by the user agency in consultation with the Chief Wildlife Warden instead of insulation.

15	Shri Surendra Kumar, CWLW, Kerala	Invitee
16	Shri Alok Kumar, CWLW, Madhya Pradesh	Invitee
17	Shri Subhash Malkhede, APCCF (Wildlife), Karnataka	Invitee
18	Shri Sidhanand Kukrety, APCCF (Wildlife), Telangana	Invitee
19	Shri Arindam Tomar, CWLW, Rajasthan	Invitee
20	Shri Sunil Pandey, CWLW, Uttar Pradesh	Invitee
21	Shri J. S. Suhag, CWLW, Uttarakhand	Invitee
22	Shri Amit Mallick, IGF (WL), MoEF & CC	Invitee
23	Shri Rakesh Kr Jagenia, DIGF(WL, MoEF&CC	Invitee
24	Shri Amit Vashishtha, Scientist D, MoEF&CC	Invitee

- (15) **Mitigation of collision risk:** Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wire, to birds by thickening, coating and colouring wires, and by installation of line marking devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wires by at least 20 cm for a length of at least 10-20 cm, and placed at intervals of at least 5-10 m. the markers must be in contrast with the background.
- (C) The User Agency shall raise the height of the tower in consultation with the Chief Wild Life Warden.
- (D) The animal passage plan submitted by the User Agency shall be implemented in toto.
- (E) Reflectors may be used appropriately to minimize collision risk of birds.
- (F) The annual compliance certificate on the following stipulated conditions should be submitted by the project proponent to the State Chief Wild Life Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

**AGENDA NO.6 (Any other item with the permission of the Chair)**

**59.6.1 Diversion of forest land for Development of 8 lanes (Greenfield Highway) from (Ch. 392.800 Km) Bhenda Hera village to (Ch. 452.425 Km) Moondiya village Section of NH-148 N (Total length 59.625 Km), Under BHARATMALA PARIYOJANA Lot-4/Pkg-4 in the state of Rajasthan.FP/RJ/ROAD/36597/2018**

The Member Secretary stated that the proposal is for diversion of forest land for Development of 8 lanes (Greenfield Highway) from (Ch. 392.800 Km) Bhenda Hera village to (Ch. 452.425 Km) Moondiya village Section of NH-148 N (Total length 59.625 Km), under BHARATMALA PARIYOJANA Lot-4/Pkg-4 in the state of Rajasthan. The State Chief Wild Life Warden has recommended the proposal. The State Board for Wild Life also recommended the proposal through circulation.

**Decision Taken:** After discussion, the Standing Committee decided to recommend the proposal subject to the following conditions:

**(A) Conditions Imposed by the Chief Wild Life Warden**

- (1) 2% of the proportionate project cost of the area falling within the protected area and the ESZ should be deposited in Rajasthan Protected Area Conservation Society by the user agency for management and protection of wildlife in the state as corpus.
- (2) No work shall be done before sunrise and after sunset in the project area.

The above amount shall be deposited by the user agency in the BIOSOT account of Chief Wild Life Warden, Telangana.

- (2) The user agency shall fell only the barest minimum number of trees while executing the work.
- (3) The works shall be carried out without disturbing or damaging Flora, Fauna or habitat of the area.
- (4) Work shall be carried out from 6.00 am to 6.00 pm only.
- (5) The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required they should be carried to the site during execution of work.
- (6) No labour camp should be established inside the Tiger Reserve during the execution of the work.
- (7) The debris formed due to the execution of the works shall be taken away from the tiger reserve on day-to-day basis.
- (8) The user agency shall construct Masonry pillars to demarcate the proposed project area at every 25-meter interval.
- (9) The User Agency should raise the height of the towers in consultation with the Chief Wild Life Warden.
- (10) In addition to the existing forest road, user agency shall avoid creation of additional trails/ roads for construction work or use by construction vehicles/ machinery.
- (11) To prevent exposure of soil to erosion, excavation for laying pylon foundations must be deep, and not spread. These must be located as close to the existing road as possible, and away from water bodies and steep slopes. The soil at these spots must be stabilised post construction to control erosion and assist in vegetation regrowth.
- (12) Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

**(B) Conditions imposed by the NTCA**

- (13) **Mitigation of electrocution risk to tigers and associated species:** A major threat to dispersing tigers and other associated wildlife in corridor areas and forest adjoining human habitations and agricultural fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the Standing Committee recommended that the height of towers shall be raised by the User Agency in consultation with the Chief Wild Life Warden instead of insulation.
- (14) **Mitigation of electrocution risk of birds:** This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded wires of hardware. For large perching raptors, distance should be >1.8 m between perches and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

