**To,
The Deputy Commissioner
Ri-Bhoi District
Meghalaya State**

Sub: Request to issue Tribal Certificate (Under FRA) for diversion of Area 39274.70 SQ Mt. (3.92747 Ha.)Ha - Reserved Forest areas for laying 18" dia Carbon Steel Natural Gas Pipeline from Guwahati – Panisagar in District Ri-Bhoi, Meghalaya.

Dear Sir,

Indradhanush Gas Grid Limited (IGGL) is a Joint Venture of IOCL, ONGC, GAIL, OIL and NRL. IGGL was incorporated on 10th August 2018 towards implementing the Hydrocarbon Vision 2030 for North-East India released by Ministry of Petroleum & Natural Gas in 2016. Hydrocarbon Vision 2030 envisages North-East India economic development by leveraging the Region's Hydrocarbon potential, enhancing access to clean fuel and accelerating the growth of entire North-East India. As per the plan of IGGL Vision Document, the Gas Grid Project connects eight [8-no.] North-Eastern States viz. Assam, Arunachal Pradesh, Meghalaya, Manipur, Mizoram, Nagaland, Tripura and Sikkim to the Natural Gas Grid through Barauni-Guwahati Gas Pipeline. From Guwahati, the pipeline extends to Numaligarh, Itanagar, Dimapur, Kohima and Imphal in one direction; Shillong, Silchar, Aizawl and Agartala in the second direction. Gangtok gets connected to Siliguri from the gas pipeline coming from Barauni to Guwahati. The Natural Gas Grid in North-East India is planned to connect with upcoming Barauni to Guwahati Natural Gas Pipeline as a part of Urja-Ganga Scheme. The Grid would also connect to sustainable and viable gas sources in North-East India.

The proposed gas pipeline will be laid in the forest area 53435.10 Sq. Mt. (5.775 Ha.) East Khasi Hills, Meghalaya. As per the Rights under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act 2006 ('FRA', for short) under Protected Forest Clearance from Govt. of Tripura and MoEF, Tribal Certificate (FRA) as per enclosed format is required to be submitted.

In view of this, your good office is requested to provide the necessary Certificate as per detailed provided

Your early action in this regard will be highly appreciated.

Thanking you,

For Indradhanush Gas Grid Limited

Ref No:IGGL/GHY/NEGG/Meghalaya/5.775-Ha/2022/

Date: 28/02/2022

To
The Divisional Forest Officer
East Khasi Hills And Ri-Bhoi
Meghalaya

Sub: IMPLEMENTATION OF NORTH EAST GAS GRID IN NORTH-EAST INDIA

Forest Proposal for Grant of Permission for laying of IGGL proposed Guwahati - Panisagar Pipeline underground - size 18" Dia Carbon steel Natural Gas Pipeline Along with OFC Conduit – Total Diversion of Forest Land Area: 57750Sq.mtr. (i.e. 5.775 Hectares) in District of East Khasi Hills And Ri-Bhoi, Meghalaya.

Dear Sir,

Indradhanush Gas Grid Limited (IGGL) is a Joint Venture of IOCL, ONGC, GAIL, OIL and NRL. IGGL was incorporated on 10th August 2018 towards implementing North East Gas Grid in line with Hydrocarbon Vision 2030 for North-East India released by Ministry of Petroleum & Natural Gas in 2016. Hydrocarbon Vision 2030 envisages North-East India economic development by leveraging the Region's Hydrocarbon potential, enhancing access to clean fuel and accelerating the growth of entire North-East India. As per the plan of IGGL Vision Document, the Gas Grid Project connects eight [8-no.] North-Eastern States viz. Assam, Arunachal Pradesh, Meghalaya, Manipur, Mizoram, Nagaland, Tripura and Sikkim to the Natural Gas Grid through Barauni-Guwahati Gas Pipeline. From Guwahati, the pipeline extends to Numaligarh, Itanagar, Dimapur, Kohima and Imphal in one direction; Shillong, Silchar, Aizawl and Agartala in the second direction. Gangtok gets connected to Siliguri from the gas pipeline coming from Barauni to Guwahati. The Natural Gas Grid in North-East India is planned to connect with upcoming Barauni to Guwahati Natural Gas Pipeline as a part of Urja-Ganga Scheme. The Grid would also connect to sustainable and viable gas sources in North-East India.

This is one of the largest Developmental Projects benefitting to lacs of Indian Citizens of eight States as mentioned above. It is a Mega Development Project. IGGL may require to fell/cut the trees for laying the proposed pipeline underground where the trench size would be 1.2meter depth and 1.00 meter width. However, total RoU requirement of IGGL is 10.00 meter width. Further, if at all, it is required to clear the naturally grown trees, IGGL assures that IGGL will execute the job as per the conditions of the permission granted by Forest Department as per the prevailing Norms and upon depositing the CA and NPV payments as per Demand Note raised by the Forest Department.

We submit herewith the Forest Proposal alongwith Route Maps and relevant Annexures in six Copies for grant of No Objection Certificate for laying of Pipelines in Protected Forest land for laying of IGGL proposed Guwahati-Panisagar Pipeline of 18" Dia Steel Pipeline as mentioned above.
