1.	The Nodal Office has not provided his own specific recommendation for the proposal in Part - IV of the proposal.	This matter related with Nodal Office.																																													
2.	As per DSS analysis, the calculated forest area for diversion is found to be 239.301 ha. Instead of 227.90 ha as per proposal. Therefore the correct KML file of 227.90 ha. shall be submitted.	Therefore the correct KML file of 227.90 ha. Submitted herewith in CD.																																													
3.	The KML file of the forest village 'Male' which is proposed to be re-located from the Chandoli National Park has not been submitted, which is required to be done. 4.	High-resolution satellite imagery shows that the plantations have been carried out within the forest land proposed for diversion at village Gosavewadi, Hanbarwadi, Kharade and village Bahuli. This needs clarification.	<p>Many forest lands (patches) were scrutinized for resettlement of proposed project affected persons (PAP's) of village Male. Most of the forest land patches were unsuitable for agriculture so consent was not accorded by PAP's. 		<p>it is going to save expenses over leveling of land and bringing it under irrigation which is otherwise to be born up by department. Another justification is that at the cost of this territorial plantation we are going to save and develop very rich wildlife area forming an inviolate area as per Hon. Supreme Court Guidelines.</p>
5	<p>Satellite imaginary shows that the forest land proposed for forest diversion at village Hanbarwadi, Helgaon, and village Kharade is neither continuous nor on plain surface. Identification of such fragmented patches for diversion on the undulating surface which may be susceptible to erosion can further lead to degradation of nearby forest areas owing to human incumencies and activities. This need clarification.</p>	<p>Many forest lands (patches) were scrutinized for resettlement by proposed project affected persons (PAP's) of village Male. Most of the forest land patches were unsuitable for agriculture so consent was not accorded by PAP's. But the said patches were found a suitable due to following reasons</p> <ol style="list-style-type: none"> 1. terrain is comparatively leveled 2. located near water canal 3. Having better soil depth. 4. Having better road connectivity 5. Better employment chances due to vicinity of Karad City. <p>So consent has been given by PAP's. Appropriate soil and moisture conservation (SMC) measures can be taken on remaining forest land near the diverted area in order to minimize possible degradation.</p>

11.	The State Govt. shall clarify whether the proposed relocation of villagers will make the total area under the village inviolate or not.	Village "Male" proposed for relocation has 140 PAP's as per list prepared by Revenue Department. Hence, out of total 140 PAP's 20 PAP's accorded their consent to relocate as per Option I and remaining 120 PAP's willing to relocate as per option II. This proposal for relocation of 120 PAP's has been submitted. Hence, relocation of all PAP's will make this area devoid of any people and inviolate.