-1379-

Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

59.5.4 Diversion of 3.1142 ha of forest land in tiger corridor linking Kawal Tiger Reserve in Telangana and Tadoba Tiger Reserve in Maharashtra falling in compt.231 of Manikarh RF in Asifabad forest division in Kumarambheem, Asifabad District of Telangana for the construction of Warora Pool, Warangal (New) 765 KV D/C Transmission line in favour of Warora Kurnool Transmission Limited (WKTL)-[File No. 6-162/2018 WL; Proposal No. FP/TG/TRANS/27465/2017 ]:

The Member Secretary stated that the proposal is for diversion of 3.1142 ha of forest land in tiger corridor linking Kawal Tiger Reserve in Telangana and Tadoba Tiger Reserve in Maharashtra falling in compt.231 of Manikarh RF in Asifabad forest division in Kumarambheem, Asifabad District of Telangana for the construction of Warora Pool, Warangal (New) 765 KV D/C Transmission line in favour of Warora Kurnool Transmission Limited (WKTL). The State Chief Wild Life Warden has recommended the proposal and the State Board for Wild Life has also recommended the proposal on 01.02.2020.

Decision Taken: After discussion, the Standing Committee decided to recommend the proposal subject to the following conditions:

(A) Conditions imposed by the Chief Wild Life Warden

- (1) That the user agency will provide Rs.30.00 lakhs for developing natural grass lands/meadows below the power transmission lines as under:

(Rs.in lakh)

Sl.No	Component	Financial target
1.	Habitat Management a) Bore well with solar pump sets (2) units @ Rs.5.00 lakh per unit	10.00
2	b) Management of natural grass lands by uprooting the obnoxious weeds and sowing locally collected grass seeds over 100 ha for three consecutive years at a cost of Rs.10,000/-per ha	10.00
3	Water Management a) Construction of mini percolation tanks 2 Nos.@ 2.0 lakh/each at the solar bore well site for water storage	4.00
4	Fire Management; Formation of new fire lines (width 6.00 Mtrs) 26900 Rmt @ Rs.10/-1 Rmt.Per Year	2.69
5	Publicity & Awareness Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the areas	3.31
	Total	30.00

## Annexure- XIV B

Proposal No. FP/TG/TRANS/27465/2017

**Full title of the Project:** Diversion of 45.1009 ha of forest land in Asifabad (14.29 ha), Bellampally (13.78ha) and Peddapally Division (17.03 ha) for the construction of Warora Pool- Warangal(new) 765 kV D/C Transmission line in favour of Warora Kurnool Transmission line (WKTL)- in the State of Telangana

### UNDERTAKING for (Condition no. (14) of Stage-1 approval dated 13.12.2018)

M/s Warora Kurnool Transmission Limited undertake that **Mitigation of electrocution risk of birds:** This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded wires of hardware. For large perching raptors, distance should be >1.8 m between perches and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

## Annexure- XIV A

Proposal No. FP/TG/TRANS/27465/2017

Full title of the Project: Diversion of 45.1009 ha of forest land in Asifabad (14.29 ha), Bellampally (13.78ha) and Peddapally Division (17.03 ha) for the construction of Warora Pool- Warangal(new) 765 kV D/C Transmission line in favour of Warora Kurnool Transmission line (WKTL)- in the State of Telangana

### UNDERTAKING for (Condition no. (13) of Stage-1 approval dated 13.12.2018)

M/s Warora Kurnool Transmission Limited undertake that *Mitigation of electrocution risk to tigers and associated species*: A major threat to dispersing tigers and other associated wildlife in corridor areas and forest adjoining human habitations and agricultural fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the Standing Committee recommended that the height of towers shall be raised by the User Agency in consultation with the Chief Wildlife Warden instead of insulation.

363-  
Further, the UA has informed that the

- a. Towers will be provided with anti-climbing device to prevent theft of towers accessories and human interference.
- b. Bird guard will be installed at appropriate locations on cross arm of towers (as per IS 5613).
- c. Bird diverters will be installed at appropriate locations of transmission line falling in the diverted 3.1142 ha of tiger corridor area as per the specification/suggestions by CEA/MoEF & CC in respect of bird diverters.

In view of the above, the Concurrence given by the M/s.WKTL is accepted for increase of the tower height to 73.4 meters and also requested to comply with the other conditions of SC of NBWL and NTCA. Further, it is requested to submit the compliance on Stage-I approval for according necessary Stage-II approval.

  13. Warora Kurnool Transmission Limited, Brindavan Gardens, Kishanguda  
Ref: WKTL/Hyd/2021/137 dt: 29.10.2021.

Vide reference 13<sup>th</sup> cited, the Warora Kurnool Transmission Limited, has informed that they have deposited an amount of Rs.30.0 Lakhs towards wildlife mitigation measures for diversion of 3.1142 ha forest land falling in Tiger Corridor Area of Kawal Tiger Reserve in KB-Asifabad Division vide UTR No. SBINR52021073035234888 in favour of Bio Diversity Conservation Society dated 30<sup>th</sup> July 2021.

