

**Construction of motor road to connect Thalmar village (2.205ha)**

Following shortcomings still remain which may be attended by State Government:

1. Village Level Committee (VLC) meeting proceedings were required to be provided for both the villages mentioned at B 2.3 Part-I online. Though, the same are provided only for village Thalmar in the FRA certificate provided in the hard copy, in the copy now uploaded at K Part-I online name of village Devayal has been added in the certificate and in attendance sheet (which was submitted earlier for the village Thalmar) without any attestation and the names/number of the villagers mentioned in the attendance sheet is also the same as in the proceedings for VLC meeting of village Thalmar given in hard copy. May therefore, provide VLC meeting proceedings for village Devayal separately.
2. Original copies of the following documents may be furnished to be placed in hard copy:
  - (i) CA scheme and suitability certificate for area 4.41 ha.
  - (ii) GIS software generated digital map of the area proposed for diversion as uploaded at C (iv) Part-I online.
  - (iii) GIS software generated digital map of the area proposed for CA as uploaded at L (vi) Part-I & 13 (iii) Part-II online.
  - (iv) NPV calculation sheet.
  - (v) FRA certificate as uploaded at K Part-I online and VLC meeting proceedings for Devayal in compliance to point No.-1 above.
