

## INSPECTION NOTE

The area was visited on 9.11.12 which is located inside Aizawl to Silchar Roadside Reserve as well as Tlawng Riverine Reserved duly notified by the Govt. The topography is such that soil erosion may not be a problem since the vegetation consists of Bamboos and other grasses which are fast growing. The proposed lines do not form any wildlife reserve, archeological/heritage site and barest minimum area is proposed for the project which is found unavoidable. As such the proposal is recommended for approval.