Further as per the condition mentioned in the NBWL minutes at Sl.No.8-13, they have been advised to raise the tower height in consultation with the Chief Wildlife Warden. Regarding this, the UA has submitted the following:

1. One tower is in the forest land and other tower is outside forest land. Corridor in between these two tower is designated as Tiger Corridor.
2. Our line is designed with normal height of tower as 67.4 m and minimum clearance between the ground and bottom most conductor under worst condition and considering maximum sag shall be 15.15 m.
3. 8.5 m vertical distance shall be maintained between earth wire and conductor bundles & 15m vertical distance shall be maintained between two conductor bundles.

However, as the committee has recommended for the increased height, they have expressed their willingness to increase the height by 6m i.e. total height of the tower would become 73.4m and after considering the design parameter, the clearance between the ground and the bottom most conductor under worst condition considering maximum Sag would increase by 2m i.e. about 17.15 m.

4	Fire Management; Formation of new fire lines (width 6.00 Mtrs) 26900 Rmt @ Rs.10/-1 Rmt.Per Year	2.69
5	Publicity & Awareness Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the areas	3.31
	<b>Total</b>	<b>30.00</b>

The above amount shall be deposited by the user agency in the BIOSOT account of Chief Wild Life Warden, Telangana.

- (2) The user agency shall fell only the barest minimum number of trees while executing the work.
- (3) The works shall be carried out without disturbing or damaging Flora, Fauna or habitat of the area.
- (4) Work shall be carried out from 6.00 am to 6.00 pm only.
- (5) The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required they should be carried to the site during execution of work.
- (6) No labour camp should be established inside the Tiger Reserve during the execution of the work.
- (7) The debris formed due to the execution of the works shall be taken away from the tiger reserve on day-to-day basis.
- (8) The user agency shall construct Masonry pillars to demarcate the proposed project area at every 25-meter interval.
- (9) The User Agency should raise the height of the towers in consultation with the Chief Wild Life Warden.
- (10) In addition to the existing forest road, user agency shall avoid creation of additional trails/ roads for construction work or use by construction vehicles/ machinery.
- (11) To prevent exposure of soil to erosion, excavation for laying pylon foundations must be deep, and not spread. These must be located as close to the existing road as possible, and away from water bodies and steep slopes. The soil at these spots must be stabilised post construction to control erosion and assist in vegetation regrowth.
- (12) Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

**(B) Conditions imposed by the NTCA**

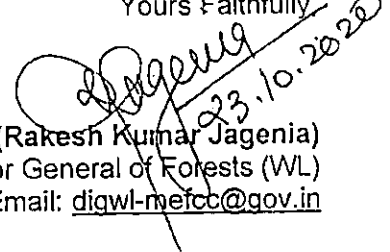

- (13) **Mitigation of electrocution risk to tigers and associated species:** A major threat to dispersing tigers and other associated wildlife in corridor areas and forest adjoining human habitations and agricultural fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the Standing Committee recommended that the height of towers shall be raised by the User Agency in consultation with the Chief Wild Life Warden instead of insulation.
- (14) **Mitigation of electrocution risk of birds:** This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded wires of hardware. For large perching raptors, distance should be >1.8 m between perches and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

-1225-

- (15) **Mitigation of collision risk:** Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wire, to birds by thickening, coating and colouring wires, and by installation of line marking devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wires by at least 20 cm for a length of at least 10-20 cm, and placed at intervals of at least 5-10 m. the markers must be in contrast with the background.
- (C) The User Agency shall raise the height of the tower in consultation with the Chief Wild Life Warden.
- (D) The animal passage plan submitted by the User Agency shall be implemented in toto.
- (E) Reflectors may be used appropriately to minimize collision risk of birds.
- (F) The annual compliance certificate on the following stipulated conditions should be submitted by the project proponent to the State Chief Wild Life Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

Encl: As above

Yours Faithfully

Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

- 59.5.4 Diversion of 3.1142 ha of forest land in tiger corridor linking Kawal Tiger Reserve in Telangana and Tadoba Tiger Reserve in Maharashtra falling in compt.231 of Manikarh RF in Asifabad forest division in Kumarambheem, Asifabad District of Telangana for the construction of Warora Pool, Warangal (New) 765 KV D/C Transmission line in favour of Warora Kurnool Transmission Limited (WKTL)-[File No. 6-162/2018 WL; Proposal No. FP/TG/TRANS/27465/2017 ].

The Member Secretary stated that the proposal is for diversion of 3.1142 ha of forest land in tiger corridor linking Kawal Tiger Reserve in Telangana and Tadoba Tiger Reserve in Maharashtra falling in compt.231 of Manikarh RF in Asifabad forest division in Kumarambheem, Asifabad District of Telangana for the construction of Warora Pool, Warangal (New) 765 KV D/C Transmission line in favour of Warora Kurnool Transmission Limited (WKTL). The State Chief Wild Life Warden has recommended the proposal and the State Board for Wild Life has also recommended the proposal on 01.02.2020.

