Pradesh has informed that the non-forest land earlier identified for CA against the instant project has been used for the Compensatory Afforestation in case of other projects.

Keeping this in view the State/User agency is required to provide suitable non-forest land for Compensatory Afforestation as stipulated in the Stage-I approval.

- b. The suitable non-forest land so identified for CA is also required to be notified as RF/PF as per conditions stipulated in the Stage-I approval.

Further, Regional Office, Raipur was also requested to carry out site inspection of the area vide Ministry's letter dated 31.01.2024.

- viii. The Committee further noted that State Government vide their letter no. F 5-45/2006/10-2 dated 22.07.2024 submitted their reply as sought vide Ministry's letter dated 16.01.2024.

- ix. The Committee observed that KML file of CA area has been examined on the DSS and following was seen:

- a. As per the Recorded Forest Area (RF/PF) boundary available on DSS, the proposed CA site is located over non-forest land.
- b. The software calculated area of proposed CA is found to be 34 ha.
- c. As per the DSS analysis, the proposed CA is having the canopy density of MDF, OF and Non-forest (land without tree cover) as per the ISFR 2021.

Observation based on high resolution Google Earth images:

S.No.	CA Name	Observations
1	Patch-1	Un-metalled road in the southern part of the proposed CA and reclaimed area is visible.

- x. The Committee was informed that Sub-office, Raipur vide their letter No. FC-Misc/17/2024/IROCH/RPR/15 dated 18.04.2024 uploaded Site Inspection Report on Ministry's web portal in response to Ministry's letter dated 31.01.2024 and Sub-office, Raipur has recommended the following:

- a) Delay: The PP has completed mining in the proposed mining area. It had received Stage-I approval in 2006, but has not complied with the conditions till date.
- b) CA: The CA land has been stipulated as 70.00 ha degraded land, which were inspected by this office. Only 32 ha area was found suitable for plantation. Now, the User Agency has agreed to

provide NFL from its plantation area in tenancy land. So far it has not identified the land. There is a huge time gap between initial violation and implementation of the CA scheme, which has inflicted huge ecological loss.

- c) **Safety zone:** The PP has not constructed the safety zone properly. Safety zone was found at places in breaks along the boundary. The safety zone is currently present in part of Eastern portion demarcating the Gevra OCP, part of north and part of western boundary. There is no safety zone in the advancing front. The boundary is about 15 km, whereas the safety zone is about 5.2 km. This is against the mining safety norms besides the FC condition
- d) **Top soil management:** During the site inspection, it was observed that top soil management by the agency is quite poor. There is no proper dumping of top soil and it is getting mixed with sub-soil. This leads to poor growth of plants. Topsoil on the overburdened site was found very thin and is vulnerable to erosion.
- e) **Soil conservation:** During the inspection it was observed that overburdened site is getting eroded and top soil is getting washed. Deep gullies and ravines formations were found, which are expanding every year. The slopes are getting steeper due to erosion, which need to be stabilized urgently by combination of mechanical means and plantation.
- f) **Wildlife management plan:** In pursuant to the Stage-I condition, the PP has got Wildlife Conservation Plan prepared by Tropical Forest Research Institute, Jabalpur. As informed by the PP, they have provided fund for the purpose; however, there is no information on implementation of the plan.
- g) **Species composition:** Monoculture is to be avoided. Earlier plantations had many pure patches of Cassia Siamea. However, current plantations are improved ones, with mixed with number of local species like Sal, Pongamia, Bauhinia, Ficus, Gmelina etc. It was observed that there is a need to enhance technical knowledge related to forestry within SECL and to address the shortage of forestry technical experts. This would enable SECL for quality plantation. During the site inspection, it was observed that SECL has planted Sal seedlings in the non-coal barring area in the years 2022-23.

- xi. **Recommendation of the IG (F), Sub-Office, Raipur:**
As stated above, the UA has to complete safety zone and provide CA land. The UA has to surrender the land not being used for mining or any other purpose. Additional penalty may be imposed for continued mining prior to Stage-II approval.

