

Nauti-Chatoli to Jakhet (extension) (0.17 ha)

Following shortcomings still remain in the reply of the State Government uploaded online on 28-09-2017 to this office EDS dt. 09-08-2016, which may be attended:

1. The reply to point No. 3 is not complete as no clarification has been provided regarding number of trees involved, which is shown as 51 at online Part-II but as 36 in the enumeration list. Further, in the scheme provided for planting 10 times the number of trees proposed to felled by way of CA, the number of trees involved is mentioned as 94 and scheme given is for planting of 940 trees. State Government may clarify exact number of trees to be felled and correct all these documents accordingly.
2. Density and NPV may also be reviewed if required in view of corrections suggested at point No.1 above. Eco Class may also be reviewed.
3. Reply to the issues raised in this office letter dt. 30-05-2016 is also not provided, which may be provided now.
4. Original hard copy of FRA certificate alongwith original or attested copies of proceedings of meeting of District Level Committee, Sub Divisional Level Committee and Village Level Committee under FRA may be submitted.
5. GIS software generated geo-referenced digital map for the area proposed for diversion showing geo-coordinates at an interval of 200-300 m and at all turning points may be uploaded online at para- C (iv) Part-I. Location of muck dumping sites may also be shown using geo-coordinates. Original hard copy of the map may be submitted for record purpose.