**Decision Taken:** After discussion, the Standing Committee decided to recommend the proposal subject to the following conditions:

**(A) Conditions imposed by the Chief Wild Life Warden**

- (1) That the user agency will provide Rs.30.00 lakhs for developing natural grass lands/meadows below the power transmission lines as under:

(Rs.in lakh)

Sl.No	Component	Financial target
1.	Habitat Management a) Bore well with solar pump sets (2) units @ Rs.5.00 lakh per unit	10.00
2	b) Management of natural grass lands by uprooting the obnoxious weeds and sowing locally collected grass seeds over 100 ha for three consecutive years at a cost of Rs.10,000/-per ha	10.00
3	Water Management a) Construction of mini percolation tanks 2 Nos.@ 2.0 lakh/each at the solar bore well site for water storage	4.00
4	Fire Management; Formation of new fire lines (width 6.00 Mtrs) 26900 Rmt @ Rs.10/-1 Rmt.Per Year	2.69
5	Publicity & Awareness Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the areas	3.31
	<b>Total</b>	<b>30.00</b>

The above amount shall be deposited by the user agency in the BIOSOT account of Chief Wild Life Warden, Telangana.

- (2) The user agency shall fell only the barest minimum number of trees while executing the work.
- (3) The works shall be carried out without disturbing or damaging Flora, Fauna or habitat of the area.
- (4) Work shall be carried out from 6.00 am to 6.00 pm only.
- (5) The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required they should be carried to the site during execution of work.
- (6) No labour camp should be established inside the Tiger Reserve during the execution of the work.
- (7) The debris formed due to the execution of the works shall be taken away from the tiger reserve on day-to-day basis.
- (8) The user agency shall construct Masonry pillars to demarcate the proposed project area at every 25-meter interval.
- (9) The User Agency should raise the height of the towers in consultation with the Chief Wild Life Warden.
- (10) In addition to the existing forest road, user agency shall avoid creation of additional trails/ roads for construction work or use by construction vehicles/ machinery.
- (11) To prevent exposure of soil to erosion, excavation for laying pylon foundations must be deep, and not spread. These must be located as close to the existing road as possible, and away from water bodies and steep slopes. The soil at these spots must be stabilised post construction to control erosion and assist in vegetation regrowth.
- (12) Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

**(B) Conditions imposed by the NTCA**

- (13) **Mitigation of electrocution risk to tigers and associated species:** A major threat to dispersing tigers and other associated wildlife in corridor areas and forest adjoining human habitations and agricultural fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the Standing Committee recommended that the height of towers shall be raised by the User Agency in consultation with the Chief Wild Life Warden instead of insulation.
- (14) **Mitigation of electrocution risk of birds:** This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded wires of hardware. For large perching raptors, distance should be >1.8 m between perches and energized parts. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

- (15) **Mitigation of collision risk:** Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wire, to birds by thickening, coating and colouring wires, and by installation of line marking devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wires by at least 20 cm for a length of at least 10-20 cm, and placed at intervals of at least 5-10 m. the markers must be in contrast with the background.
- (C) The User Agency shall raise the height of the tower in consultation with the Chief Wild Life Warden.
- (D) The animal passage plan submitted by the User Agency shall be implemented in toto.
- (E) Reflectors may be used appropriately to minimize collision risk of birds.
- (F) The annual compliance certificate on the following stipulated conditions should be submitted by the project proponent to the State Chief Wild Life Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Govt. of India.

**AGENDA NO.6** (Any other item with the permission of the Chair)

**59.6.1 Diversion of forest land for Development of 8 lanes (Greenfield Highway) from (Ch. 392.800 Km) Bhenda Hera village to (Ch. 452.425 Km) Moondiya village Section of NH-148 N (Total length 59.625 Km), Under BHARATMALA PARIYOJANA Lot-4/Pkg-4 in the state of Rajasthan.FP/RJ/ROAD/36597/2018**

The Member Secretary stated that the proposal is for diversion of forest land for Development of 8 lanes (Greenfield Highway) from (Ch. 392.800 Km) Bhenda Hera village to (Ch. 452.425 Km) Moondiya village Section of NH-148 N (Total length 59.625 Km), under BHARATMALA PARIYOJANA Lot-4/Pkg-4 in the state of Rajasthan. The State Chief Wild Life Warden has recommended the proposal. The State Board for Wild Life also recommended the proposal through circulation.

**Decision Taken:** After discussion, the Standing Committee decided to **recommend** the proposal subject to the following conditions:

**(A) Conditions Imposed by the Chief Wild Life Warden**

- (1) 2% of the proportionate project cost of the area falling within the protected area and the ESZ should be deposited in Rajasthan Protected Area Conservation Society by the user agency for management and protection of wildlife in the state as corpus.
- (2) No work shall be done before sunrise and after sunset in the project area.

