**[In Compliance to Condition A(9) as Stipulated in IPA]**

Oil India Limited hereby undertakes that the proposal for drilling of well at Loc TULA is already meant for Commercial Exploration / Production, since hydrocarbon discovery has already been established by ONGC during their earlier phase of operation during 2008. Change in land use pattern from Exploratory to Developmental as per MoEF&CC's guidelines - No. 11-423/2011-FC dtd 30.09.2019 and No. 22/8/2020-FC dtd 13.07.2022 are not applicable to present FC proposal of Oil India Limited for Loc TULA.

The 47.23 SQ.Km onshore AA/ONDSF/TULAMARA/2018 Oil Block in Gomati and South Tripura Districts of Tripura was allotted to Oil India Limited by Gol in 2019 as Discovered Small Field (DSF) by carving area from ONGC's fields. The said DSF block was allotted through bidding process with aim of early monetisation from the field by bringing the idle field to production, where hydrocarbon discovery has already been established. Hence, the block was allotted to Oil India Limited as Petroleum Mining Lease (PML), where commercial production is permitted, and State Govt of Tripura granted onshore Petroleum Mining Lease (PML) on 14.11.2019 under provision of Regulation 5(1)(ii) of Petroleum and Natural Gas Rules, 1959.