- 4. **Decision of the Advisory Committee:** The Committee after detailed discussion and deliberation with the DDGF (Central), Regional Office, Nagpur, and Nodal Officer, Chhattisgarh recommended to accept the

request of State Government for change in CA area and relaxation in time period for the notification of the area proposed for CA with following conditions:

- i. The State Government shall ensure that CA will be carried over 33.84 ha reclaimed non-forest land. The non-forest land identified to carry out CA shall be notified as RF/PF under Section 4 or Section 29 of the Indian Forest Act, 1927, or under the relevant section of the State Forest Act as the case may be, immediately but not later than 3 months from the date of issue of Stage- II/ Final approval.
- ii. Un-metalled road in the southern part of the proposed CA and reclaimed area is visible. In this regard, the state govt. shall ensure that the area is handed over free of all encumbrances by the user agency and the roads/paths being used by the user agency in this area shall be closed.
- iii. The User Agency shall return/surrender/handover the forest area where mining has already been done and the land is not being used for mining or any other purpose to the state government. A plan in this regard shall be submitted.
- iv. Since the mining has been continued without obtaining the Stage-II approval and the broken up area is in continuous possession of user agency wherein certain infrastructure has also been built, therefore the penalty for violation shall be equal to the NPV of forest land per hectare for each year of violation from the date of actual diversion as reported by the inspecting officer with maximum up to five (5) times the NPV plus 12 percent simple interest from the date of raising of such demand till the deposit is made.
- v. Keeping in view the fact that the area proposed for diversion is within the possession of User Agency without a valid approval and the orders of Hon'ble Supreme Court for the mines pertaining to SECL, the Regional Office shall separately examine the matter and initiate action u/s 3A/3B if applicable.
- vi. The State Government shall ensure that corrective measures for the maintenance of safety zone, top soil management and other issues raised by Regional Office are taken by the user agency within a period of three months from the issue of stage-II approval

Sub: Payment of amount of NPV and Penal Compensatory Afforestation by SECL in respect of mining proposals where in-principle approval under the Forest (Conservation) Act, 1980 has been granted - reg.

Sir,

The issue of payment of amount of NPV and Penal Compensatory Afforestation by SECL, in respect of above proposals, had come up before the Hon'ble Supreme Court. The Supreme Court in its order dated 08.09.2006 has directed the SECL authorities to deposit Rs. 100.00 crores within one week and another Rs. 200.00 crores within 2 months from the date of the Order. The Court further ordered that the mining operations may be allowed to be continued, however, in the event of failure in depositing the funds, as above, the mining operations shall be stopped forthwith. Subsequently, the applicant has obtained the orders from the Hon'ble Court for depositing the amount with Central Empowered Committee and accordingly, Rs. 100.00 crores have been deposited with CEC by the SECL.

In view of the above orders of the Hon'ble Court, I am directed to request you to allow the mining operations by SECL.

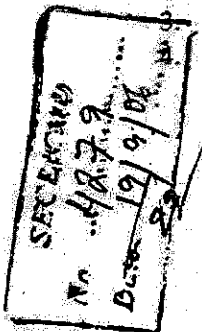

Yours faithfully,

(Pankaj Asthana)

Sub: Adjustment of Rs. 350 Crores deposited by SECL with CEC, New Delhi, as per the Orders of Hon'ble Supreme Court of India in IA No. 1441 and IA No. 1634 in IA No. 1441 for renewal of forest land lease against 21 proposals

Dear Sir,

With reference to above, you may kindly like to see that SECL had applied for renewal of forest land diversion / lease renewal for existing mines, mostly, in the year 2001 and 2002 (*list enclosed as Annexure-I for kind perusal*). During the processing of the applications, State forest Department had demanded for payment of Net Present Value (NPV) for Underground mining also. Therefore, SECL had filed an affidavit in the Hon'ble Supreme Court of India in IA No. 1441 in WP (C) 202 of 1995 in the year 2005, praying for exemption from payment of NPV for Underground mining in the forest land, as no forest is disturbed / lost due to underground mining operations. The Hon'ble Court, after hearing the case, had passed Orders on 16.12.2005 in IA No. 1441 in WP (C) 202 of 1995 to deposit **Rs. 50 Crores** towards NPV and mining operations were allowed to continue. Accordingly, SECL had deposited Rs. 50 Crores with CEC, New Delhi on 28.12.2005 (*copy of the Hon'ble Court's Order and receipt of Rs. 50 Crores are enclosed as Annexure-II & III for kind perusal*).