-1235-

\*\*\*

It is to inform that, the Principal Chief Conservator of Forests (HoFF) & Chief Wildlife Warden, (FAC), Telangana Hyderabad vide reference 12<sup>th</sup> cited has communicated the Minutes of 59<sup>th</sup> Meeting of the Standing Committee of National Board for Wildlife held on 05-10-2020 in which the proposals for Diversion of 3.1142 ha forest land falling in Tiger Corridor Area of Kawal Tiger Reserve in KB-Asifabad Division for construction of Warora Pool-Waranga (New) 765 KV D.C transmission line in favour of Warora Kurnool Transmission Line (WKLT) recommended the proposal subject to complying the conditions by the User Agency and requested to raise the demand notice to the User Agency for complying the conditions imposed and for depositing Wildlife mitigation money into BIOSOT account and report compliance.

In view of the above, the Demand notice for Wildlife mitigation measures for Diversion of 3.1142 ha forest land falling in Tiger Corridor Area of Kawal Tiger Reserve in KB-Asifabad Division for construction of Warora Pool-Waranga (New) 765 KV D.C transmission line in favour of Warora Kurnool Transmission Line (WKLT) is as follows.

(7810)

-1239-  
(A) Conditions imposed by the Chief Wildlife Warden:

(1) The User Agency will provide Rs.30.00 lakhs for developing natural grass land/undergrowth below the power transmission line as under:

Sl No	Name of the work	Amount in Lakhs
1	<u>Habitat Management</u> a) Bore well with solar pump sets (2) Nos @ Rs.5.00 lakh per unit	10.00
2	b) Management of Natural Grass Lands by uprooting the obnoxious weeds and sowing locally collected grass seeds over 100 ha for three consecutive years at a cost of Rs.10,000/- per ha	10.00
3	<u>Water Management</u> a) Construction of Mini-Perculation tanks 2 Nos. @ 2.0 Lakh / each at the solar bore well site for water storage	4.00
4	<u>Fire Management</u> Formation of New Fire lines (width 6.00 Mtrs) 26900 Rmt @ 10/- 1 Rmt. Per year	2.69
5	<u>Publicity &amp; Awareness</u> Hoardings & publicity to propagate the need for conservation of Flora and Fauna of the area	3.31
Total		30.00

The User Agency shall be requested to deposit for Rs. 30.00 Lakhs for Wildlife mitigation measures through online mode into the Bio-diversity Conservation Society of Telangana (BROSOT) Account; the details of which are as under.

Name of the Account	Bio-Diversity Conservation Society of Telangana
Name of the Bank	Andhra Bank
Name of the Branch	Secretariat Branch, Hyderabad
Account Number	110310100030284
IFSC Code	ANDB 0001103

- The user agency shall fell only the barest minimum number of trees while executing the work.
- The works shall be carried out without disturbing or damaging flora, fauna or habitat of the area.
- Work shall be carried out from 6.00 AM to 6.00 PM only.
- The material for carrying out the proposed works shall be kept outside the sanctuary area. As and when required, they should be carried to the site during execution of work.
- No labour camp should be established inside the Tiger Reserve during the execution of the work.
- The debris formed due to the execution of the works shall be taken away from the Tiger Reserve on day to day basis.
- The user agency shall construct masonry pillars to demarcate the proposed project area at every 25 m interval.
- The user agency should raise the height of the towers in consultation with the Chief Wildlife Warden.
- In addition to the existing forest road, user agency shall avoid creation of additional trails/roads for construction work or use by construction vehicles/machinery.
- To prevent exposure of soil erosion, excavation for laying pylon foundations must be deep and not spread. These must be located as close to the existing road as possible and away from water bodies and steep slopes. The soil at these spots must be stabilized post construction to control erosion and assist in vegetation regrowth.
- Vegetation cleared before and during construction work must be properly disposed of to avoid spread of invasive species.

## (B) The User Agency shall comply with Conditions imposed by the NTCA.

- (13) Mitigation of electrocution risk to tigers and associated species: A major threat to dispersing tigers and others associated wildlife in corridor areas and forest adjoining human habitations and agriculture fields is electrocution by live wires. Making the transmission lines theft proof by insulating power line components needs to be carried out. However, the standing committee recommended that, the height of towers shall be raised by the user agency in consultation with the Chief Wildlife Warden instead of insulation.

(14) Mitigation of electrocution risk of birds: This may be done through line design modification i.e. by allowing sufficient spacing between different conductors and between conductors and grounded wires of bird cage. For large perching raptors, distance should be 1.8 m between perches and cross-arms. If spacing between parts is not possible, insulating components that pose a risk of electrocution (poles, pylons, wires) may be done. Perch management techniques may be used to deter birds from perching on components where the risk of electrocution is high such as bird spikes, artificial perches placed at a safe distance from the energized parts.

