

PART-III

(To be filled by the concerned Conservator of Forests)

- 14. Whether site, where the forest land involved is located has been inspected by concerned Conservator of Forests (Yes/No). If yes, the date of inspection & observations made in form of inspection note to be enclosed.

The Conservator of Forests concerned has inspected the site on 29.10.2012 accompanied by the A.C.F (NC), Pu Labiakchama and Forester, Pu Vanlalpeka. The site is a contiguous sheet of rock of about 3 Km length sloping south wards. The degree of slope is about 35° - 40°. The distance of applied quarry from Mauchar Village is about 3 Km. It is east bank of Motoi River. (Inspection Report enclosed at Annexure VI.)

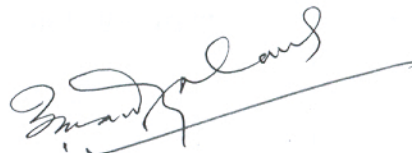

- 15. Whether the concerned Conservator of Forests agree with the information given in Part-B and the recommendations of Deputy Conservator of Forests.

Agreed.

- 16. Specific recommendation of concerned Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.

Rock is secondary rock and plenty. Proposed site is suitable. While extracting the rock, the NEEPCO must maintain uniform extraction from above surface to avoid likelihood of occurrence of landslide disturbing the whole structure.
