The proposal referred to above has been examined in this office in the light of Forest (Conservation) Act, 1980, and rules/guidelines framed thereunder. - 3) The details of the alternative routes explored and reason for choosing the present alignment.
- 4) The original or colour scanned SoI toposheet indicating the alternate route examined along with the proposed route.
- 5) The compensatory afforestation scheme is to be technically approved and duly signed by the competent authority.
- 6) The detail of muck dumping area and quantity of muck to be generated.
- 7) The current status of Forest Right Act, 2006 certificate.
- 8) Large numbers of trees are listed in 'Others' categories is to be submitted with scientific names; if not, at least with local names.