(15) Mitigation of collision risk: Less vertical separation of cables poses less of an obstacle for birds. Increasing the visibility of wires, particularly the earth wire, by birds by thickening, coating and colouring wires and by installation of line marking devices may help reduce collision by upto 50-80%. Markers should increase the visibility of wire by at least 20 cm for a length of at least 10-20 cm, and placed at intervals of at least 5-10 m the markers must be in contrast with the background.

- (C) The User agency shall raise the height of the tower in consultation with the Chief Wildlife Warden.
- (D) The animal passage plan shall be submitted by the User Agency shall be implemented in tota.
- (E) Reflectors may be used appropriately to minimize collision risk of birds.
- (F) The Annual compliance certificate on the stipulated conditions should be submitted by project proponent to the State Chief Wildlife Warden.

Further, the User Agency is also requested to intimate the details of payments made and furnish the (8 sets) of compliance report on all the conditions stipulated in the minutes of 59<sup>th</sup> meeting of the Standing Committee of National Board for Wildlife held on 05.10.2020 under the Chairmanship of the Hon'ble Union Minister of Environment, Forest and Climate Change, Government of India along with all the necessary documents, certificates, undertaking etc., for onwards submission to the competent authority for issue Stage-II approval.

Early action is requested.

Yours faithfully,

Forest Divisional Officer.

FORM-I  
(For linear projects)

Government of Telangana  
Office of the District Collector, Peddapalli

No. F/313/2018

Date:04.02.2019

**To WHOMSOEVER IT MAY CONCERN**

In compliance of the Ministry of Environment and Forests (MOEF) Government of India's letter No. 11-9/98-FC(pt.) dated 3rd August 2009 wherein the MOEF Issued guidelines on submission of evidences for having initiated and completed the process of settlement of rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 ('FRA' for short) on the forest land proposed to be diverted for non-forest purposes read with MOEF's letter dated 5th February 2013 wherein MOEF issued certain relaxation in respect of linear projects. It is certified that 17.0314 hectares of forest land proposed to be diverted in the favour of Warora Kurnool Transmission Limited for construction of 765 KV/DC warora Warangal Transmission Line from Warora to Warangal via Khammampalli (V) (propose for diversion of forest land) in Peddapalli district falls within jurisdiction of This land covering outside of village boundary of Daryapur (V) of Mutharam (Manthani) Mandal, Peddapalli district.

It is further certified that:

- (a) The complete process for Identification and settlement of rights under the FRA has been carried out for the entire 17.0314 hectares of Forest area proposed for diversion. However, the proposed area of diversion in RF does not fall in the scheduled tribe area and therefore does not attract the provision of RoFR Act. A copy of records of consultations and meetings of the Gram Sabha, Sub-Division Level Committee [as annexure].
- (b) The diversion of forest land for facilities managed by the Government as required under section 3 (2) of the FRA have been completed and the Gram Sabhas have given their consent to it;
- (c) The proposal does not involve recognized rights of Primitive Tribal Groups and Pre-Agricultural communities.

Encl: Grama Sabha Resolutions.

*W. B. Suresh*  
District Collector  
PEDDAPALLI  
Peddapalli

STATEMENT SHOWING CERTIFICATES FROM A TO H

A	A letter from the state Govt. certifying that complete process for identification and settlement of rights under FRA has been carried out for the entire forest area proposed for the diversion with a record of all consultations and meetings held.	The proposed area of diversion in Ippalapalli RF of Peddapalli range does not fall in the scheduled tribe area and therefore does not attract the provision of RoFR act 2006. Consequent on which identification and settlement of rights under FRA does not arise.
B	A letter from the state Government certifying that proposals for such diversion (with full details of the Project and its implications in vernacular / Local languages have been placed before each concerned Gram sabha of Forest dwellers who are the Eligible under the FRA.	There is no forest dweller in the proposed diversion area, hence does not arise.
C	A letter from each of the concerned Grama sabhas indicating that all formalities / processes under the FRA have been carried out and that they have given their consent to the proposed diversion and the compensatory and the ameliorative measures if any having understood the purpose and the details of proposed	The resolution passed in the Gram sabha was obtained from Grama Sabha conducted at Ippalapalli Village, Mutharam (MNT) Mandal, and Peddapalli Dist. Duly conducting meeting and required documents/ certificates giving their consent to the proposed diversion are submitted. However there are no claims existing in the area proposed for diversion.
D	A letter from the state Government certifying that the diversion of forest land for facilities managed by the Government as required under the section 3 (2) of the FRA have been complied and the Grama sabhas have consented.	The diversion of forest land for facilities managed by the Govt. as required under section 3 (2) of the FRA has been completed and the Grama sabha have been given their consent to it.
E	A letter from the state Government certifying that the discussions and decisionson such proposals had taken place only when there was a quorum of minimum 50% of the members of members of grama sabaha present.	Issue of proposed diversion of Forest land 17.0314 Ha was discussed in Gram sabha. decision was taken in the quorum of minimum 50% of the members of the concerned gram sabaha.

