

OFFICE OF THE PRINCIPAL CHIEF CONSERVATOR OF FORESTS, ODISHA,  
BHUBANESWAR

No. /9F(MG)-396/16  
Dated, Bhubaneswar, the September, 2016

To  
The Divisional Forest Officer,  
Cuttack Forest Division,  
Cuttack.

Sub: Proposal for diversion of 17.14 ha of forest land (as per sabik records as on 25.10.1980) in respect of Saruabil Chromite Mines of M/s Misrilal Mines (P) Ltd.-Proposal No.FP/OR/MIN/18303/2016.

Ref: Memo No.4079/5F.FC-I(MG)3/2014. Dated.25.08.2016 of The RCCF, Angul. P.438/

On Scrutiny of the above proposal in this office, it was observed that out of 9.90ha of pre-80 broken up non forest land, only 9.328 ha has been found to be recorded as forest as on 25/10/1980. Further, you have reported that 0.57 ha of Safety Zone also found to have been recorded as forest as on 25/10/1980. Thereby, the non forest land required for raising CA in lieu of the 17.14 ha of forest land proposed for diversion comes to 7.242 ha instead of 6.9 ha. There is shortfall of 0.342 ha of non forest land for which DP could not be processed further, showing your non serious approach in processing the diversion proposal. Identification of 0.342 ha of non forest land suitable for raising Compensatory Afforestation and revised Compensatory Afforestation scheme in respect of 7.242 ha of Compensatory Afforestation land are required for further processing of DP. Besides, requisite certificate from the Collector, Jajpur under FRA, 2005 along with Gram Sabha Resolution both in Odia and English are also required to be furnished.

Hence, the Diversion Proposal in 4 sets is returned herewith for resubmission of the same complete in all respect. Further, you are requested not to be casual while scrutinizing the Diversion proposal and forwarding it to higher quarter.

Encl: D.P in 4 sets.

Yours faithfully,

Additional Principal Chief Conservator of Forests,  
Forest Diversion & Nodal Officer, FC Act.
