

EDS dated 07.10.2016 FP/UK/ROAD/10159/2015
Const of Kuloli Munra Devilkhal MR (3.22 ha)

Following shortcomings still remain in the online reply dated 26.09.2016 of the State Govt to the EDS dated 05.07.2016 of this office which may be attended by the State Govt.:-

1. Though in reply to point no.4 digital map of the proposed road showing geo coordinates at all turning points has been uploaded at C (iv) Part I but the shape of the proposed road in this digital map is not matching with the shape of the proposed road uploaded in the KML file at C ii (b).
2. In reply to point no. 8 it is mentioned that revised CA scheme is uploaded at L (iv) Part I but there is no such column in the online performa Part I. The CA scheme uploaded at 13 Part II is for 6.40 ha which needs to be revised as asked in point no. 8 of the EDS dated 05.07.2016.
3. The reply to point no. 7 of this office EDS date 05.07.2016 is not complete. The FRA certificate now uploaded at K Part I online is undated and proceedings of the meeting of Village Level Committee are provided only for village Bheyari only. May provide/upload FRA certificate with date and copy of the proceedings of the meeting of Village Level Committee for the remaining 6 villages.
4. In online column 2 Part II the legal status of land proposed for diversion is shown as Village Forest 2.1 ha & Revenue Forest 1.12 ha whereas in the land scheduled uploaded as additional document in Part I the whole 3.22 ha land is shown as van panchayat land. May clarify.
5. In reply to point no. 2 it is mentioned that NPV calculation is uploaded by DFO in Part II but the same is not found uploaded in Part II online.
6. In reply to point no. 5 the digital map of CA is not uploaded at L (iv) C Part I properly since the same is not opening. May upload again.
7. As per Decision Support System (DSS) analysis of the KML file of CA area uploaded in Part-I L, the area of CA is now correctly shown as 6.44 ha but out of this 3 ha area falls in Moderately Dense Forest (MDF). May explore the area of Moderately Dense Forest and upload revised KML file of CA area having 6.44 ha area without very dense or moderately dense forest. Revised digital map and location of CA area in Sol toposheet may also be uploaded/provided accordingly.