F	Obtaining the written consent or rejection of the Grama sabha to the proposal.	There are no claims existing in the area proposed for diversion. However consent from the Gramasabha of village Ippalapalli Grampanchayat, Mudharani (MNT) Mandal, Peddapalli dist.
G	A letter from the state Government certifying that the rights of primitive tribal groups and pre-agricultural communities have been where applicable have been specifically safeguarded as per the section of 3 (1) of the F.R.A. RESOLUTION OF THE DIVISIONAL LEVEL COMMITTEE OF PoFR ACT 2006 UNDER CHAIRMANSHIP OF DISTRICT COLLECTOR KUMARAM BHEEM ASIFABAD DISTRICT

Dated: /06/2018

Chairman Sri Prashant J Patil  
District Collector Kumaram Bheem Asifabad.

The Following members are present

Sl.No	Members	Signature
1	District Forest Officer, Kumaram Bheem Asifabad	
2	Project Officer, ITDA, Utnoor	
3	-----/ RDO, Asifabad	

M/s Warora Kurnool Transmission Limited (WKTL) has requested the District Collector, Kumarambheem Asifabad to issue certificate in the prescribed format (Form I) for the linear project as per MoEF's Letter No. 11-9/98 FC (pt) dated 05-07-2013 in respect of proposal submitted for the diversion of total extent of 14.1866 Hectare of forest land in Asifabad and Rebenna Range in Asifabad Division of Kumarambheem Asifabad district for the construction of 765kV D/C Warora Pool – Warangal (New) Transmission Line.

Sl.No	Division	Range	Reserve Block	Compartment	Area in Ha
1	Asifabad	Asifabad	Manikgarh RF	231	3.142
2	Asifabad	Rebenna	Nanba RF	336	4.3403
3	Asifabad	Rebenna	Rebenna RF	336	6.6972

Accordingly, the Gram Panchayat has conducted the meeting in the presence of the chairman of Sarpanch, along with the members of the Gram Panchayat. The meeting was also conducted and the proposal for the diversion of forest land for the construction of proposed 765kV D/C Warora Pool – Warangal (New) Transmission Line was discussed. The meeting was held on 06/06/2018 at the Gram Panchayat office, Warora.

100

To  
The District Collector,  
Kumuram Bheem Asifabad.

Sir,

Sub: - **ROFR Certificate** for diversion of 14.1866 Ha of Forest land in Asifabad Forest Division for construction of Warora Pool - Warangal (New) 765 KV D/C transmissions Line Contracted By Warora Kurnool Transmission limited- Report called for - Submitted-Reg.

- Ref: - 1. Lr.No.WKTL/WW/2018/55, Date 16.03.2018 of Warora-Kurnool Transmission Limited  
2. Representation forwarded by District Collector, Kumuram Bheem Asifabad filed by Warora Kurnool Transmission Limited, Date: 16.03.2018 Received on: 22.03.2018  
3. This office Lr.No.EI38/2018, Date: 02.04.2018  
4. Tahsildar, Rebbena Lr.No.B/83/2018, Date: 25.04.2018  
5. Tahsildar, Wankidi Lr.No.B/100/2018, Date: 12.04.2018

I invite kind attention to the reference cited and submit that the M/s Warora Kurnool Transmission Limited, has submitted representation before the District Collector, Kumuram Bheem Asifabad and requested to issue of ROFR Certificate for diversion of 14.1866 Ha of Forest land in Asifabad Forest Division for constructions of Warora Pool - Warangal (New) 765kv D/C transmission line.

Accordingly vide reference 3<sup>rd</sup> cited the Tahsildar, Rebbena has submitted enquiry report that the Warora Kurnool Transmission limited is transforming 765 KV D/C power transmission line from Warora to Warangal via Rajaram and Rollpahad villages of Rebbena Mandal reserved forest compartment No.336,338/1 to an area 6.7322, 4.340 Hct and it is also reported that there are no ROFR Pattas were issued under Forest Act and also the Grama Shaba passed resolution for no objection for transmitting of 765 K.V.D/C Transmission line from warora to Warangal via Rajaram & Rallapahad villages of Rebbena Mandal.

Further vide reference 4<sup>th</sup> cited the Tahsildar, wankidi also reported that the Warora Kurnool Transmission limited is transforming 765 KV D/C power transmission line from Warora to Warangal via Sawathi village of Wankidi Mandal through reserved forest compartment No.231 and Sy.NO.19 (PP) to an extent of 3.1142 Hec equal to 7.69 acres/cents situated at Sawathi village of Wankidi Mandal. It is also reported that no ROFR Pattas were issued in the area under Forest Act as and Non-Tribals are cultivating the Forest lands. The Grama Shaba has also passed resolution for no objection for transmitting 765 K.V.D/C Transmission line from sawathi village of Wankidi Mandal through Compartment No.231 & through Sy.No.19PP situated at Sawathi village of Wankidi Mandal.

