

## Inspection Note

Site of Chakla coal Project consting of Forest & Non forest land was inspected by me on 02.08.2013 with Conservator of Forests territorial Circle, Medininagar and Present Divisional Forest Officer Latehar Forest Division Mamta Priyadarshi.

Coal bearing area is undulating hilly with forest of varrying density of Sal, Asan, kend, Salai , Khair, karam etc. in this area. Lower portion of this area have lesser forest density cover.

The area is not nay part of National Park, Wildlife Sanctuary, Bio Sphere reserve, Tiger reserve or elephant Corridor etc. On enquiry from Local Forest Guard & local people. I was informed that Rabbit, Hyena, Barking deer, Wild bore, Pangolin, Porcupine, Fruit bats and all three species of cheel etc are found in this forest area. Conservator of Forest, Territorial Circle, Medininagar have suggested that wild life Conservation plan can be prepared for their Conservation of wild animals.

Regional Chief Conservator of Forests,  
Palamau, Daltonganj.