In the meantime, SECL had been granted In-principle approval for 11 proposals for renewal of forest land lease by MoEF, imposing conditions for payment of NPV against Underground mining as well as Cost of Penal Compensatory Afforestation for violation of FC Act, 1980. As, SECL applied for renewal of forest land lease within the time frame i.e. by 30.4.2003, therefore, SECL appealed to the Hon'ble Supreme Court of India in IA No. 1634 in IA No. 1441 in WP (C) 202 of 1995 for exemption from payment of Penal Compensatory Afforestation. After hearing the appeal, Hon'ble Supreme Court had passed Orders on 8.9.2006 directing SECL to deposit Rs. 300 Crores on lumpsum basis and the mining operations were allowed to continue. Accordingly, SECL had deposited **Rs. 300 Crores** [Rs. 100 Crores on 12.9.2006 and Rs. 200 Crores on 2.11.2006 with CEC, New Delhi (*Copy of Court Order & copies of receipts enclosed as Annexure-IV, V & VI for kind perusal*)] Therefore, in total, SECL deposited Rs. 350 Crores towards NPV and other charges with CEC, New Delhi for renewal of forest land lease against 21 proposals, and as learnt, the same transferred subsequently to CAMPA, New Delhi, by CEC.

The Hon'ble Supreme Court of India has passed an Order on 23.2.2007 in the matter IA No. 1677-1678 & 1679-1680 in 586 & 1713 in 1441 towards payment NPV for Underground mining and Overground mining stating that "as regards the Underground mining, the applicant shall pay 50% of the NPV amount with an 'Undertaking' to pay balance amount later on. As regards, Overground mining, 100% amount of NPV shall be paid by the applicant, subject to the IAs are allowed", which was communicated vide letter no. 8-74/2004-FC dated 19th September, 2007 of Shri A.K. Joshi, AIG (Forest), MoEF, New Delhi (*copy enclosed as Annexure - VII for kind perusal*).

Accordingly, as per the Orders of Hon'ble court and the letter of MoEF, SECL requested the State Forest Department to raise demand for payment of NPV, Cost of Compensatory Afforestation and other charges, as per the conditions imposed by MoEF against the proposals, which have been granted In-principle approvals. Demands were obtained from the DFOs concerned and the demanded amount is being duly adjusted against 14 proposals with the already deposited amount of Rs. 350 Crores with CEC, New Delhi, by SECL (*copy of the detailed calculation sheet enclosed as Annexure-VIII*).

Though the amount of Rs. 350 Crores was deposited with CEC, New Delhi against the renewal of forest land leases against 21 proposals of SECL, but, as per the actual demand raised by the State Forest Department, only 13 + 1 (*partly*) proposals could be adjusted against the payment of NPV, cost of Compensatory afforestation, Safety Zone Plantation and Fencing etc.. In another one proposal, DFO, South Shahdol is yet to raise demand for NPV for Underground mining, as per the Orders of Hon'ble Supreme Court of India dated 23.2.2007. The demanded amount exceeding Rs. 350 Crores are being paid to the State Forest Department, separately.

: 2 :

So far, payment of "Penal Compensatory Afforestation" is concerned, the required verdict is yet to be received from the Hon'ble Court. Also, regarding payment of penal interest on NPV, SECL also represented MoEF for exemption on payment in case of Churcha Colliery and Jhagrakhand Block, where SECL already deposited the required NPV forthwith by taking timely action as per the guidelines received from the Hon'ble Supreme Court of India.

Payment of NPV, Cost of Compensatory Afforestation and other charges against balance 07 (seven) proposals, for which In-principle approval from MoEF is awaiting, will be made as soon the approval obtained from MoEF / demands are raised by the State Forest Department on the same. The present status of the pending proposals are enclosed (as Annexure-IX) for kind perusal and further steps please.

So far, in case of Churcha Colliery and Jhagrakhand Block, the payment of NPV has been adjusted against the amount of Rs. 350 Crores deposited with CEC, New Delhi, as mentioned in the enclosure (Annexure -VII above).

In the present situation and bearing the fact as lined above, we request your good offices to grant us In-principle approval of Churcha Colliery and Jhagrakhand Block at the earliest. Other balance proposals relating to renewal of forestland lease, the payment will be released as soon necessary demand is put forward by the Forest Department to SECL.

Expecting your line of early co-operation in favour please.

Encl: As above (Annexure -I to IX).