Therefore I am submitting herewith the copies of Grama Shaba Resolutions of above Thakkalapalli G.P of Rebbena Mandal & Sawathi G.P of Wankidi Mandal for favour of kind perusal and further necessary action

Yours faithfully

Sd/-

Revenue Divisional officer  
Asifabad.

Deputy Tahsildar (LR)

RESOLUTION OF THE SUB DIVISIONAL LEVEL COMMITTEE OF RoFR ACT 2006 UNDER CHAIRMANSHIP  
OF REVENUE DIVISION OFFICER ASIFABAD OF KUMARAM BHEEM ASIFABAD DISTRICT

Dated: 19 /06/2018  
Revenue Divisional Office, Asifabad

The Following members are present

Sl.No	Members	Signature
1	Revenue Divisional Officer, Asifabad	
2	Forest Range Officer, Asifabad	
3	Forest Range Officer, Rebenna	
4	Assistant Tribal Development Officer	

M/s Warora Kurnool Transmission Limited (WKTL) has requested the District Collector, Kumarambheem Asifabad to issue certificate in the prescribed format (Form I) for the linear project as per MoEF's Letter No. 11-9/98 FC (pt) dated 05-07-2013 in respect of proposal submitted for the diversion of total extent of 14.1866 Hectare of forest land in Asifabad and Rebenna Range in Asifabad Division of Kumarambheem Asifabad district for the construction of 765kV D/C Warora Pool – Warangal (New) Transmission Line.

Sl.No	Division	Range	Reserve Block	Compartment	Area in Ha
1	Asifabad	Asifabad	Manikgarh RF	231	3 1142
2	Asifabad	Rebenna	Nambal RF	336	4.3403
3	Asifabad	Rebenna	Rechani RF	338/1	6 7322

Accordingly, the Gram Panchayat has conveyed the meeting of Grama Sabha under the chairmanship of Sarpanch, along with Secretary and unanimously passed resolution stating that there is no objection for diversion of proposed forest land as there is no encroachment by the tribal people in the proposed forest land to be diverted and further resolved that there are no pending RoFR claims to be settled under the Forest Right Act.

Basing on the resolution passed by the Gram Panchayats in Gram sabha, the members of Sub Divisional level committee, Asifabad have no objection regarding the diversion of forest land measuring an extent 14.1866 hectare of forest land lying in Asifabad and Rebenna range of Asifabad forest division, Kumarambheem Asifabad District for construction of 765kV D/C Warora Pool – Warangal (New) Transmission Line and subsequently issue of certificate in Form I

  
Chairman, Sub Divisional Committee &  
Revenue Divisional Officer, Asifabad

Warora Kurnool Transmission Limited

Warora Kurnool Transmission Limited

Registered Office: C-105, Anand Niketan, New Delhi -110 021

**FORM-I**  
(For linear projects)

Government of Telangana  
Office of the District Collector, Peddapalli

No. F/313/2018

Date: 04.02.2019

**To WHOMSOEVER IT MAY CONCERN**

In compliance of the Ministry of Environment and Forests (MOEF) Government of India's letter No. 11-9/98-FC(pt.) dated 3rd August 2009 wherein the MOEF Issued guidelines on submission of evidences for having initiated and completed the process of settlement of rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 ('FRA' for short) on the forest land proposed to be diverted for non-forest purposes read with MOEF's letter dated 5th February 2013 wherein MOEF issued certain relaxation in respect of linear projects. It is certified that 17.0314 hectares of forest land proposed to be diverted in the favour of Warora Kurnool Transmission Limited for construction of 765 KV/DC Warora Warangal Transmission Line from Warora to Warangal via Khammampalli (V) (proposed for diversion of forest land) in Peddapalli district falls within jurisdiction of This land covering outside of village boundary of Daryapur (V) of Mutharam (Manthani) Mandal, Peddapalli district.

It is further certified that:

- (a) The complete process for Identification and settlement of rights under the FRA has been carried out for the entire 17.0314 hectares of Forest area proposed for diversion. However, the proposed area of diversion in RF does not fall in the scheduled tribe area and therefore does not attract the provision of RoFR Act. A copy of records of consultations and meetings of the Gram Sabha, Sub-Division Level Committee [as annexure].
- (b) The diversion of forest land for facilities managed by the Government as required under section 3 (2) of the FRA have been completed and the Gram Sabhas have given their consent to it;
- (c) The proposal does not involve recognized rights of Primitive Tribal Groups and Pre-Agricultural communities.

Encl: Grama Sabha Resolutions.
