

13. ✓ Specific recommendations of the DCF for acceptance or otherwise of the proposal with reasons.

: Construction of BG Railway line from Bairabi – Sairang is essential for the economic upliftment of the remote state of Mizoram. As transportation cost by road is very high and frequently disturbed by landslide during rainy season, it is highly appreciable to construct Railway line as it will save a lot of transportation cost and time. The proposed alignment is also found to be the most suitable route from environmental and ecological point of view. Hence, the proposal is recommended for acceptance for the development and prosperity of the State.
